

ASHS Outstanding Undergraduate Award

The ASHS Outstanding Horticulture Student Awards officially recognize exceptional undergraduate horticulture students in baccalaureate programs. Students enrolled in horticulture or in a plant science/crop science department with an emphasis or major in horticulture are eligible. Students' photographs plus names and school name will be announced, and students will receive a certificate of achievement. Students are selected on the basis of their academic achievements, leadership abilities, participation in campus/club activities, and service to their departments. Recognition is limited to one student per institution.
