

My name is Bhargava Chitti! I go by Bhargs. I'm excited to run for Chair of the New Practitioner Committee and as the New Practitioner Representative for the ACRO Board of Chancellors. I am currently a newly minted Attending Physician in the Department of Radiation Oncology at Kings County and an Assistant Professor at SUNY Downstate School of Medicine.

In brief, I am running for this position because I have the experience interfacing with different aspects of ACRO needed. I bring energy and enthusiasm with my leadership. I think this is critical because our membership is brilliant and talented, and I know that I can connect people and tap into their potential in service of our aims as an organization.

In this year, my first on the New Practitioner Committee, I've served as Deputy Chair, assisting Dr. Comron Hassanzadeh in his role as Chair of the Committee, and heading our Podcasts Committee with Anna Brown. We produced a successful Functional Radiosurgery Podcast, with Dr. Evan Thomas with well over 100 listens. I am also a member of the GREC Advocacy and Education Subcommittees. Lastly I serve as the New Practitioner Liaison to the Communications Subcommittee

I see serving ACRO as Chair of the New Practitioner Committee as the next logical step in these efforts. I appreciate your consideration and look forward to continuing to serve you through ACRO.
