

American Escrow Association

Heather Wyant

Bio was written by Heather's employer, Mary Lou Paulk of Fidelity National Title Agency

Born in Tacoma, Washington, Heather has one brother, Brett, one sister, Veronica, (Veronica is an Escrow Officer in our FNTA-CLD unit), and two older step-sisters, Dona and Robin. By the time Heather was 11 years old, her family settled in and she grew up in Puyallup, WA, where she attended Rogers High School. More likely than not, Heather set a precedent at Rogers in her junior year by taking on the management of the football team and was awarded a "letter" in football as a direct result of her responsibilities as team manager. Heather continued to foster her school spirit by being the co-editor of the yearbook in her senior year.

After high school graduation, Heather went to the local community college for a year while working as a pre-school teacher. She felt early on that she had a calling to work with children. Obtaining her two-year associate's degree came a little later as Heather began working with 20 preschoolers – full-time. Her beginning adventures in Escrow-land were linked to her work at the pre-school as one of the mothers of two children Heather taught was the FNT Escrow Branch Manager in Puyallup. Wanting to expand her horizons and experience, Heather joined the FNT branch as the receptionist and quickly (within three months) progressed to the position of Assistant Escrow Officer. Within a year and a half, Heather was promoted to Escrow Officer, a position she held for three years.

With Heather's brother, Brett and his family moving to Mesa, Arizona, due to a job change, Heather decided she wanted to stay close to her family and especially her two nieces, so she inquired about any possible job opportunities at the Phoenix FNT operation. The rest is history...a happy opportunity for all of us here at Fidelity.

At the top of Heather's list of favorites is spending time with family and friends, closely followed by shopping, movies, and reading. Heather always manages to get in her "arts and crafts" fix on a regular basis, too.

If you know Heather, you know about her "dream places" to visit – Paris and Scotland, and taking a Caribbean cruise is on her "someday" list. Destination-Disneyland will always be on her list of favorite places, no doubt!

AND...even though she is partial to Italian and Mexican food, there is a Chinese restaurant in Puyallup that is just “The Best”. It’s the House of Kee and Heather enjoys going there on her visits to see her family in Washington.

When asked to share some things she holds dear, Heather said that the important qualities of being responsible, loving, generous, and taking care of others were taught to her by her mom. “My mom has my profound respect for setting such a good foundation for me and for being such a good example in my life. She is my rock!”

AND so, thank you for demonstrating those qualities to us here at Fidelity National Title, Heather. You consistently focus on making valuable contributions to our company and you are “rock solid” in your efforts in assisting me personally. Your enthusiasm, talents and “can do” attitude are so appreciated. Congratulations, Heather on being selected the October, 2012, Employee in the Spotlight.
