

ABOUT CVAHP

CREATED BY

As Healthcare Value Analysis becomes more integral to healthcare's financial viability, the need for a credentialed industry standard is greater than ever.

ONLINE TRAINING

Our program has 6 hours of engaging content developed by AHVAP's panel of industry experts, representing 40 of the nation's top hospitals, and OMU's course development team.

The online modules are designed to prepare you for your CVAHP exam, while building your value analysis expertise across the following domains:

- Governance and Structure
- Healthcare Value Analysis Methodology
- Professionalism and Business Ethics
- Finance

Once you've completed your online training, you'll receive a certificate of completion and be given next steps for scheduling your exam.

BECOMING CREDENTIALLED

We've partnered with AMP to serve as our exam proctor. Their network of 220+ locations across the country has been used by thousands of healthcare professionals for industry and clinical credentials, ranging from supply chain to respiratory therapy.

Introducing the industry's first and only healthcare value analysis credential - CVAHP

Created to standardize healthcare value analysis methodology through patient centric and outcomes-driven data

The courseware is hosted online, at www.ahvap.org

Learners can take their proctored exam at more than 220 locations across the country

THE GROWING NEED FOR CVAHP

CVAHP sets an industry standard for healthcare value analysis professionals to improve patient and financial outcomes.

Reimbursements have decreased and shifted from volume to value.

Hospitals need to find ways to deliver higher value care to avoid further reimbursement cuts.

Healthcare leaders view value analysis professionals as champions of balancing patient and financial outcomes.

The need for qualified Healthcare Value Analysis Professionals has never been more apparent.

CVAHP's are needed in nearly every aspect of hospital's clinical and business operations in order to determine the impact of products on the quality of care delivered.

INTRODUCING THE INDUSTRY'S FIRST VALUE ANALYSIS CREDENTIAL
