

2017

## Education Conference & Trade Show

April 3-5, 2017

Wyndham San Antonio Riverwalk  
SAN ANTONIO, TEXAS

### Who Should *Attend?*

- Water Suppliers
- Testers
- Plumbers
- Engineers
- Fire Officials
- Government Water Officials
- Manufacturers
- Suppliers
- Educators
- Anyone who works to protect the water supply

### Why *Attend?*

- **Education:** learn the latest research, technological advances, and best practices from experts in backflow prevention and related fields.
- **Networking:** connect with colleagues and build your professional network.
- **Career Advancement:** take advantage of opportunities to enhance your knowledge and skill set and increase your value to your customers, employers, and community.
- **Certification:** demonstrate your expertise through ABPA's highly regarded Backflow Prevention Assembly Tester and Cross-Connection Control Specialist certification programs.
- **Social:** enjoy the fun, casual atmosphere of San Antonio's River Walk with other attendees.

# You're Invited!

On behalf of the American Backflow Prevention Association (ABPA) and the San Antonio ABPA Chapter, we invite you to the 33rd Annual Educational Conference and Trade Show. This ABPA Conference provides an unparalleled forum for exchanging the latest in research and technological advances in the field of backflow prevention. It is also an opportunity to spend time informally with friends, colleagues, and world leaders in the field.

We're excited to have San Antonio as this year's conference city – and we're right on the famous River Walk, San Antonio's "world's largest hotel lobby," for your exploration and enjoyment. The Conference Committee and the San Antonio ABPA Chapter have created an informative and interesting program featuring forty technical presentations covering the spectrum of the cross-connection and backflow prevention industry. The Conference speakers include well-known experts from the Americas as well as Australia, and the Trade Show will connect you with vendors who support our industry.

Enhance your technical knowledge, build your skill set, expand your network, share your experience, and enjoy the excitement! We look forward to welcoming you to San Antonio!

Sincerely,

John Graham  
ABPA International President

Sincerely,

Brad Harrell  
San Antonio ABPA Chapter President

## Exhibit/Sponsorship Opportunities

Do you provide equipment or services to the Backflow industry? If so, take advantage of the opportunity to reach your target market through ABPA's year-round Sponsorship program, which includes being an exhibitor at the Annual Conference, or as an Exhibitor for this event only. Exhibitors receive one (1) complimentary registration, a 10'x10' booth, and your logo listing in the Conference program for \$1,250. Program Book ad upgrade available for an additional fee.

Annual Sponsorship options include your logo linked to your site on the ABPA website, advertising in the quarterly ABPA newsletter, the Exhibitor package, and more.

For more information, go to  
[www.abpa.org/AdvertiseSponsor](http://www.abpa.org/AdvertiseSponsor)

## Certification

ABPA administers certification exams throughout the year to document that backflow prevention professionals demonstrate their proficiency according to the ABPA certification programs. Exams administered include:

- Backflow Prevention Assembly Tester
- Cross-Connection Control Specialist
- Backflow Prevention Assembly Tester Proctor

### \*Certification at the Annual Conference and Trade Show – Wednesday, April 5th

#### Morning: Wet Lab Practice Session

1:00 p.m.: Backflow Prevention Assembly Tester Certification Exam

1:00 p.m.: Cross-Connection Control Specialist Certification Exam

\* Separate registration required

- Sunday Welcome Reception
- Continental Breakfasts and Breaks
- Monday Luncheon
- Tuesday Awards Luncheon
- Monday Vendor Reception

# ABPA's 33rd Annual Education Conference Agenda

## Sunday, April 2, 2017

Welcome Reception (*must pre-register*)

## Monday, April 3, 2017

### GENERAL SESSIONS

Establishing and Managing an Effective Cross-Connection Control Program  
 The Cost of Not Having a Cross-Connection Control Program  
 Crisis Communication

### SPLIT SESSIONS

#### A

Cross-Connection Control Programs and the Revised Total Coliform Rule  
 Conflicts Created by Well-Intentioned Backflow Regulations  
 Legionnaire's Disease and Backflow Protection (OR) Other Waterborne Disease  
 Confined Spaces Related to Backflow Prevention Assemblies

#### B

Backflow Technician Awareness: Antifreeze Fire Sprinkler Systems and the Recent Changes to NFPA 13, 13R, 13D, & 25  
 Designing Fire Systems and Determining What Pressure Loss Curve to Use  
 Politics and Backflow Protection: An Australian Viewpoint  
 The State of Cross-Connection Control Programs in Canada

## Tuesday, April 4, 2017

### SPLIT SESSIONS - MORNING

#### A

Developing an Effective Ordinance for a Cross-Connection Control Program  
 Containment vs. Isolation Programs  
 Public Education  
 Quality Control of a Backflow Prevention Assembly Testing Program

#### B

Green Codes and Standards - Impact on Landscape Irrigation  
 Failure Rates of Assemblies on Lawn Irrigation Systems  
 Carbonated Beverage Systems and Backflow Protection  
 Backflow in Fire Systems: Balancing Flow Rates with Protection

#### Tester Workshops

DC Field Test Procedures  
 PVB Field Test Procedures  
 SVB Field Test Procedures  
 RP Field Test Procedures

### ABPA Business Meeting and Awards Luncheon

### SPLIT SESSIONS - AFTERNOON
