CALIFORNIA SOCIETY OF HEALTH-SYSTEM PHARMACISTS
HOUSE OF DELEGATES

AMENDING LANGUAGE PROPOSAL

The projection equipment will be used to illustrate amending language being considered by the House. This will require patience on the part of the delegates while the amending language changes are entered into the computerized projection system.

To increase accuracy we are asking all delegates to prepare any suggested amending language in writing (see blanks below) and deliver a copy to the Chair of the House and the person at the front desk with the computer after the amending language has been introduced and seconded.

[If a delegate is able to anticipate the offering of amending language before the House Meeting, please fill in the blanks below and deliver a copy to the CSHP Helpdesk up to two (2) hours before the House convenes. Or deliver a copy directly to the Chair of the House before the meeting is called to order. This will expedite the process and allow the to-be-proposed language to be entered before it is presented, eliminating the required wait while the proposal is being entered for projection.]
