# Recognizing New York's Best

We are proud to be a **Diamond+ Sponsor** of this year's Engineering Excellence Awards Gala and congratulate all of our 2026 award recipients, including Diamond award winners, the LIRR Hall Interlocking Expansion Project (MTA C&D), The Backbone of Brooklyn – Innovative BQE Repairs (NYCDOT), and Suffolk County Community College – Design Services for Renewable Energy and STEM Center.

# LEGACY BUILT. PEOPLE DRIVEN.

Iovino Enterprises is the parent organization of a family of heavy civil and specialty contracting business groups. For over 20 years we have developed and maintained infrastructure in NYC and the surrounding region.

Congratulations to all of the recognized recipients of tonight's awards for your innovative and transformative engineering achievements. We are proud to have been the General Contractor of these award-winning projects.

**Diamond Award - Category C: Structural Systems**

LETTER FROM  
*The Committee*

**Welcome to ACEC New York's 59th Annual Engineering Excellence Awards, the "Academy Awards" of engineering.**

EEA project entries are reviewed annually by a distinguished panel of judges. The entries are judged based on uniqueness and originality, technical value to the engineering profession, social and economic considerations, and success in meeting client goals.

In 2026, we proudly recognize 131 exceptional projects that demonstrate the skill, dedication, and perseverance behind engineering excellence.

Congratulations to the award-winning teams and clients whose achievements have earned the admiration of everyone here tonight.  
Your work is truly commendable.

# MENU

## STARTER

**Vodka & Cured Smoked Salmon Tart**

**Everything Spice Onion Dip, Caviar, House Chips**

## MID-COURSE

**Scallop**

Corn Puree, Summer Peas

## ENTRÉE

**Grilled Filet of Beef**

Potato Gnocchi, Asparagus, Wild Mushrooms, Red Wine Sauce

## SILENT ENTRÉE

**Seared Gulf Snapper**

Corn Puree, Char Seasonal Vegetables, Lemon Herb Oil

**Scallion Pancake (vegan)**

Yu Choy, Sweet & Sour Japanese Eggplant, Edamame Salad,  
Lemongrass Ginger Soy Glaze

## DESSERT TRIO

**Mango Mousse Oreo Tower**

Mango Mousse, Fresh Mango, Blueberries, Oreo Crust

**Blueberry New York Cheesecake**

Blueberry Cheesecake, Assorted Berry Compote, Raspberry  
Sauce, Pecan Crust

**German Chocolate Flourless Cake (gf)**

Pecan and Coconut Cake Filling, Rich Chocolate Ganache, Fresh  
Raspberry

*\*Vegan option for mid-course will be a King Mushroom with corn puree  
and summer peas*

# 2025 BEST PANEL *Award*

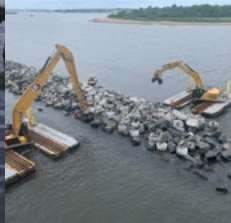

The Best Panel Award is given to the firm that best communicates engineering excellence through the creation of a panel that is visually exciting and eye-catching, as well as promoting the achievements of the engineering profession.

## LIVING BREAKWATERS

### Protective Nature-Based Infrastructure

The project consists primarily of 2,400 linear feet of near-shore breakwaters—partially submerged structures built of stone and ecologically-enhanced concrete units—that break waves, reduce erosion of the beach along Conference House Park, and provide a range of habitat spaces for oysters, fin fish, and other marine species.

The breakwaters are designed to reduce the impact of climate-intensified weather events on the low-lying coastal community of Tottenville, which experienced some of the most damaging waves in the region and tragic loss of life during Superstorm Sandy. Informed by extensive hydrodynamic modeling, the breakwaters are also designed to slow and, eventually, reverse decades of beach erosion along the Tottenville shoreline. Four of the breakwaters are also constructed with “reef ridges” and “reef streets” that provide diverse habitat space, with live oyster installation expected after completion.

Breakwater crenulation under construction.

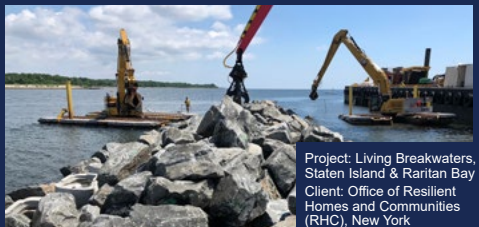

Physical model testing of overall layout.

Overall project site rendering.

Harbor seals spotted on partially constructed breakwater.

View of breakwater trunk under construction.

Project: Living Breakwaters, Staten Island & Raritan Bay  
 Client: Office of Resilient Homes and Communities (RHOC), New York  
 Entrant: COWI, New York

# 2025 EMPIRE Award

The Empire Award honors the top-ranked project in the Engineering Excellence Program that was designed and built in New York State.

## SUPPORTING A LANDMARK AT THE CROSSROADS OF THE WORLD

### Complicated Excavations at One of the World's Busiest Intersections

TSX Broadway is located within one of the busiest intersections of Times Square in New York City, which is commonly referred to as "The Crossroads of the World". The goal of the TSX Broadway project was to replace most of an outdated hotel with a state-of-the-art hotel, and to build a retail mall under an existing landmarked theater.

The entrant developed unique and complex support-of-excavation and foundation support designs for the following conditions:

- o Temporarily supporting city streets, existing building vault spaces surrounding the site and an adjacent subway tunnel.
- o Supporting a 17-foot-deep excavation extending below the foundations of a 17-story adjacent building.
- o Using "Support-of Excavation" caissons to "brace" the rock below the hotel's super-column footings.
- o Using drilled high-capacity-caisson foundation elements to support the new hotel super columns.
- o Analyzing and designing the maximum-allowed unbraced length for both the temporary and permanent caissons for various loads.

These design schemes allowed for simultaneously excavating rock for an additional below grade level for retail space, while supporting and demolishing a hotel building and lifting a landmark theater 31 feet.

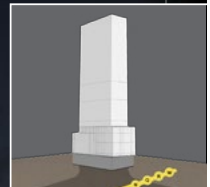

Drilling of 36-inch Diameter Caissons within Building

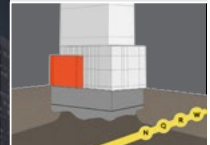

Lateral Testing for Caissons up to 1,160 kips

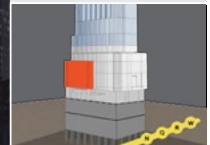

Foundation Support and Excavation below Landmark Theatre

Original Building Layout

Beginning of Excavation and Foundation Support Work Below Existing Theater and Hotel

Completed Project with Theater Lifted, Caissons Installed and Additional Cellar Level Constructed

TSX Broadway, New York, NY
