

Finance Department Research Publication Records, 1992-1996

This table lists all finance departments publishing in the three leading finance journals from 1992 through 1996. The *Journal of Finance*, *Journal of Financial Economics*, and *Review of Financial Studies* are chosen because they have the highest average impact factors over the most recent five year period, as calculated by the *Social Sciences Citation Index*. Column D contains the total number of articles published in the *Review of Financial Studies* (RFS) on which each department's name appears, regardless of the number of authors. Column E adjusts the number of articles by allocating credit to departments by the number of authors. For example, if an article has two authors with different departmental affiliations, each department is credited with 0.5 articles. Columns F and G provide the same information for the *Journal of Financial Economics* (JFE), as do columns H and I for the *Journal of Finance* (JF). The totals for the three journals are presented in columns J and K.

| | RFS-Total | RFS-Adj | JFE-Total | JFE-Adj | JF-Total | JF-Adj | Total | Total-Adj |
