

Table 1. TNC Hazard and Community Resilience Risk Matrix populated by workshop participants

Developed by The Nature Conservancy (A. Whelchel - 01/2012)		Priority	Time
Vulnerabilities and Assets	Risk Matrix	H - M - L	S/L Term
Top Priority Hazards (sea level rise, flooding, wind, etc)			
	Hazard <i>Storm Surge</i>	Hazard <i>Sea Level Rise</i>	Hazard <i>Flooding</i>
			Hazard <i>Drought</i>
Infrastructure Vulnerabilities/Assets			
<i>Water Systems</i>	<i>Hardening Infrastructure</i> <i>Planning Retreat (H - S)</i> <i>Implementing Retreat (M - L)</i>		<i>Green / Grey Infrastructure</i> <i>Reuse Waste Water (S)</i> <i>Water Management</i>
<i>Transportation</i>			
<i>Power Supply / Energy</i>			
Societal Vulnerabilities/Assets			
<i>Hospital</i>	<i>Evacuation Plans</i> <i>Backup Power</i> <i>Building Codes (H - S)</i>	<i>Hazardous Waste</i>	<i>Water Management</i>
<i>Commercial</i>			
<i>Vulnerable Populations, Community</i>			
<i>Government, Schools</i>			
Ecosystem Vulnerabilities/Assets			
<i>Shoreline/Tourism</i>	<i>Zoning/Land Use</i> <i>Insurance</i> <i>Natural Buffers</i> <i>Education & Outreach</i>	<i>Buy-back (L)</i>	
<i>Agriculture</i>			
<i>Groundwater</i>			
<i>Fisheries / Marine</i>
