

ABYC is Boating Safety...Built in® !

Did you know that 90% of boats on the water are built to ABYC standards?

ABYC has created voluntary safety standards for the design, construction, maintenance, and repair of boats for more than 60 years. *Standards and Technical Information Reports for Small Craft* covers all the major boat systems. The development, implementation, and annual review of these standards directly correlates to the significant reduction in the number of boating accidents over the past six decades.

➔ *Where ABYC Standards Apply* ➔

2018 Standards and Technical Information Reports for Small Craft

A-1	Marine Liquefied Petroleum LPG Systems	H-35	Powering and Load Capacity of Pontoon Boats
A-3	Galley Stoves	H-37	Jet Boats - Light Weight
A-4	Fire Fighting Equipment	H-40	Anchoring, Mooring, and Strong Points
A-6	Refrigeration and Air Conditioning Equipment	H-41	Reboarding Means, Ladders, Handholds, Rails, and Lifelines
A-7	Liquid and Solid Fueled Boat Heating Systems	P-1	Installation of Exhaust Systems for Propulsion and Auxiliary Engines
A-14	Gasoline and Propane Gas Detection Systems	P-4	Marine Inboard Engines and Transmissions
A-16	Electric Navigation Lights	P-6	Propeller Shafting Systems
A-22	Marine Compressed Natural Gas (CNG) Systems	P-14	Mechanical Propulsion Control Systems
A-23	Sound Signal Appliances	P-17	Mechanical Steering Systems
A-24	Carbon Monoxide Detection Systems	P-18	Cable Over Pulley Steering Systems for Outboard Engines
A-26	LPG and CNG Fueled Appliances	P-21	Manual Hydraulic Steering Systems
A-27	Alternating Current (AC) Generator Sets	P-22	Steering Wheels
A-28	Galvanic Isolators	P-23	Mechanical Steering and Propulsion Controls for Jet Boats
A-30	Cooking Appliances with Integral LPG Cylinders	P-24	Electric/Electronic Propulsion Control Systems
A-31	Battery Chargers and Inverters	P-27	Electric/Electronic Steering Control Systems
A-32	AC Power Conversion Equipment and Systems	S-7	Boat Capacity Labels
A-33	Emergency Engine/Propulsion Cut-Off Devices	S-8	Boat Measurement and Weight
C-1	Primer Bulbs	S-30	Outboard Engine and Related Equipment Weights
C-2	Carbon Canisters for Marine Applications	S-31	Environmental Considerations for Electronic Systems and Components Installed Onboard Boats
C-1500	Ignition Protection for Marine Products	T-1	Aluminum Applications for Boats and Yachts
E-2	Cathodic Protection	T-5	Safety Signs and Labels
E-10	Storage Batteries	T-17	Compass Installation
E-11	AC & DC Electrical Systems on Boats	T-19	Fabrication Equipment, Procedures, and Materials Quality Control
E-30	Electrical Propulsion Systems	T-24	Owner/Operator's Manuals
H-1	Field of Vision from the Helm Position	T-32	Design and Construction in Consideration of Aquatic Invasive Species
H-2	Ventilation of Boats Using Gasoline	TE-4	Lightning Protection
H-3	Exterior Windows, Windshields, Hatches, Doors, Port Lights, & Glazing Materials	TE-12	Three Phase AC Electrical Systems on Boats
H-4	Cockpit Drainage Systems	TH-12	Outboard Engine Mounting Guide
H-5	Boat Load Capacity	TH-22	Educational Information About Carbon Monoxide
H-8	Buoyancy in the Event of Flooding/Swamping	TH-23	Design, Construction, and Testing of Boats in Consideration of Carbon Monoxide
H-22	Electric Bilge Pump Systems	TH-29	Sewage Systems
H-23	Water Systems for Use on Boats	TY-28	Boat Lifting and Storage
H-24	Gasoline Fuel Systems		
H-25	Portable Marine Gasoline Fuel Systems		
H-26	Powering of Boats		
H-27	Seacocks, Thru-hull Fittings, and Drain Plugs		
H-28	Inflatable Boats		
H-29	Canoes and Kayaks		
H-30	Hydraulic Systems		
H-31	Seat Structures		
H-32	Ventilation of Boats Using Diesel Fuel		
H-33	Diesel Fuel Systems
