## Notes

- **Kosciuszko Bridge**: Major projects include the renovation of the structure and the construction of new sections to accommodate the increasing traffic.
- **LaGuardia Airport Terminal B**: Significant role in the development of transportation infrastructure in the New York metropolitan area.
- **15 Hudson Square**: Construction of a large commercial building.
- **Highland Interchange**: National recognition for the large-scale infrastructure project.
- **Construction renovation**: Indicates ongoing improvements to existing structures.
- **Engineering**: Contributions to the design and construction of various projects.
- **Facility management**: Services related to maintaining and operating facilities.
- **Architectural**: Design and planning services for construction projects.

## Acknowledgments

The list represents a snapshot of the most prominent engineering firms in the New York area, emphasizing their contributions to infrastructure development, transportation solutions, and innovative constructions. Each firm has a rich history of projects, and their10 | CRIMES NEW YORK BUSINESS | AUGUST 19, 2019

---

This list highlights the leading engineering firms in New York, showcasing their significant contributions to infrastructure and development projects. Each entry provides a glimpse into the scale and scope of their work, reflecting the dynamic and ever-evolving landscape of urban engineering.
Rache Simmons, MD, FACS
Breast Surgeon
Weiskopf Professor of Surgical Oncology
Associate Dean of Diversity and Inclusion
Director, Office of Women
Co-Director, Women Physicians of NewYork-Presbyterian

Congratulations to Dr. Rache Simmons for being named one of Crain's inaugural Notable Women in Talent.

We commend Dr. Simmons' commitment to leadership and equity for women in the sciences. Her continued work on initiatives like job satisfaction, promotions, and compensation equity will allow women physicians to reach their full potentials.
