“Implementing Prevention and Quality in a New Era”
Facebook has a population of 500 million.
50 million tweets are sent a day.
You have something to say.
Can they hear you?

Session 15: Speak Into the Microphone:
Leveraging Social Media for Population Health Improvement

Thursday, February 17th, 4:45pm
Lone Star E-Level 2

At the conclusion of this session, participants will be able to:
- Demonstrate an understanding of the basics of social media – the tools, the principles behind them, and where they are headed
- Explain the potential of these new tools to other preventive health professionals
- Describe how others in the field are using this new approach
- Choose a path for beginning to experiment with social media, including engaging in peer-to-peer interaction around pertinent preventive medicine issues using ACPM-sponsored social media

February 2011

Dear Colleagues,

Welcome to San Antonio and the annual meeting of the American College of Preventive Medicine – Preventive Medicine 2011. On behalf of the leadership and planning committee, we are delighted you’ve joined us for this premier event in the field of preventive medicine. Since we gathered one year ago in Washington DC, we’ve seen the enactment of momentous federal health reform legislation. We’ve also seen greater importance placed on the role of preventive medicine in health reform. The theme of this year’s meeting – “Prevention and Quality in a New Era” – could not be more appropriate.

Recognizing that federal health reform legislation is going to impact the worlds of health care, public health, and preventive medicine, Preventive Medicine 2011 brings together thought leaders, peers, and other stakeholders to explore what some expect could be revolutionary changes to the system. We are pleased you have chosen to spend several days with us, taking advantage of cutting-edge education, scientific updates, and best practices in Clinical Preventive and Lifestyle Medicine, Public Health Practice, and Prevention Policy. No other meeting provides such a unique opportunity for you to enhance your knowledge base and adapt your skill sets.

To our members, sponsors, exhibitors and valued attendees from previous Preventive Medicine conferences, we extend a warm welcome back and appreciate your ongoing support of the College. I also want to welcome our first-time attendees, exhibitors, and sponsors. We look forward to building strong relationships with you going forward into this new era.

We also welcome our colleagues from the American College of Medical Quality and the American College of Lifestyle Medicine and encourage you to participate in the outstanding educational sessions and networking offered at Medical Quality 2011 and Lifestyle Medicine 2011. These sessions are fully integrated into the Preventive Medicine 2011 agenda and included with your registration.

I also encourage you to participate in many of the nearly 40 educational sessions and skill-building institutes featuring the nation’s leading experts and luminaries in the field of preventive medicine. Earn up to 32.0 AMA PRA Category 1 credits. Network with your colleagues and explore the real world challenges facing your fellow preventive medicine professionals. Engage in the ACPM Advocacy session to learn about policy issues of concern to the College and its members.

You won’t want to miss our ever popular ACPM Awards/Fellows banquet where we honor and celebrate the accomplishments of our peers. Throughout the week, you’ll want to visit the ACPM Preventive Medicine 2011 exhibit hall featuring a variety of government and industry organizations. Peruse the outstanding poster presentations featuring cutting edge research from the field. And don’t forget to spend some time enjoying the great many attractions that San Antonio has to offer.

Finally, thank you to our sponsors for their generous support of Preventive Medicine 2011 and the preventive medicine field.

ACPM’s annual meeting is the premier national forum for specialists in preventive medicine. Your involvement is what makes it so. I look forward to seeing you here in San Antonio and again in 2012 in Orlando, Florida.

Sincerely,

Mark, Johnson, MD, MPH, FACPM
President, American College of Preventive Medicine
Conference Objectives:

- Acquire the information and skills necessary to convey issues and evidence-based recommendations in population health and prevention policy.
- Describe innovative approaches to public health issues and advances in public health programs.
- Understand current recommendations for assessing health risks and delivering effective, evidence-based clinical preventive services to individuals and populations.
- Gain increased knowledge and skills for the effective practice of Lifestyle Medicine
- Describe career options and pathways in both the public sector and private sector, and explain the challenges and opportunities present in changing jobs and career focus throughout the professional lifetime of a preventive medicine physician.
- Understand how to apply quality improvement tools and techniques to continuously improve healthcare processes and programs.
The American College of Preventive Medicine would like to extend a special thank you to our generous 2011 sponsors.

Detailed Program Agenda

Wednesday, February 16, 2011

7:00 a.m. to 7:00 p.m.
Registration & Information Desk
Texas West Foyer-Level Four

Full Day Skill Building Institutes
9:00 a.m. to 5:00 p.m.

Institute 1:
Preventive Medicine Review Institute: Epidemiology and Biostatistics
Room: Texas B-Level Four

Moderator:
- Jill Waalen, MD, MPH, FACP, Chair, ACPM Board Review Course and Assistant Professor, The Scripps Research Institute

Speakers:
- Jill Waalen, MD, MPH, FACP, Chair, ACPM Board Review Course and Assistant Professor, The Scripps Research Institute
- David Mann, MD, PhD, Epidemiologist, Maryland Department of Health and Mental Hygiene

At the conclusion of this session, participants will be able to:
- Understand the basic concepts of descriptive and inferential statistics
- Identify and apply appropriate statistical tests to common research questions
- Identify measures of disease frequency and excess risk and apply these in the context of epidemiologic questions and problems
- Identify the characteristics and methodology for different research designs and understand the sources of bias for each design
- Understand the calculation and application of screening test utilities

Institute 2:
Local Health Authority Institute on Disaster Planning:
Tours of the Emergency Operations Center and Texas Center for Infectious Diseases Institute
Transportation will be departing at 8:30 a.m. from the Lobby

Moderator:
- Sandra Guerra, MD, MPH, Regional Medical Director, Texas Department of Health

Speakers:
- Eric Epley, NREMT-P, CEM, Executive Director, Southwest Texas Regional Advisory Council for Trauma
- Kevin Dinnin, Baptist Children and Family Services
- W. Nim Kidd, CEM, Assistant Director, Texas Department of Public Safety, Chief Texas Division of Emergency Management
- Emily Kidd, MD, Assistant Professor, UT Health Science Center San Antonio, Assistant Medical Director, Department of Emergency Health Sciences, Assistant Medical Director, San Antonio Fire Department
- James N. Elkins, FACHE, Superintendent, Texas Center for Infectious Disease
- David E. Griffith, MD Professor of Medicine, University of Texas Health Sciences Center, Tyler, Assistant Medical Director, Heartland National TB Center

Institute 3:
Group Visits: How to Set Up, Improve Patient Outcomes, and Make Money for Your Practice
Room: Texas A-Level Four

Moderator:
- Clarence S.F. Ing, MD, MPH, FACP, Medical Director & President, Newstart Medical Clinic Weimar Institute

Speakers:
- George E. Guthrie, MD, MPH, CDE, CNS, Assistant Director, Family Medicine Residency, Florida Hospital
- Wes Youngberg, DrPH, MPH, CNS, Director of the Lifestyle Medicine Clinic & Wellness Center, Rancho Family Medical Group
- Nora Gimpel, MD, Assistant Professor, Chief, Division of Community Medicine, UT Southwestern Medical Center at Dallas Department of Family and Community Medicine

At the conclusion of this session, participants will be able to:
- Identify components and needed to facilitate SMAs
- Discuss potential use of SMAs for other conditions
- Code and bill effectively and make money for your practice appointment based on the Chronic Care Model for diabetes and heart failure
- Identify implementation barriers
- Identify resources and stakeholders at participant’s practice site to implement shared medical appointments
- Demonstrate skills in motivational interviewing needed to facilitate SMAs
- Identify areas for evaluation of SMAs

Half Day Skill Building Institutes
8:00 a.m. to 12:00 p.m.

Institute 4:
How to Practice Clinical Preventive/Lifestyle Medicine Clinically
Room: Texas A-Level Four

Moderator:
- Marc Braman, MD, MPH, Executive Director and Past President, American College of Lifestyle Medicine
- Wayne Dysinger, MD, MPH, FACP, President, American College of Lifestyle Medicine

Speakers:
- Liana Lianov, MD, MPH, FACP, Assistant Professor, Departments of Public Health Sciences and Internal Medicine, University of California Davis
- Marc Braman, MD, MPH, Executive Director and Past President, American College of Lifestyle Medicine
- John L. Caccavale, PhD, MSC, ABMP, Executive Director, National Alliance of Professional Psychology Providers
- Wayne Dysinger, MD, MPH, FACP, President, American College of Lifestyle Medicine

At the conclusion of this session, participants will be able to:
- Describe at least three tools for
Thursday, February 17, 2011

6:00 a.m. to 7:00 a.m.
Wellness Activity: Walk the Docs! Walk/ Jog around Hemisfair Park with your colleagues. Meet by the bell station in Main Lobby.

7:00 a.m. to 7:00 p.m.
ACPM Committee Meetings
Medical Student Section Committee
Room: Crockett A-Level Four
Policy Committee
Room: Republic A-Level Four
7:00 a.m. to 8:20 a.m.
Welcome & Orientation (For First Time Attendees)
Room: Crockett D-Level Four
Non-CME Educational Session: Career Opportunities for Preventive Medicine in the U.S. Army
Room: Lone Star F-Level Four
Speaker:
Col. Robert F. DeFraites, Director of Armed Forces Health Surveillance Center and Consultant for Preventive Medicine for the Army Surgeon General

7:30 a.m. to 8:30 a.m.
Continental Breakfast and Grand Opening of Exhibit Hall
Room: Texas D/E/F-Level Four

8:30 a.m. to 10:00 a.m.
Opening General Session
& KBS Guest Lecturer: Science, Sense, & Elephense
Room: Texas A/B/C-Level Four
Moderator:
Mark Johnson, MD, MPH, FACPM, President, American College of Preventive Medicine
Speaker:
David L. Katz, MD, MPH, FACPM, FACP, Director, Prevention Research Center, Yale University School of Medicine
At the conclusion of this session, participants will be able to:
• Know the leading proximal and root causes of premature death in the US, and their trends over time
• Know the role of lifestyle interventions in mitigating premature death and chronic disease
• Recognize that the ‘public’ is a barrier to public health practice
• Understand the ‘causal pathway’ leading to prevailing chronic diseases, and the elements required to reverse engineer this pathway
• Acquire a working familiarity with some good poetry, and gain a new appreciation for its relevance to the art and science of preventive medicine

10:00 a.m. to 10:20 a.m.
Coffee Break in the Exhibit Hall
Room: Texas D/E/F-Level Four

10:20 a.m. to 11:50 a.m.
Concurrent Sessions 1

Session 1: Comparative Effectiveness

Session 2: Public Health Considerations and the Response to the Gulf of Mexico Oil Spill
Room: Lone Star B-Level Two
Moderator:
Cindy L. Parker, MD, MPH, FACP, Assistant Professor, Co-Director Program on Global Sustainability and Health, Johns Hopkins Bloomberg School of Public Health
Speakers:
Aubrey Miller, MD, MPH, Senior Medical Advisor, NIH/National Institute of Environmental Health Sciences

for Multiple Conditions: The Cleveland Clinic’s Lifestyle 180 Program
Room: Lone Star A-Level Two
Moderator:
Marc Braman, MD, MPH, Executive Director and Past President, American College of Lifestyle Medicine
Speakers:
John L. Caccavale, PhD, MSCR, ABMP, Executive Director, National Alliance of Professional Psychology Providers
Mladen Golubić, MD, PhD, Interim Medical Director, Center for Disease Reversal Lifestyle 180 Program, Wellness Institute
At the conclusion of this session, participants will be able to:
• Identify the most successful lifestyle strategies to treat mild depression
• Articulate and describe the most current research on lifestyle practices in treating mild depression
• Develop successful lifestyle strategies to treat sleep disorders in mildly depressed patients
• Evaluate the most current research on lifestyle practices as they relate to the treatment of depression
• Describe key components of a comprehensive lifestyle intervention
• Discuss beneficial biometrics and biomarker outcomes for patients with chronic conditions who participated in Lifestyle180 intervention

Preventive Medicine 2011 | San Antonio, Texas 11
Thursday continued

- Lawrence Palinkas, PhD, Albert G. and Frances Lomas Feldman Professor of Social Policy and Health, University of Southern California
- Dori Reissman, MD, Centers for Disease Control and Prevention

At the conclusion of this session, participants will be able to:
- Describe the exposures, health effects, and current epidemiology for oil spills
- Describe the strategy for the planned study of oil spill clean-up workers
- Identify the likely early and longer term mental health symptoms in areas along the Gulf of Mexico heavily impacted by the oil spill
- Identify timing and focus of interventions designed to prevent and mitigate mental health impacts of oil spills
- Identify the key components of a worker protection system for emergency response and recovery operations
- Develop a list of clinical indicators to be used to determine a medical baseline and fitness for emergency deployment

Session 3:
The Biotechnology Landscape: Emerging Opportunities, Challenges, and Policy Implications in the 21st Century
Room: Lone Star C-Level Two

Moderator:
- Cole Zanetti, Texas College of Osteopathic Medicine

Speakers:
- Braxton D. Mitchell, PhD, Professor, Departments of Medicine and Epidemiology & Public Health, University of Maryland School of Medicine
- Sara Brenner, MD, MPH, Assistant Vice President of NanoHealth, University at Albany, College of Nanoscale Science and Engineering

At the conclusion of this session, participants will be able to:
- Understand how policy regulation of new technologies is evolving in the 21st century
- Describe how medical applications which incorporate new and emerging technologies are shaping the future of health care
- Envision how new technologies will create opportunities for the prevention, diagnosis, and treatment of disease
- Address the potential challenges and risks associated with medical applications of new technologies
- Describe the distinct as well as overlapping roles of different stakeholders in ensuring the health and safety of the public as technology-enabled products and services enter the market
- Describe several examples of gene by environment interactions likely to have large impact on disease incidence
- Incorporate into clinical practice the concept that genetic effects on many diseases are not deterministic, but rather become manifested only in the proper environments
- Contrast candidate gene vs genome-wide approaches for identifying likely genes whose effects modify the effect of an environmental exposure on disease risk

Session 4:
Medical Errors: The Importance of Transparency
Room: Lone Star D-Level Two

Moderator:
- Clair Callan, MD, MBA, Callan Consulting
- Rebekah Wang-Cheng, MD, Kettering Medical Center

Speaker:
- A. Gus Kious, MD, Huron Hospital, Cleveland Clinic Hospitals
- David Mayer, MD, University of Illinois, Chicago Institute for Patient Safety Excellence
- Tim McDonald, MD, JD, University of Illinois, Chicago Institute for Patient Safety Excellence

At the conclusion of this session, participants will be able to:
- Learn the scope of medical errors disclosure within the Cleveland Clinic hospitals
- Understand how attention to errors and disclosure and transparency changes culture
- Promote the importance of leadership in achieving a culture of medical error disclosure

Session 5:
Great Careers in Preventive Medicine
Room: Lone Star E-Level Two

Moderator:
- Robert W. Carr, MD, MPH, FACP, Senior Vice President and Corporate Medical Director, GlaxoSmithKline
- Neal D. Kohatsu, MD, MPH, FACP, Chief, Medical Policy Section, California Department of Health Care Services
- Ann Duerr, MD, MPH, FACP, Associate Director, HIV Vaccine Trials Network
- Eleanor Shore, MD, MPH, FACP, Dean for Faculty Affairs, Harvard Medical School

At the conclusion of this session, participants will be able to:
- Describe career options and pathways for Preventive Medicine physicians in the public, private, international, and academic sector
- Define strategies and resources available to help learn about and develop skills within a varied range of career pathways
- Articulate the broad spectrum of opportunities available through Preventive Medicine, including non-traditional professional opportunities
- Evaluate where interests and talent intersect with potential career paths

11:50 a.m. to 1:10 p.m.
Networking Lunch in the Exhibit Hall
Room: Texas D/E/F-Level Four

12:00 p.m. to 1:10 p.m.
Non-CME Educational Session: Advancing the Science of Public Health Practice: The Robert Wood Johnson Foundation’s Public Health Practice-Based Research Network Program
Room: Texas A/B/C-Level Four

Speakers:
- Michael C. Caldwell, MD MPH, Commissioner of Health, Dutchess County (NY) Department of Health
- Debra Joy Pérez, PhD, MPA, MA, Senior Program Officer, Robert Wood Johnson Foundation (RWJF)
- Glenn P. Mays, PhD, MPH, Professor and Chair of Health Policy and Management, University of Arkansas for Medical Sciences; Director of the RWJF Public Health PRBN Program
- Scott H. Frank, MD, MS, Associate Professor and Director of MPH Program, Case Western Reserve University; and Director of Health, Shaker Heights (OH) Health Department
- F. Douglas Scutchfield, MD, Peter P. Bosomworth Professor of Health Services Research and Policy, University of Kentucky

1:10 p.m. to 2:40 p.m.
Plenary Session I: Linking Personal Responsibility,
Economics, and Policy to Change Lifestyle Behaviors
Room: Texas A/B/C-Level Four
Moderator:
• Liana Lianov, MD, MPH, FACPM, Assistant Professor, Departments of Public Health Sciences and Internal Medicine, University of California Davis
Speakers:
• Dean Ornish, MD, Founder & President, Preventive Medicine Research Institute, Clinical Professor of Medicine, University of California, San Francisco
• William H. Dietz, MD, PhD, Director, Division of Nutrition, Physical Activity, and Obesity, Centers for Disease Control and Prevention
At the conclusion of this session, participants will be able to:
• Describe levels of influence on lifestyle behaviors, including economics, public policy, and health care services, as well as personal responsibility
• Prioritize projects and programs by impact
• List the strengths and weaknesses of at least three current preventive medicine initiatives and strategies to promote healthy lifestyles
• Design clinical preventive services
• Communicate to target groups
• Identify the most effective current strategies for addressing obesity and overweight and the necessary changes for improved efficacy of these strategies

2:40 p.m. to 3:00 p.m.
Coffee Break in the Exhibit Hall
Room: Texas D/E/F-Level Four

Session 7:
Public Health Challenges in Homeless & Underserved Populations
Room: Lone Star B-Level Two
Moderators:
• Charu Sawhney, DO, MPH, Internist, Hope Clinic Houston
• Katrina Rhodes, MD, MS, Medical Officer, Food and Drug Administration
Speakers:
• Melly Goodell, MD, Chairman, Department of Family Medicine and Director, Healthcare for the Homeless Baltimore County, Franklin Square Hospital Center
• Kirk L. Smith, MD, PhD, Director, UT Community Outreach, Executive Director, Frontera de Salud, Arnold P. Gold Associate Professor of Medicine
• Norma Parra, MD, Medical Director, CentroMed, Texas Association of Community Health Centers (TACHC)
At the conclusion of this session, participants will be able to:
• Identify barriers faced by the homeless population that require adaptation to usual clinical decision making
• Articulate three specific considerations unique to the care of homeless diabetics
• List specific medical conditions that should alert providers to the possibility that their patients are experiencing homelessness

Session 8:
Immunization Update
Room: Lone Star C-Level Two
Moderator:
• Joanna Buffington, MD, MPH, Medical Epidemiologist, Centers for Disease Control and Prevention
• Lorraine Yeung, MD, MPH, FACPM, Medical Epidemiologist, Division of Birth Defects and Developmental Disabilities, Centers for Disease Control and Prevention
Speakers:
• Andrew Kroger, MD, Immunization Services Division, Education Information and Partnership Branch, Centers for Disease Control and Prevention
• Abigail Shefer, MD, FACP, Associate Director for Science, Immunization Services Division, Centers for Disease Control and Prevention
• Fernando Guerra, MD, MPH, Director of Health, The San Antonio Metropolitan Health District
At the conclusion of this session, participants will be able to:
• Describe the new Healthy People 2020 (HP2020) objectives and targets for immunization coverage for children, adolescents, and adults in the United States
• Understand and identify both Healthy People 2020 objectives that have specific immunization coverage targets and those that relate to process and quality measurements
• Describe the four primary vaccine-related advisory committees within the Health and Human Services Department and their functions
• Discuss three recent recommendations for vaccine use from CDC’s Advisory Committee on Immunization Practices
• Discuss innovative approaches for “hard to reach” populations by the immunization program division of the San Antonio Metropolitan Health District (Metro Health)

Session 9:
Public Health Advocacy Through the Media: Communicating Your Message
Room: Lone Star E-Level Two
Moderator:
• Kimberly Siu, MD, MPH, Fellow, Health Economics and Outcomes Research
Speakers:
• P. Mona Khanna, MD, MPH, FACPM, Medical Contributor, Fox Chicago News
• Beth Seltzer, MD, MPH, Medical Consultant/Writer, Discovery Channel CME
At the conclusion of this session, participants will be able to:
• Improve their ability to communicate public health messages, levels of risk from real or potential hazards, and the rationale for selected interventions to target groups including health professionals, the public, and the media
• Understand the priorities and expectations of major media outlets
• Anticipate common questions from the media and be able to respond in a way that maximizes audience understanding

Session 10:
Accountable Care Organizations and the CMS Proposed Rules
Room: Lone Star D-Level Two
Moderator:
• Annette Kussmaul, MD, MPH, FACPM, Medical Officer, CMS Division of Quality Improvement
Speakers:
• Terri Postma, MD, Centers for Medicare and Medicaid Services, United States Department of Health and Human Services
At the conclusion of this session, participants will be able to:
• Discuss CMS’s proposed rule for the Medicare Shared Saving Program
• Describe the statutory requirements for ACOs
• Articulate the process for commenting on a proposed rule

Session 6:
Evidence-based Update of Exercise in Clinical Practice
Room: Lone Star A-Level Two
Moderator:
• Edward H. Boland, MD, MPH, Chief, Department of Preventive Medicine, D.D. Eisenhower Army Medical Center
Speakers:
• Robert Ross, PhD, FACSM, Professor, School of Kinesiology and Health Studies / Medicine, Endocrinology and Metabolism, Queen’s University
• Timothy Church, MD, MPH, PhD, Professor, Pennington Biomedical Research Center Louisiana State University
At the conclusion of this session, participants will be able to:
• Describe the role of physical activity and weight training in the prevention & treatment of CVD and diabetes.
• Provide a basic physical activity prescription for a sedentary patient that would like to become more active.
• Provide a basic resistance training prescription

2:40 p.m. to 3:00 p.m.
Coffee Break in the Exhibit Hall
Room: Texas D/E/F-Level Four
3:00 p.m. to 4:30 p.m.
 Concurrent Sessions 2
Thursday
continued

4:45 p.m. to 6:15 p.m.
Concurrent Sessions 3

Session 11: Nutrition: Comparative Efficacy of Different Diets
Room: Lone Star A-Level Two
Moderator:
• David M. Ferriss, MD, MPH, Physician Executive, Lifestyle Medicine, CIGNA HealthCare
Speakers:
• David L. Katz, MD, MPH, FACP, FACP, Director, Prevention Research Center, Yale University School of Medicine
• Neal Barnard, MD, President, Physicians Committee for Responsible Medicine, President, The Cancer Project, Adjunct Associate Professor of Medicine, George Washington University School of Medicine and Health Sciences

At the conclusion of this session, participants will be able to:
• Characterize the toll of poor diet on public health in the U.S. with regard to obesity and related chronic disease
• Define the degree to which dietary optimization could improve chronic disease trends
• Identify several prominent candidates for the most healthful dietary pattern, and characterize the limits to available research data
• Describe the reliable confluence of science in support of several key fundamental aspects of eating for both weight loss and health promotion
• Understand the rationale for the use of plant-based diets, based on research studies on their efficacy and mechanisms of action
• Learn how a plant-based diet influences body weight, blood glucose, and lipids
• Learn how to construct and initiate a therapeutic diet

Session 12: Obesity Prevention: From Cradle to Grave
Room: Lone Star B-Level Two

Moderator:
• Katrina Rhodes, MD, MS, Medical Officer, Food and Drug Administration

Screening, Treatment and Access to Care
Room: Lone Star C-Level Two
Moderator:
• Muktar Aliyu, MD, DrPH, Assistant Professor, Preventive Medicine, Vanderbilt University School of Medicine

At the conclusion of this session, participants will be able to:
• Differentiate types of depression
• Identify developmental signs/symptoms of depression
• Understand differences between suicidal and self-mutilating behaviors and symptoms
• Identify co-morbidities of, or that may result in, adolescent depression
• Understand levels of care for mental health services

Session 13: The Basics of ACOs: Accountability, Responsibility and Measurement of Success
Room: Lone Star D-Level Two
Moderator:
• Alan Krumholz, MD, VP for Practice Development, FSH/Mayo

At the conclusion of this session, participants will be able to:
• Become familiar with key principles and design parameters of ACOs
• Articulate key challenges in developing a comprehensive performance measurement and improvement program for ACOs
• Conduct a critical evaluation of linking performance results to shared savings opportunities

Session 14: Adolescent Mental Health:

Detailed Program Agenda

Session 15: Speak Into the Microphone: Leveraging Social Media for Population Health Improvement
Room: Lone Star E-Level Two
Moderator:
• Larry Blumenthal, Web & Social Media Strategist, Open Road Advisors

At the conclusion of this session, participants will be able to:
• Evaluate and explore unique career opportunities within various sectors of the field of Preventive Medicine
• Become familiarized with a variety of options in PM and learn how divergent career paths can lead in unexpected directions
• Identify effective strategies for accumulating appropriate skills and experience for future leadership opportunities

Wellness Activity: Well Aware: Mindfulness-based Meditation Practice
Room: Crockett C/D-Level Four

 Session 16: 7:30 p.m. to 8:30 p.m.
ACLM Membership Meeting Room: Lone Star C-Level Two
8:30 a.m. to 10:00 a.m.  
**Plenary Session II:**  
Accountable Care Organizations and Transformative Changes in Delivery of Health Care  
**Room: Texas A/B/C-Level Four**  
**Moderator:**  
- Neil West, MD, Medical Director, Group Consulting, Millennium Medicine  
**Speaker:**  
- Glenn Steele, Jr., MD, PhD, President and CEO of Geisinger Health System  
**Learning Objectives:**  
To improve professional performance and outcomes by:  
- Understanding the necessity of using quality and efficiency metrics to equitably distribute savings  
- Identifying opportunities for physician-hospital collaboration to achieve efficiency and quality  
- Understanding the issues unique to a network model ACO  
- Implementing initiatives of methods a network ACO can utilize to bend the cost curve

10:00 a.m. to 10:20 a.m.  
**Coffee Break in the Exhibit Hall**  
**Room: Texas D/E/F-Level Four**

10:20 a.m. to 11:50 a.m.  
**Concurrent Sessions 4**

**Session 16:**  
Role of Sleep in Chronic Diseases  
**Room: Lone Star A-Level Two**  
**Moderator:**  
- Dexter W. Shurney, MD, MBA, MPH, Medical Director, Employee Health Plan, Vanderbilt University and Medical Center  
**Speakers:**  
- Virginia F. Gurley, MD, MPH, Founder/President, Aura Viva  
- Kristen L. Knutson, PhD, Assistant Professor, Department of Medicine, University of Chicago  
**At the conclusion of this session, participants will be able to:**  
- Describe the physiological interactions between light, food intake and thermoregulation on sleep  
- Know the associations (and potential mechanisms for these associations) between sleep disruption of these physiological interactions and conditions such as hypertension, vasospastic disorder, jet lag and depression  
- Discuss examples and implications of environmental and lifestyle therapies to counteract and prevent sleep related chronic diseases  
- Understand the key epidemiologic and experimental evidence for an association between sleep duration/quality & cardiometabolic diseases (obesity, diabetes, & hypertension)  
**Speakers:**  
- David Hopkins, MD, MPH, Coordinating Scientist, Guide to Community Preventive Services, Centers for Disease Control and Prevention  
- Anikrishna Thota, MBBS, MPH, ORISE Research Fellow, The Guide to Community Preventive Services Branch, Centers for Disease Control and Prevention  
- Maren Robinson, MPH, CNC, CHES, ORISE Research Fellow, Guide to Community Preventive Services, Centers for Disease Control and Prevention  
**At the conclusion of this session, participants will be able to:**  
- Define and discuss comparative effectiveness research, contrasting it with what has historically been considered health care technology assessment, wherein technology is defined as medical and surgical procedures, drugs, devices, and health care delivery systems  
- Describe and elaborate upon the interrelationships amongst comparative effectiveness research, cost-effectiveness analysis, personalized medicine, insurance coverage determinations, and health care rationing  
- Demonstrate how the trilogy of life – the quantity of life, the quality of life, and the value of life – is an inevitable consideration when determining how the results of comparative effectiveness research will be
Friday continued

used in the formulation of public health policy

Session 19:
Ethics: An Essential Component of Responsibility Leadership of ACOs
Room: Lone Star D-Level Two
Moderator:
• Angelo Giardino, MD, PhD, Texas Children’s Health Plan
Speakers:
• Laurence McCollough, PhD, Baylor College of Medicine
At the conclusion of this session, participants will be able to:
• Identify origins of the concept of an accountable healthcare organization and its responsible leadership in “Medical Ethics,” published in 1803 by the English physician-ethicist, Thomas Percival (1740-1804)
• Identify the ethical concept of co-fiduciary responsibility of physicians and healthcare organizations
• Identify the implications of the ethical concept of co-fiduciary responsibility for physician leaders of accountable healthcare organizations, with a focus on the responsible use of organizational resources in patient care

Session 20:
Public Health Challenges in Iraq and Afghanistan
Room: Lone Star C-Level Two
Moderator:
• Edmond Feeks, MD, MPH, FACP, Occupational Medicine Consultant, Federal Occupational Health Service, Department of Health and Human Services
Speakers:
• LTC James Sheehan, MD, FACP, Preventive Medicine Officer for U.S. Forces, Afghanistan
• Shakir Jawad, MD, Senior Analyst on International Health and Medical Stability Operations, Center for Disaster and Humanitarian Assistance Medicine, Uniformed Services University
• Steve Solter, MD, Management Science for Health, an Implementing Partner of USAID

At the conclusion of this session, participants will be able to:
• Describe the unique characteristics of a military coalition environment that contribute to difficulties in maintaining US Public Health standards in a deployed setting
• Identify the population health challenges and threats posed to US forces when working with a large contractor population in a deployed setting
• Discuss the implications of allowing local nationals to operate food establishments on US bases

11:50 a.m. to 1:10 p.m.
Networking Lunch in the Exhibit Hall
Room: Texas D/E/F-Level Four

11:50 a.m. to 1:10 p.m.
ACPM Committee Meetings
Resident Physician Section Committee
Room: Crockett A-Level Four
Membership Committee
Room: Crockett C-Level Four
12:00 p.m. to 1:10 p.m.
ACPM Town Hall with U.S. Surgeon General Benjamin Room: Texas A/B/C-Level Four
12:00 p.m. to 6:00 p.m.
Annual Residency Program Directors Workshop
Room: Lone Star F-Level Two

At the conclusion of this session, participants will be able to:
• Share information about residency programs and activities and increase awareness and understanding of updates in the specialty of preventive medicine among residency directors, program faculty, residents and medical students

1:30 p.m. to 3:30 p.m.
ACPM Advocacy Training and Current Preventive Medicine Policy Issues
Room: Lone Star C-Level Two
Speaker:
• Paul Bonta, MA, Associate Executive Director, Policy and Government Affairs, American College of Preventive Medicine

1:30 p.m. to 5:30 p.m.
ACPM Corporate Roundtable (By Invitation Only)
Room: Bonham B-Level Three
1:30 p.m. to 5:30 p.m.
Half Day Skill Building Institutes and Scientific Abstract Presentations
ACMQ Institute: The Accountable Care Organization: Case Studies and the Data Used to Manage Populations
Room: Lone Star D-Level Two
Moderator:
• Donald Casey, Jr., MD, MBA, MPH, CMO and VP of Quality, Atlantic Health System
• Neil West, MD, Medical Director, Group Consulting, Millennium Medicine

Speakers:
• John Friend, JD, Tucson Medical Center
• Palmer Evans, MD, Tucson Medical Center
• Jonathan Darer, MD, The Geisinger Health System
• Thomas Koos, MD, Vista Health System
• John Vigorita, MD, Vista Health System

At the conclusion of this session, participants will be able to:
• Identify the crucial steps towards developing an integrated delivery system including, network e-messaging, IT adoption of EMR or patient registry, approval of clinical guidelines and adoption of quality metrics, and identification and training of practice care coordinators
• Ensure participants understand the issues unique to a network model ACO
• Discuss examples of initiatives of methods a network ACO can utilize to bend the cost curve
• Understand the necessity of using quality and efficiency metrics to equitably distribute savings
• Learn the need to identify opportunities for physician-hospital collaboration to achieve efficiency and quality
• Acquire knowledge of the current legal and regulatory ACO environment
• Understand the rationale for innovation, re-engineering and clinical decision support
• Understand basic and advanced re-engineering principles and fundamentals of decision support
• Discuss Clinical Decision Support – technical issues and clinical examples

Cutting-Edge Research and Science in Preventive Medicine: Submitted Abstracts in Public Health Practice, Clinical Preventive Medicine and Prevention Policy
Room: Texas B/C-Level Four
Moderator:
• Lorraine Yeung, MD, MPH, FACP, Medical Epidemiologist, Division of Birth Defects and Developmental Disabilities, Centers for Disease Control and Prevention
• David Blodgett MD, MPH, Director/Health Officer Southwest Utah Public Health Department

Speakers:
• Faiyaz Bhojani, MD, DrPH, SHELL
• Muktar Allyu, MD, MPH, DrPH, Vanderbilt University School of Medicine
• Randall Stafford, MD, PhD, MHS, Stanford University
• Michael Noe, MD, MPH, University at Buffalo
• Cynthia Sikorski, MD, MPH, USUHS
• Jim Stimpson, PhD, UNT Health Science Center
• Matthew Ritchey, PT, DPT, OCS, MPH, CDC/Indiana State Department of Health
• Alma Palisoc, MD, MPH, Department of Preventive
• Joannie Shen, MD, PhD, Centers for Disease Control and Prevention
• David Blaney, MD, MPH, Centers for Disease Control and Prevention
• Daniel Blumenthal, MD, MPH, Morehouse School of Medicine
• Zachary Faigen, MSPH, Maryland Department of Health and Mental Hygiene
• Dhayana Dallmeier, MD, Boston University Medical Center

At the conclusion of this session, participants will be able to:
• Describe the differences in trends of hepatocellular carcinoma incidence rates by birthplace
• Articulate the risk factors for illness related absence due to musculoskeletal disorders among manufacturing workers in a petroleum industry
• Identify the modifiable factors found associated with poor asthma control using data from the BRFSS Asthma Callback Survey
• Discuss the study design in the Health Improvement Project
• Describe the current practices in Massachusetts’ school nutrition programs
• Understand the utility of Maryland’s Electronic Surveillance System for Early Notification of Community-based Epidemics
• Identify at least two sources of lead exposure among Burmese Refugee Children in Indiana
• Describe the association between inter-pregnancy weight gain and diabetes and preclampia
• Explain the influence of new products, guidelines, and emerging scientific evidence on trends in prescribing lipid-lowering medications in the United States
• State the number of deaths per year on US highways due to motor vehicle accidents
• Identify risk factors for norovirus outbreaks in northern New England long-term care facilities in 2006 and 2007
• Describe the colorectal cancer screening intervention used in senior citizen centers in Fulton County, Georgia

5:30 p.m. to 6:30 p.m.
The Maintenance of Certification Part IV Expert Panel
Room: Lone Star C-Level Two
Panelists:
• P. Glenn Merchant, MD, MPH & TM, FACP, Executive Director, American Board of Preventive Medicine
• Miriam Alexander, MD, MPH, FACP, ACPM President-Elect and Residency Director, Johns Hopkins University School of Public Health
• Wendy Braund, MD, MPH, MSEd, Acting Branch Chief, Division of Diversity and Interdisciplinary Education, HRSA
• Kristine Pasciak, Administrator, ABPM
• Jennifer Edwards, Director of Member Services/CME Manager, American College of Preventive Medicine
• Maya Nath, Project Coordinator/MOC Manager, American College of Preventive Medicine

At the conclusion of this session, participants will be able to:
• Understand the difference between CME and MOC
• Understand the process for recertification (MOC Part I – IV)
• Define what information is required to maintain board certification
• Understand the role and responsibilities of the ABPM and ACPM in the recertification process

5:30 p.m. to 6:45 p.m.
Room: Crockett A-Level Four

7:00 p.m.
ACPM Corporate Roundtable & President’s Society Reception
(By Invitation Only)
Room: Presidio B-Level Three

6:00 a.m. to 7:00 a.m.
Wellness Activity: Walk the Docs: Walk/ Jog around Hemisfair Park with your colleagues. Meet by the bell station in Main Lobby

7:00 a.m. to 8:20 a.m.
ACPM Committee Meetings

Preventive Medicine 2012 Committee
Room: Presidio A-Level Three
Business Development Subcommittee/Finance Committee Room: Republic B-Level Four

7:30 a.m. to 8:30 a.m.
Continental Breakfast in the Exhibit Hall
Room: Texas D/E/F-Level Four

7:30 a.m. to 4:00 p.m.
Registration & Information Desk
Texas West Foyer-Level Four

8:30 a.m. to 10:00 a.m.
Plenary Session III:
Growing & Strengthening Preventive Medicine and Medical Quality in Multiple Contexts
Room: Texas A/B/C/-Level Four

Moderator:
• Sara Brenner, MD, MPH, Assistant Vice President of NanoHealth, University at Albany, College of Nanoscale Science and Engineering

Speakers:
• Miriam Alexander, MD, MPH, FACP, ACPM President-Elect and Residency Director, John Hopkins University School of Public Health
• Eduardo Sanchez, MD, MPH, Medical Director, Blue Cross Blue Shield of Texas

At the conclusion of this session, participants will be able to:
• Describe the evolution of preventive medicine as a specialty, including the challenges and opportunities that have shaped the specialty over time up to present day
• Understand how recent and proposed changes in training requirements and certification pathways stand to impact training in preventive medicine, including changes in workforce needs within the national health care framework
• Articulate the role of preventive medicine physicians and the services they offer in the context of political, social, economic, and educational reforms
• Define the impact and importance of quality in Accountable Health Organizations
• Incorporate structures, systems, and strategies to advance medical quality through health care reform efforts
• Describe the synergy between preventive medicine and medical quality in managing the health of patient populations

10:00 a.m. to 10:20 a.m.
Coffee Break in the Exhibit Hall
Room: Texas D/E/F-Level Four

10:20 a.m. to 11:50 a.m.
Concurrent Sessions 5

Session 21:
Psychosocial Determinants of Chronic Disease and Implications for Prevention
Room: Lone Star A-Level Two

Moderator:
• Ariane Marie-Mitchell, MD, PhD, MPH, Community & Preventive Medicine, University of Rochester Medical Center
Speakers:
- Jerry Morris, PsyD, MBA, MSPPharm, ABPP, ABMP, ABHHP, NCSP, CCM, Clinical Director, Community Mental Health Consultants, Inc
- Vincent J. Felitti, MD, Founding Chairman, Department of Preventive Medicine, Kaiser Permanente, Medical Care Program

At the conclusion of this session, participants will be able to:
- Identify specific psychosocial determinants of chronic diseases, association with health-risk behaviors, and prevalence by subgroups
- Describe a comprehensive medical evaluation involving screening for Adverse Childhood Experiences
- Describe a primary care model involving integrating behavioral and primary health care, evidence for efficacy, and methods used to overcome resistance to implementation

Session 22:
Public Health Threats on the US/Mexico Border
Room: Lone Star B-Level Two
Moderator: Forrest Oliverson, MD, MPH, FACPM, Chief Department of Preventive Medicine, Brooke Army Medical Center

Speakers:
- Sandra Guerra, MD, MPH, Regional Medical Director, Texas Department of Health
- Duane R. Hospenthal, MD, PhD, FACP, FIDSA, Professor of Medicine at the Uniformed Services University of the Health Sciences and Clinical Professor of Medicine at the University of Texas Health Science Center
- Hector F. Gonzalez, MD, MPH, Director of Health, City of Laredo Health Department

At the conclusion of this session, participants will be able to:
- Recognize the need to include dengue in the differential diagnosis of acute febrile illness occurring on the US/Mexico border
- Identify potential emerging pathogens that could potentially be spread by the mosquito vectors along the US/Mexico border
- Recognize the current public health response to US/Mexico Border health all-hazards threats
- Describe the international impact on public health along the US/Mexico Border
- Recognize and evaluate the public health responsibility and health care changes due to the real and perceived border violence

Session 23:
Aligning Worksite Wellness Initiatives with New Federal Legislation
Room: Lone Star C-Level Two
Moderator: Brent Gibson, MD, MPH, FACPM, Vice President, Atlas Research

Speakers:
- Ron Z. Goetzel, PhD, Research Professor and Director, Institute for Health and Productivity Studies Rollins School of Public Health, Emory University

At the conclusion of this session, participants will be able to:
- Identify key elements of a “business case” necessary to engage employers in health promotion programs at the worksite
- Describe three large-scale research studies aimed at improving population health and demonstrating financial impact
- Articulate the key methods that health promotion practitioners can use to evaluate outcomes from worksite health promotion programs
- List the key “success factors” for successful health and productivity management programs
- Explain policy implications emerging from health care reform likely to influence employer adoption of health promotion programs

Session 24:
The Relative Roles in the Accountable Care Organizations of Primary, Specialty and Surgical Care
Room: Lone Star D-Level Two
Moderator: Rahul Shah, MD, Assistant Professor, Children’s National Medical Center

Speakers:
- Frank Opelka MD, Louisiana State University Healthcare Network
- Bruce Bagley, MD, CMQ, Medical Director for Quality Improvement, American Academy of Family Practice

At the conclusion of this session, participants will be able to:
- Recognize various types of patient care episodes for ACOs
- Describe various methods of paying ACOs for value
- Discuss how physicians can effectively cooperate to survive and succeed within ACOs

Session 25:
American Board of Preventive Medicine Update: Strategies and Tools for Becoming and Staying Certified
Room: Lone Star E-Level Two
Moderator: P. Glenn Merchant, MD, MPH&TM, FACPM, Executive Director, American Board of Preventive Medicine

Speakers:
- P. Glenn Merchant, MD, MPH&TM, FACPM, Executive Director, American Board of Preventive Medicine
- Marcel Salive, MD, MPH, FACPM, Vice Chair, Public Health and General Preventive Medicine, American Board of Preventive Medicine
- Kris Pasciak, Administrator, American Board of Preventive Medicine

At the conclusion of this session, participants will be able to:
- Describe the requirements for achieving certification by the American Board of Preventive Medicine (ABPM)
- Identify the steps in the application and examination process for initial certification
- Describe the process for maintaining certification throughout one’s career using the MOC program
- Discuss the examination development process and the areas of examination focus
- Describe the process by which diplomates of the ABPM will be able to fulfill the ABPM requirement of practice assessment/performance improvement for MOC Part IV

11:50 a.m. to 1:10 p.m.
Networking Lunch and Special Interest Roundtables in the Exhibit Hall
Room: Texas D/E/F-Level Four

11:50 p.m. to 1:10 p.m.
ACPM Committee Meetings
Continuing Medical Education Committee
Room: Presidio A-Level Three

Environmental Health Committee
Room: Presidio B-Level Three
1:10 p.m. to 2:40 p.m.
Concurrent Sessions 6

Session 26:
USPSTF Update
Room: Lone Star A-Level Two
Moderator: Padmini Ranasinghe, MD, MPH, Assistant Professor of Medicine, John Hopkins School of Medicine

Speakers:
- Ned Calonge, MD, MPH, Chair, United States Preventive Services Task Force Chief Medical Officer, Colorado Department of Public Health

At the conclusion of this session, participants will be able to:
Session 27: Tobacco-Free Policies: Moving Beyond the Indoor Environment
Room: Lone Star B-Level Two
Moderator: Sharon K. Melville, MD, MPH, Manager TB/HIV/STD Epidemiology Branch, Texas Department of State Health Services
Speakers: Stanton Glantz, PhD, Professor, Division of Cardiology, University of California San Francisco School of Medicine
Philip Huang, MD, MPH, Medical Director/Health Authority, Austin Travis County Health and Human Services Department
Robert Berger, MSJ, Project Director, Project TRUST, Tobacco Control and Prevention Program, Los Angeles County Department of Public Health
At the conclusion of this session, participants will be able to:
• Be aware of new recommendations, methods, and materials from the USPSTF
• Understand the balance of benefits and harms of Screening for Childhood Obesity
• Describe the efforts to increase transparency of the USPSTF processes

Session 28: Measuring Public Health Quality and Performance: A Financial Ratio Analysis
Room: Lone Star D-Level Two
Moderator: Brian Amy, MD, MHA, MPh, FACP
Speakers: Peggy Honore, DHA, Department of Health and Human Services
Kevin Barnett, DrPh, MCP, Public Health Institute
At the conclusion of this session, participants will be able to:
• Design a coordinated healthcare and public health approach to quality
• Align nonprofit hospital practices with the HHS nine aims (characteristics) and priorities for improvement of public health quality

Session 29: Lifecycle of a Preventive Medicine Career: Transitions and Negotiations
Room: Lone Star C-Level Two
Moderator: Leonard Moore, MSIV, Medical Student, Morehouse School of Medicine
Speakers: James Tacci, MD, JD, FACP, Medical Director, Xerox Corporation
Sara Brenner, MD, MPH, Assistant Vice President of NanoHealth, University at Albany, College of Nanoscale Science and Engineering
Mary Applegate, MD, MPH, FACP, Associate Dean School of Public Health, SUNY Albany
At the conclusion of this session, participants will be able to:
• Become familiarized with the PM residency application process, new residency requirements, and ways to navigate programs in order to reach career goals
• Learn how to make effective initial career decisions upon completion of PM residency for optimal success
• Identify when a mid-career employment shift is necessary and acquire tools to transition to your new field successfully

Session 30: Behavior Change and Application of Tools in Clinical Practice/ Health IT
Room: Lone Star E-Level Two
Moderator: George K. Anderson, MD, MPH, FACP
Major General, USAF (Retired)
AMSUS, Executive Director
Speakers: Samir Chatterjee, PhD, Professor of Computer Networking and Telecommunications, Claremont Graduate University
Martha G. Russell, PhD, Associate Director of Media X, Stanford University
At the conclusion of this session, participants will be able to:
• Discuss Air Force Medical Service response during initial earthquake relief
• Articulate public health/preventive medicine issues related to rapid deployment of military troops
• Identify CDC’s response to the earthquake
• Understand the benefits and applications of various online platforms and tools used around the world in disaster situations
• Define opportunities to engage with individuals, organizations and other disaster responders to collaborate for medical and social benefit using new technologies

Session 31: International Preventive Medicine and the U.S. Response to the Crisis in Haiti
Room: Lone Star A-Level Two
Moderator: Sami Bèg, MD, MPA, MPH, Associate Medical Director, U.S. Preventive Medicine
Speakers: W. Roodly Archer, PhD, Health Scientist, Centers for Disease Control and Prevention
Amy Sample Ward, Global Community Development Manager, NetSquared
Col Leonardo Profenna, MD, USAF, MC, SF, Chief, Aerospace Internal Medicine Branch Aeromedical Consultation Service, USAFSAM/FEI
Lt. Col Richard “Joel” Williams, DVM, MS, Commander Public Health Flight for the 96th Medical Group at Eglin AFB, Florida
At the conclusion of this session, participants will be able to:
• Discuss social technologies and their application to health settings
• Review the current status of persuasive and empowerment technology and how to apply these tools in clinical and public health settings
• Discuss social technologies including networking, teleconferencing, meet ups and immersive environments and their application to health behavior change

Session 32: Making Food Policy Healthy: From Local Opportunities to the 2012 Farm Bill
Room: Lone Star B-Level Two
Moderator: James J. Sheehan, MD, MPH, Preventive Medicine Physician/Consultant, United States Army/South
Speakers: David Wallinga, MD, MPA, Director of Food and Health, Institute for Agriculture and Trade Policy
Eduardo Sanchez, MD, MPH, Medical Director, Blue Cross Blue Shield of Texas
Saturday
continued

At the conclusion of this session, participants will be able to:
- Compare health reform and food system reform in terms of issues around access, cost and quality
- Describe two reasons why the Farm Bill might be more appropriately called a food and nutrition bill
- Explain two or three interventions in the food system at the local level that may improve public health outcomes
- Explain why health professional advocacy around food policy reform could be analogous to the role health professionals played in changing tobacco policy
- Use the “Triple aim” framework of health, experience, and cost to relate the US healthcare system and the US food system to identify parallels between the systems and food system opportunities to improve health
- Identify specific food system-related action steps for healthy eating and childhood obesity prevention that are within the jurisdiction of local government, are based on the experience of local governments or knowledgeable sources that work with local governments; and have the potential to make positive contributions to children’s health
- Discuss the importance of involving the community and using a “health equity lens” in determining which food system actions to take

Session 33: Strategies and Tools for Advancing Health: Lifestyle Medicine Competencies, Community Well-Being Research, and Engagement Through Social Media
Room: Lone Star C-Level Two
Moderator:
- Virginia F. Gurley, MD, MPH, Founder/President, Aura Viva

Speakers:
- Liana Lianov, MD, MPH, FACPM, Assistant Professor, Departments of Public Health Sciences and Internal Medicine, University of California Davis
- Allison London Brown, Vice-President, Well-Being Strategy, Corporate Branding & Communications
- LeAnna J. Carey, MBA, Principal, TheHealthMaven, LLC

At the conclusion of this session, participants will be able to:
- Critique the 3% prevention expenditures number and determine why this number is incorrect; provide a more correct estimate of prevention expenditures and understand how this likely under-estimates the total number
- Articulate the problems with comparing prevention and treatment expenditures in the US
- Develop arguments for determining what standards should be used for guidelines for prevention and treatment
- Identify reasons why standards of evidence differ for preventive, diagnostic and treatment services
- Identify the entities whose recommendations will determine automatic coverage of preventive services under the Patient Care and Affordable Care Act of 2010
- Recognize the contributions of prevention experts to the evidence-based medicine movement

Session 34: Myths and Facts of Spending on Prevention in the U.S.
Room: Lone Star E-Level Two
Moderator:
- Halley S. Faust, MD, MPH, FACP, Managing Director, Jerome Capital, LLC

Speakers:
- George Miller, PhD, Altarum Institute
- Diana Pettiti, MD, MPH, FACPM, Professor, Arizona State University
- Halley S. Faust, MD, MPH, FACPM, Managing Director, Jerome Capital, LLC

At the conclusion of this session, participants will be able to:
- Critique the 3% prevention expenditures number and determine why this number is incorrect; provide a more correct estimate of prevention expenditures and understand how this likely under-estimates the total number
- Articulate the problems with comparing prevention and treatment expenditures in the US
- Develop arguments for determining what standards should be used for guidelines for prevention and treatment
- Identify reasons why standards of evidence differ for preventive, diagnostic and treatment services
- Identify the entities whose recommendations will determine automatic coverage of preventive services under the Patient Care and Affordable Care Act of 2010
- Recognize the contributions of prevention experts to the evidence-based medicine movement

Session 35: Health Reform and Clinical Preventive Services: Issues not Addressed by the 6 P.M. News!
Room: Lone Star F-Level Two
Moderator:
- Stuart Berman, MD, ScM, Senior Advisor to the Director, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Speakers:
- Chesley Richards, Jr., MD, MPH, FACP, Director, Office of Prevention Through Healthcare, Office of the Associate Director for Policy, Centers for Disease Control and Prevention
- Paula W Yoon, ScD, MPH, Division for Heart Disease and Stroke Prevention Centers for Disease Prevention and Control
- Jessie S Wing, MD, MPH, Medical Officer FACP, CAPT, US Public Health Service FACP, Centers for Disease Control and Prevention
- Stuart Berman, MD, ScM, Senior Advisor to the Director, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

At the conclusion of this session, participants will be able to:
- Raise the awareness of the audience about the components of the Medicare wellness visit and efforts to define the recommended content of such a visit
- Educate the preventive medicine community about a CDC approach to monitor the impact of reform on some clinical preventive services central to addressing a set of priority conditions
- Communicate the anticipated challenges local health departments will face in providing “safety net” services that address communicable disease transmission among those without health insurance
- Communicate to preventive medicine specialists the changes that may occur in several established public health programs and the opportunities these changes present to the preventive medicine community

Special Sessions for Residents, Medical Students, and Young Physicians

Resident Physician Section (RPS) • Medical Student Section (MSS) • Young Physician Section (YPS)

Am I a member?
If you are a Resident member of the American College of Preventive Medicine you are automatically in the Resident Physician Section.
If you are a Medical Student Member of the American College of Preventive Medicine you are automatically a member of the Medical Student Section.
If you are an Affiliate, Associate, Member or Fellow of the American College of Preventive Medicine, and under 40 years of age OR within 8 years of residency completion (any residency) you are automatically a member of the Young Physician Section.

How do I get more involved?
The Planning Committee of Preventive Medicine 2011, along with the governing councils of RPS/YPS and MSS have made every effort to ensure there is plenty to do and see for their members attending the conference. All sessions are open to all PM 2011 attendees. Here are some recommendations:

Thursday, February 17, 2011
7:00 a.m. to 7:20 a.m. MSS Committee Meeting
Room: Crockett A-Level Four
7:30 a.m. to 8:30 a.m.
Continental Breakfast and Grand Opening of Exhibit Hall
Room: Texas D/E/F-Level Four
8:30 a.m. to 10:00 a.m.
Opening General Session & KBS Guest Lecturer: Science, Sense & Elephense
Room: Texas A/B/C-Level Four
10:20 a.m. to 11:50 a.m.
Concurrent Sessions 1
Session 3: The Biotechnology Landscape: Emerging Opportunities, Challenges, and Policy Implications in the 21st Century
Room: Lone Star C-Level Two

Friday, February 18, 2011
7:00 a.m. to 8:20 a.m.
YPs Committee Meeting
Room: Crockett A-Level Four
8:30 a.m. to 10:00 a.m.
Plenary Session II: Accountable Care Organizations and Transformative Changes in Delivery of Health Care
Room: Texas A/B/C-Level Four
10:20 a.m. to 11:50 a.m.
Concurrent Sessions 4
Session 20: Public Health Challenges in Iraq and Afghanistan
Room: Lone Star C-Level Two
11:50 a.m. to 1:10 p.m.
RPS Committee Meeting
Room: Crockett A-Level Four

Saturday, February 19, 2011
7:00 a.m. to 8:20 a.m.
Preventive Medicine 2012 Committee
Room: Presidio A-Level Three
8:30 a.m. to 10:00 a.m.
Plenary Session III: Growing & Strengthening Preventive Medicine and Medical Quality in Multiple Contexts
Room: Texas A/B/C-Level Four
10:20 a.m. to 11:50 a.m.
Concurrent Sessions 5
Session 25: American Board of Preventive Medicine Update: Strategies and Tools for Becoming and Staying Certified
Room: Lone Star E-Level Two
1:10 p.m. to 2:40 p.m.
Concurrent Sessions 6
Session 27: Tobacco-Free Policies: Moving Beyond the Indoor Environment
Room: Lone Star B-Level Two
Session 29: Lifecycle of a Preventive Medicine Career: Transitions and Negotiations
Room: Lone Star C-Level Two
2:50 p.m. to 4:20 p.m.
Concurrent Session 7
Session 31: International Preventive Medicine and the U.S. Response to the Crisis in Haiti
Room: Lone Star A-Level Two
Session 34: Myths and Facts of Spending on Prevention in the US
Room: Lone Star E-Level Two
7:00 p.m. to 10:00 p.m.
ACPM Awards/New Fellows reception and banquet (tickets must be purchased in advance)
Room: Texas C-Level Four
ACPM Opening Reception and Poster Presentations  
Thursday, February 17th  
6:15 p.m.-7:30 p.m.-Texas D/E/F-Level Four  
Join your fellow Preventive Medicine & Lifestyle Medicine 2011 attendees, exhibitors and staff at the Welcome Reception held in the Exhibit Hall. The reception will offer hors d’oeuvres and drinks while you network, browse the scientific poster presentations, and socialize.

Non-CME Educational Sessions!  

“Meet the Expert” Cancer Prevention Fellowship Program  
Thursday, February 17th  
12:00 p.m.-12:30 p.m.- Lone Star E-Level Two  
This session is a time for attendees to meet with the National Cancer Institute’s Cancer Prevention Fellowship Program director to discuss various training, research, or funding topics. This is a great opportunity for early career physician’s scientists to learn more about a unique postdoctoral research and leadership training program at the NCI.  
Session sponsored by Cancer Prevention Fellowship Program

Career Opportunities for Preventive Medicine in the U.S. Army.  
Thursday, February 17th  
7:00 a.m.-8:20 a.m.- Lone Star E-Level Two  
Speaker: Col. Robert F. DeFraites, Director of Armed Forces Health Surveillance Center and Consultant for Preventive Medicine for the Army Surgeon General.

Advancing the Science of Public Health Practice:  
The Robert Wood Johnson Foundation’s Public Health Practice-Based Research Network Program (PBRN) Program  
Thursday, February 17th  
12:00 p.m. to 1:10 p.m. - Texas A/B/C-Level Four  
Advances in prevention research are providing an expanding toolbox of efficacy-tested programs, policies, and interventions to reduce health risks at the population level. As these advances occur, uncertainties loom large regarding how best to deliver effective public health strategies throughout the nation’s patchwork public health infrastructure and its real-world public health agencies and settings. What are the most effective ways of organizing, financing, and delivering efficacious public health strategies in different social, economic, and environmental contexts? What are the real-world implementation issues, health impacts, and ROI associated with alternative delivery strategies? Practice-based research networks (PBRNs) provide productive mechanisms for conducting the delivery system research needed to effectively translate prevention research into routine public health practice. The Robert Wood, Johnson Foundation’s Public Health PBRN Program has established a national network of public health PBRNs that include state and local public health agencies collaborating with university-based research centers to design and conduct these types of translational, delivery system studies in real-world public health settings. This luncheon panel will explore advances in public health systems and services research occurring through public health PBRNs and highlight applications of this research in the context of health reform implementation. Areas of shared research interest and examples from existing and emerging collaborative research will be highlighted to illustrate the value of linking public health researchers with public health practitioners to strengthen the science of public health delivery.  
Session sponsored by Robert Wood Johnson Foundation

The NuVal™ System: GPS of the Food Supply  
Friday, February 18th  
7:00 a.m. to 8:20 a.m. - Lone Star F-Level Two  
In late 2009, the American College of Preventive Medicine’s (ACPM) Board of Regents voted to endorse the NuVal™ Nutritional Rating System as a system that met ACPM’s criteria for nutritional scoring systems. Join us in this session to learn more about NuVal™ and why it is an important tool in the arsenal of health providers and public health practitioners. The session will include the science behind the system, validation research conducted, consumer usage and understanding, and movement into retail grocery stores, health insurers, and schools.  
Session sponsored by NuVal™

ACPM Town Hall with U.S. Surgeon General Benjamin  
Friday, February 18th  
12:00 p.m. to 1:10 p.m. - Texas A/B/C-Level Four  
Join the U.S. Surgeon General in a Town Hall style discussion on the recently drafted National Prevention Strategy. The U.S. Surgeon General will review the National Strategy document and identify opportunities for engagement by the preventive medicine community.

ACPM Advocacy Training and Current Preventive Medicine Policy Issues  
Friday, February 18th  
1:30 p.m. to 3:30 p.m. - Lone Star C-Level Two  
Don’t miss this unique session where participants will prepare to meet with their U.S. congressional representatives back in their home districts to advocate for preventive medicine.

Networking Lunch/Special Interest Round Tables  
Saturday, February 19th  
11:50 a.m. -1:10 p.m.- Texas D/E/F-Level Four  
Join us in the exhibit hall on Saturday, February 19th from 11:50 a.m. to 1:10 p.m. for a networking lunch while you meet with exhibitors. You can also participate in one or more of our scheduled special interest roundtables. These roundtable sessions provide conference attendees an outstanding forum for networking and a place to engage with peers around topics pertinent to preventive medicine.  
Roundtable Topics Include:  
- Energy Policy  
- Bringing Individuals with Disabilities to the Physician’s Table  
- American Association of Public Health Physician’s Special Interest  
- Solving the Health Care Resources Trap: It’s An Energy Management Challenge

Annual Awards/New Fellows Banquet  
Saturday, February 19th  
7:00 p.m. to 10:00 p.m. - Texas C-Level Four  
Join us as we:  
- Honor this year’s Award winners  
- Induct new Fellows from 2010  
- Showcase new ACPM activities

Advance purchase tickets required.  
Tickets are available at the Registration Desk until Friday, February 18th
So many people here are at the forefront of their fields, and we’re always looking for ways to provide the best care to our Soldiers.

You can become part of a health care team that is focused on caring for our Soldiers and their families. You’ll have access to the best technology and resources and your colleagues will be leaders in their respective professions. What’s more, you’ll be eligible for low-cost medical, dental and life insurance, as well as financial incentives.

Stop by Booth No. 12 or contact a member of the U.S. Army Health Care Team at 888-504-6211 or healthcare.goarmy.com/info/m044. Ask about our two-year commitment for health care professionals ages 43-60.
American Medical Association (AMA) Category 1

ACPM is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide CME for physicians.

ACPM designates Preventive Medicine 2011 for a maximum of 32.0 Category 1 credits toward the American Medical Association’s (AMA) Physician’s Recognition Award (PRA)™. Attendees can earn additional credits via Medical Quality 2011. Each physician should claim only those credits he or she actually spends in the activity.

To obtain a certificate of attendance/CME, please complete the Certificate Request Form in the conference materials you received upon check-in. Please drop the form and the evaluation packet in a blue bin near the registration area or give to any ACPM staff member before you leave the meeting.

EPIQ/Maintenance of Certification (MOC) for American Board of Preventive Medicine (ABPM): Physicians certified by the ABPM in 1998 or later must earn at least 100 approved lifelong learning credits every 10 years in order to maintain their certification. ABPM diplomates can earn lifelong learning credits by attending the Preventive Medicine 2011 sessions as well as Medical Quality 2011 sessions. Check your meeting registration materials for an up-to-date list of MOC sessions.

ACPM members and non-members should follow the same procedures to obtain credit. The MOC packet is included in the materials you received at registration. The packet contains self-assessment exercises for you to complete as a required component of the lifelong learning process. The correct answers and explanations are provided in the answer packet. After completing all of the self-assessments for each of the MOC sessions you’ve attended, complete the cover page with your name, and ACPM number (if unknown, see ACPM staff at the registration desk for a list). Finally, submit the entire packet in the blue bin near the registration desk. You will not need a certificate to document your MOC credits. ACPM will report them directly to the ABPM. You can monitor your credits over time by visiting the ABPM Web site at www.abprevmed.org.

AAFP Credit:
This activity, Preventive Medicine 2011 with a beginning date of February 16, 2011, has been reviewed and is acceptable for up to 30 Prescribed credits by the American Academy of Family Physicians.

CME/MOC FAQs!

1. **If I submit my CME form will those credits be sent to ABPM for my MOC?**
   Answer) – NO! CME and MOC are not the same thing. When you submit your CME form a CME certificate will be mailed to you. If you need MOC you will have to fill out separate forms known as a Self Assessment for each session you attend. You must submit the Self Assessment forms to ACPM for your credits to be reported to ABPM.

2. **How long after I submit my CME form can I expect to receive my CME Certificate?**
   Answer) Certificates are EMAILED to all participants within a month of the meeting completion date. Make sure you total your hours and PRINT YOUR NAME AND EMAIL CLEARLY. Unreadable CME forms will not be processed.

3. **How soon after the meeting will my MOC credits be reported to the ABPM?**
   Answer) All MOC credits will be reported to the Board by the end of March. Please allow a few weeks for the Board to upload these credits into the EPIQ system.

4. **Can I earn CME or MOC by reviewing the available PowerPoint presentations on the link sent to attendees prior to the meeting?**
   Answer) No, in order to earn the AMA Category 1 CME or MOC credit you must attend the session in person OR review the ACPM E-Portal with the audio companion (more information can be found at the registration desk).
ACPM would like to welcome the American College of Medical Quality and the American College of Lifestyle Medicine attendees and their guests to Medical Quality 2011 and Lifestyle Medicine 2011 conferences being held in conjunction with Preventive Medicine 2011.

Listed here are the educational sessions that are part of these conferences. All Preventive Medicine 2011 attendees are welcome to attend these sessions. For learning objectives and speaker information please see the detailed program.

**Medical Quality 2011**

**Thursday, February 17th**
- Session 4: Medical Errors: The Importance of Transparency
- Session 10: Accountable Care Organizations and the CMS Proposed Rules
- Session 13: The Basics of ACOs: Accountability, Responsibility and Measurement of Success

**Friday, February 18th**
- Plenary Session II: Accountable Care Organizations and Transformative Changes in Delivery of Health Care
- Session 19: Ethics: An Essential Component of Responsibility Leadership of ACOs
- ACMQ Institute: The Accountable Care Organization: Case Studies and the Data Used to Manage Populations

**Saturday, February 19th**
- Session 24: The Relative Roles in the Accountable Care Organizations of Primary, Specialty and Surgical Care
- Session 28: Measuring Public Health Quality and Performance: A Financial Ratio Analysis

**Lifestyle Medicine 2011**

**Wednesday, February 16th**
- Institute 3: Group Visits: How to Set Up, Improve Patient Outcomes, and Make Money for Your Practice

**Thursday, February 17th**
- Plenary Session I: Linking Personal Responsibility, Economics, and Policy to Change Lifestyle Behaviors
- Session 1: Comparative Effectiveness for Multiple Conditions: The Cleveland Clinic’s Lifestyle 180 Program
- Session 6: Evidence-based Update of Exercise in Clinical Practice
- Session 11: Nutrition - Comparative Efficacy of Different Diets
- ACLM Membership Meeting

**Friday, February 18th**
- Session 16: Role of Sleep in Chronic Diseases

**Saturday, February 19th**
- Session 21: Psychosocial Determinants of Chronic Disease and Implications for Prevention
- Session 30: Behavior Change and Application of Tools in Clinical Practice/Health IT
- Session 33: Strategies and Tools for Advancing Health: Lifestyle Medicine Competencies, Community Well-Being Research, and Engagement Through Social Media

Attention PM 2011 Attendees!
Join ACPM Now and EARN ALL CME and MOC for FREE!!

That’s right – all ACPM Members will receive the 32.0 hours of CME and MOC hours offered at Preventive Medicine 2011 at no cost. The non-member rate is $10/credit.

Visit the PM 2011 registration desk for membership eligibility requirements today.
If you join ACPM via PM 2011 you will receive all ACPM benefits including:

• **Publications** – *American Journal of Preventive Medicine (AJPM)*, the peer-reviewed journal, published twelve times per year, features original articles and reviews. *ACPM HEADLINES*, the electronic newsletter sent to members twice per month highlights recent happenings at the College, developments in preventive medicine, and ACPM member activities.

• **Preventive Medicine** – ACPM’s annual meeting series offers topical meeting content, discussions with leaders in the Preventive Medicine field, networking functions and CME opportunities.

• **MOC/CME Opportunities – Including On-line CME!**
  In addition to the annual Preventive Medicine meeting, ACPM sponsors the annual Preventive Medicine Board Review Course. ACPM members receive a significant discount on course and meeting registrations. Many other CME/MOC modules are currently available on ACPM's Online CME/MOC Center.

• **Advocacy** – ACPM actively and aggressively represents the interests of Preventive Medicine on Capitol Hill. Preventive Medicine residency funding, covering the uninsured, and tobacco control, are among the multitude of issues ACPM forcefully advocates to achieve a stronger profession and a healthier nation.

• **Networking** – ACPM provides significant networking opportunities allowing members to meet with their colleagues throughout the country.

• **Career Center** – ACPM’s on-line job recruitment service for ACPM members. This service is destined to become the premiere employment service for Preventive Medicine physicians.

• **Partnerships** – ACPM is an important member of numerous policy-oriented coalitions and groups, focusing its efforts on enhancing support for population-based services and clinical preventive interventions.

• **Representation** – ACPM members represent the College and the field on numerous national scientific task forces, committees and coalitions, enhancing the visibility of preventive medicine in such areas as immunizations, domestic violence, high blood pressure, cholesterol, adolescent health, practice parameters, tuberculosis, women’s health and quality management.

• **Graduate Medical Education** – ACPM supports post-graduate preventive medicine training through publications, workshops and advocacy to expand residency-training funding and to develop the core competencies of preventive medicine.

*ACPM application must be filled out and turned in to ACPM staff at the PM 2011 registration desk no later than 12:00 p.m. on Saturday, February 19th, 2011. ACPM Membership staff must initial application.*
The American College of Preventive Medicine Invites you to attend the
Annual Awards/New Fellows Banquet

Saturday
February 19, 2011
7:00 p.m. to 10:00 p.m.
Texas C-level Four

Join us as we:
• Honor this year’s Award winners
• Induct new Fellows from 2010
• Showcase new ACPM activities
• Welcome new members
• Introduce Preventive Medicine 2012

Tickets for the Awards Banquet are $85 and must be purchased in advance at the Preventive Medicine 2011 Registration Desk.

"Can prevention research translate effectively into routine public health practice?"

Thursday, February 17
11:50 a.m. to 1:15 p.m.
Texas A/B/C-Level
Box lunches for 200 Participants

Advancing the Science of Public Health Practice:
Practice-Based Research Networks in Public Health

A Non-CME Educational Session supported by Public Health Practice-Based Research Networks, a national program of the Robert Wood Johnson Foundation®

Get your ACPM Gear!!!

Available at the Registration Desk
ACPM Logo Merchandise.

Please Join Your Fellow Residents, Young Physicians, and Medical Students!

RPS/YPS/MSS Lecture and Welcome Reception
Room: Lone Star A-Level Two

David Satcher, MD, PhD, FACPM,
Director, The Satcher Health Leadership Institute,
Morehouse School of Medicine

Kenneth H. Cooper, MD, MPH, FACPM,
Founder and Chairman, Cooper Aerobics Center-
Dallas and McKinney

Dinner social in hotel area immediately following.
(price not included in registration fee)
First time attending the Preventive Medicine conference?

Join us over breakfast before the Opening General Session and learn how to make the most of your conference experience. Hear from and interact with the ACPM incoming president, conference chair, and executive director in an intimate setting:

- Receive an orientation to the conference structure, highlights, and opportunities to learn from and engage with your peers
- Learn about ACPM’s strategic goals, accomplishments, and opportunities to participate in ACPM committees and initiatives
- Identify ways to shape next year’s annual meeting

When:
7:00-8:20 am, Thursday February 17

Where:
Crockett D-Level Four, Grand Hyatt San Antonio

See you there!

Do you have questions about recertification?
Well, they have answers…

The Maintenance of Certification Part IV:
Expert Panel
Friday, February 18th, 5:30pm-6:30pm
Lone Star C-Level Two

- Understand the difference between CME and MOC
- Understand the role and responsibilities of the ABPM and ACPM in the recertification process
- Define what information is required to maintain board certification
- Understand the process for recertification (Part I – IV)

Be sure to stop by the ACPM membership booth to submit your questions!

Save the Date
24th Annual Board Review Course
Crystal City, Virginia • August 20-24 2011!

The ACPM Preventive Medicine Review Course provides the only comprehensive framework for review and preparation for the American Board of Preventive Medicine (ABPM) certification examination. The course is aligned, in both content and emphasis, with the ABPM Study Guide and Exam Content Outlines that define the specialty of Preventive Medicine. For participants not preparing for the exam, the course is a valuable opportunity to update and refresh knowledge of preventive medicine and earn continuing medical education (CME) and maintenance of certification (MOC) credits.

Features
- Comprehensive course syllabus
- Luncheon presentation by the ABPM including background on development of the exam and the scoring process
- Breakout sessions for review of your specialty
- Networking opportunities

For more information and to register for the 24th Annual Board Review Course please go to http://www.acpm.org/review.htm

The 2009 and 2010 DVD ROMs with the course syllabus are for sale. To place an order please go to ACPM’s registration desk!
Preventive Medicine 2011 Exhibitors

Abaxis
Website: www.piccoloxpress.com
Description: The Piccolo Xpress™ point-of-care chemistry analyzer brings comprehensive CLIA waived diagnostics to physician offices. In 3 easy steps, the Piccolo delivers lab-accurate chemistry results in minutes, using a unique menu of 15 single-use reagent panels, 11 of which are CLIA waived. With the Piccolo, doctors can make better-informed treatment decisions, reduce time spent preparing and reviewing labs, and increase efficiency and billable hours.
Booth #23

ACPM Career Center
Description: Preventive medicine physicians will have a unique opportunity to network with preventive medicine/public health companies and distribute their bios or CVs to employers; at the same time, recruiters will have a unique opportunity to network with about 900 preventive and medical quality physicians, enhance the brand of their companies and conduct onsite interviews.
Booth #39

American College of Lifestyle Medicine
www.lifestylemedicine.org
Description: ACLM is the first national medical specialty society for healthcare professionals who utilize evidence-based lifestyle interventions as the primary therapeutic tool in the treatment and management of disease. Our members are engaged in practice, teaching, and research on all levels and in various areas of healthcare. ACLM is the collective voice and community for Lifestyle Medicine (LM), advocating for the practice and practitioners of LM, developing standards and credentialing, and much more.
Booth #29

Agency for Healthcare Research and Quality
Website: www.ahrq.gov
Description: The Agency for Healthcare Research and Quality (AHRQ) is the lead Federal agency charged with improving the quality, safety, efficiency, and effectiveness of health care for all Americans. As one of 12 agencies within the Department of Health and Human Services, AHRQ supports health services research that will improve the quality of health care and promote evidence-based decision making.
Booth #10

AHRQ Healthcare Cost and Utilization Project (HCUP)
www.hcup-us.ahrq.gov
Description: Sponsored by the Agency for Healthcare Research and Quality (AHRQ), the Healthcare Cost and Utilization Project (HCUP) is a family of health care databases and related software tools developed through a Federal-State-Industry partnership to build a multi-State health data system for health care research and decision making.
Booth #9

American Board of Preventive Medicine
Website: www.theabpm.org
Description: The American Board of Preventive Medicine, Inc (ABPM) is a member Board of the American Board of Medical Specialties. The ABPM offers certification in the specialty areas of Aerospace Medicine, Occupational Medicine, and Public Health/General Preventive Medicine and in the subspecialty areas of Medical Toxicology and Undersea and Hyperbaric Medicine. Complete information on the ABPM is available on our website at www.theabpm.org
Booth #26

American Express
Website: Open.com
Description: American Express Open is a division of American Express that is dedicated to the small business owners with a special interest in the medical community. We offer financial tools that benefit the physician practice from online management tools, buyer protection programs and many other financial programs that are not available through other channels. We conduct business according to several guiding principles: trust, integrity, security, quality and customer service.

AmeriSciences
Website: www.AmeriSciences.com
Description: AmeriSciences has partnered with physicians and scientists to develop enhanced nutrition by providing a line of nutritional supplements that offer health & wellness solutions that target your needs with premium effective formulations backed by science. In maintaining over-the-counter (OTC) pharmaceutical equivalent standards, rigorous quality assurance tests ensure the safest and most effective products for you and your family to improve the quality of life. With unsurpassed dissolution, optimal dosages and ingredient purity, AmeriSciences gives you the safest and most effective health & wellness products on the market today.

Army Medical Recruiting
Website: www.goarmy.com
Description: The U.S. Army Medical Corps has a variety of dynamic opportunities available for talented doctors to serve their country. Visit the Army Medical Corps booth to meet an Army doctor and learn more about full-time positions in the Army or part-time positions in the Army Reserve.
Booth #12&13

BioLife Slim
Website: http://www.bioslifefamilymedicine.com/
Description: BioLife Slim is a nutritional product clinically proven to help restore and maintain healthy blood glucose and cholesterol levels, and facilitate fat loss. It delivers a patented, scientifically formulated matrix of fiber, vitamins, and minerals that results in a drink mix that can be used easily in daily routines.
Booth #24

Cancer Prevention Fellowship Program, NCI, NIH
Website: www3.cancer.gov/prevention/pob/
Description: The overarching goal of the Cancer Prevention Fellowship Program (CPFP) is to provide a strong foundation for scientists and clinicians to train in the field of cancer prevention and control. As part of our Program, we offer training toward an M.P.H. degree at an accredited university during the first year (if necessary), followed by mentored research with investigators at the National Cancer Institute (NCI). Outstanding opportunities...
for cutting-edge research in clinical and population-based cancer prevention have been the hallmarks of the Program since its inception in 1987. In addition, a partnership between the NCI and FDA provides opportunities for prevention research in drugs, biologics, and medical devices. Educational opportunities are provided throughout the fellowship to complement research training, including the NCI Summer Curriculum in Cancer Prevention; Grant Writing Workshops; Cancer Prevention and Control Colloquia Series; Leadership Training; and weekly Fellows’ Research Meetings. The CPFFP is interested in potential candidates with clinical backgrounds.

Booth #14

**CDC/Prevention Research Centers Program**  
**Website:** [www.cdc.gov/prc](http://www.cdc.gov/prc)  
**Description:** CDC’s Prevention Research Centers Program is a national network of 37 academic research centers committed to promoting health and preventing disease. The centers, located at schools of public health or medicine, work with members of their local communities to develop and evaluate community-based interventions that address the leading causes of death and disability in the nation. University researchers, health agencies, and nonprofit organizations work together to translate promising research findings into practical, innovative and effective programs.

Booth #17

Booth #16

**Centers for Disease Control and Prevention (CDC)**

**Website:** [www.cdc.gov/hiv](http://www.cdc.gov/hiv)  
**Description:** The National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention maximizes public health and safety nationally and internationally through the elimination, prevention, and control of disease, disability, and death caused by Human Immuno-deficiency Virus Infection/Acquired Immunodeficiency Syndrome, Non-HIV Retroviruses, Viral Hepatitis, other Sexually Transmitted Diseases, and Tuberculosis

**DHAP**  
The Division of HIV/AIDS Prevention provides national leadership and support for HIV prevention research and the development, implementation, and evaluation of evidence-based HIV prevention programs serving persons affected by, or at risk for, HIV infection.

Booth #21

**Centers for Medicare and Medicaid Services (CMS)**  
**Website:** [www.medicare.gov](http://www.medicare.gov)  
**Description:** CMS’s national headquarters is located in Baltimore Maryland. The 10 regional offices work with the contractors who administer the Medicare program and work with the States who administer the Medicaid, SCHIP, HIPAA and survey and certification of health providers. CMS works closely with the Social Security Administration (SSA) to provide information about Medicare to beneficiaries applying for, or currently receiving, retirement, or disability benefits at local SSA district offices.

Booth #22

**Department of Veterans Affairs (HRRO)**  
**Website:** [www.vacareers.va.gov](http://www.vacareers.va.gov)  
**Description:** The Healthcare Retention and Recruitment Office advertises the advantages offered in a career with the VA for both potential and current employees. HRRO promotes the retention of our healthcare professionals by offering education scholarships to hire hard-to-recruit occupations. HRRO also administers several initiatives that enhance the recruitment of highly qualified healthcare professionals. These initiatives include implementing VHA national media marketing strategies; online recruitment programs; producing public service announcements; placing advertising in professional journals; and creating the VHA job internet site, VACareers, and the VHA Healthcare Recruiter’s Toolkit. Additionally, HRRO provides education debt reduction payment to priority hard-to-recruit qualified healthcare professionals. Through advertising, outreach activities, scholarships, and other initiatives, HRRO can help managers meet their workforce planning and recruitment needs, staff development education goals, and network director performance measures.

The Recruiting & Staffing Service (R&SS) Division under HRRO is a premiere network of efficient, caring, motivated, and diverse HR Professionals providing external Title 5 recruitment and staffing services to VHA nationwide. Their primary focus is to recruit and refer highly qualified applicants to occupy the workforce which takes outstanding care of our Nation’s veterans. The R&SS is a virtual automated network that consists of ten different offices located in Atlanta, Bath, Bedford, Cleveland, Coatesville, Indianapolis, Little Rock, Los Angeles, Richmond and Topeka.

The retention and recruitment programs we offer also help solve some of the challenges that the healthcare industry and VA human resources staff face today.

Introducing Your Preventive Medicine 2011 Conference Chair

Liana Lianov, MD, MPH, FACPM
Assistant Professor, Departments of Public Health Sciences and Internal Medicine, University of California Davis

Dr. Liana Lianov is Associate Professor in the Departments of Public Health Sciences and Internal Medicine at the University of California Davis and founder of HealthType which provides health promotion services for lay and professional audiences. She recently served as Vice President of Clinical Operations at Berkeley HeartLab where she directed a national cardiovascular disease management program which focuses on health behavior change in nutrition, physical activity, medication adherence, and stress management. Dr. Lianov also previously directed the Healthy Lifestyles and Medicine and Public Health Divisions at the American Medical Association where she provided leadership for public and physician education in healthy lifestyles and spearheaded advocacy in support of health promotion and disease prevention. She is President-Elect for the American College of Lifestyle Medicine, board member of the American College of Preventive Medicine, and chair of American College of Preventive Medicine’s Lifestyle Medicine Task Force.

As the Planning Committee Chair, Dr. Lianov will preside over the conference as Master of Ceremonies and welcome participants to the 2011 Preventive Medicine Annual Conference.
