

Iowa AAMS Mission

The Iowa Association of Air Medical Services (AAMS) Chapter supports our members, their employees, their families, and the patients they serve, by

- Advocating for the Air Medical and Critical Care Ground Transport Industry and their life-saving contributions to our communities within the state of Iowa;
- Providing programs that enhance our members' ability to provide quality medical care and provide safe and effective air medical and critical care ground transportation;
- Providing professional education, safety programs, and information programs and opportunities.

Iowa AAMS Vision

To be the leading representative organization of air medical and critical care ground transport industry within our state
