

Date: September 20, 2018

Time: 12:00 PM-1:00 PM

Location: YOUR OFFICE PC

Credit: 1.0 PDH

Costs: \$100 (Member rate) for a single site connection, allows participants in your listening audience (pricing across). Each registration includes 1 Telephone (Audio) and 1 Internet (Visual) connection (one site connection). The call-in line is toll free. Multiple connections at one site require a separate site fee and registration form. Please list all attendees (per site) on this form and the contact person (Site Coordinator*). Attendees may be added on day of Webinar but must register for site connections ahead of time.

Details: To participate you need a speaker phone to hear the audio, and a PC/laptop with Internet connection for the visual. Individual sites will have the opportunity to ask questions to the presenter. **Suggested:** A Site may have 1 site connection, and project images to an audience. Therefore, they pay only one site fee in addition to attendees fees.

PDH Credit: After receiving your site's faxed sign-in/attendance sheet, we will send certificates via e-mail to the Site Coordinator* at your firm.

Cancellations/Changes: If a site fails to connect on day of Webinar, no refunds will be issued. No-show attendees will be charged; however, substitutions are allowed.

Course Description:

Your equipment may be effecting your power quality and, in turn, the efficiency of your building. This webinar will examine harmonic distortion, and will teach participants how make variable frequency drives work in their favor, as well as increase energy efficiency for a green building. This presentation will also examine changes to IEEE519-2014.

Instructor:

Christopher Jaszczolt | Yaskawa America, Inc.
