## Guidance for how to promote AAW membership AAW's Value Equation

Since its grass-roots inception in 1986, the AAW community has positively influenced many aspects of woodturning. The continued passion and dedication of our members has helped the art and craft of woodturning evolve into the opportunities we enjoy today. But despite this extraordinary commitment and rich history, traditional art and craft pursuits like ours are at a crossroads, and recent research tells us that woodturners are questioning the value of their AAW membership. It makes sense that the AAW must continue finding ways to add value and stay relevant into the future.
