

ABPA Certification Program - Rule Change Notification

Approved by ABPA Board of Directors on July 28, 2017

Posted: August 2, 2017

At the direction of the ABPA Board of Directors, the Certification Committee has developed a number of program enhancements to the Tester and Specialist Certification Programs. One of these enhancements to the Tester Certification Program involves a rule change, which must be published for sixty (60) days in advance of implementation. During this period, member and public input will be received; address your comments to certification@ABPA.org

The rule change approved by the ABPA Board is as follows:

Section 5.3

The applicant shall successfully complete the written examination and the performance examination. ~~Both examinations shall be successfully completed within thirty (30) days of each other.~~ Applicants failing of the written or performance examination may retain the passing ~~written~~ score from the initial examination for one (1) year and must apply for re-examination per Section 3 of these rules.

Once all comment has been considered, the implementation date will be announced.

Thank you.

Michael C. Ahlee
