What Is The AIA?

The American Institute of Architects

AIA is the professional association for architects and design professionals. When you see the designation “AIA” following the name of an architect, it means that they are a fully licensed and registered architect who upholds the highest standards of ethics and professional practice. It means that they are a member of The American Institute of Architects and they are dedicated to providing quality design, safeguarding the public and improving our built environment.

The American Institute of Architects was created in 1857. For over 165 years the organization has provided education, government advocacy, community development, public outreach activities and has endeavored to create an environment that is responsive to the people it serves.

As members of the AIA, more than 94,000 licensed architects and associated professionals express their commitment to quality design and livability in our built environments.

The public policies and position statements of the Institute are available, along with an abundance of information on the history and purpose of the organization on the national website located at www.aia.org

For further information or to become a member please contact the AIA Nevada office at 702-483-3838, or visit our website at www.aia.org/nevada, or the AIA National website at www.aia.org.

Mission Statement
The American Institute of Architects is THE voice of the architecture profession And THE resource for its members in service to society.

Vision Statement
Through a culture of innovation, The American Institute of Architects empowers its members and inspires creation of a better built environment.

Good Design Makes A Difference
For over 165 years, members of the American Institute of Architects have worked with each other and their communities to create more valuable, healthy, secure and sustainable buildings and cityscapes.

MISSION STATEMENT

To unite the AIA membership in the State of Nevada in fellowship

To lead legislative efforts on behalf of all architects in the State;

To engage the public with a unified voice and create a better understanding of architecture and the built environment;

To ensure that the health, safety and welfare of the public is protected through legislative efforts;

To recognize excellence in design and service to the profession and the community.

Firm Philosophy: Daniel Joseph Chenin Ltd., recipient of the AIA Nevada 2021 Firm Award, is an award-winning, multi-disciplinary design studio with an integrated approach that blurs the lines between design disciplines and project typologies. Daniel Joseph Chenin, Ltd. offers clients a premium source for design services including artfully-crafted architecture, thoughtful interior design, FF&A sourcing and installation. Drawing upon experience crafting luxury hospitality spaces for top tier international brands, the firm is focused on delivering exceptional service and design quality with a focus on residential, hospitality, and commercial projects. Taking on a limited number of commissions at a time, each project begins as a study into our clients’ objectives, without a preconceived notion or prototypical style. Equally pragmatic and artist, our approach centers on developing a meaningful understanding of each commission – balancing our client’s functional and aesthetic priorities to craft spaces that are bespoke, fully conceptualized, richly layered and entirely representative of our clients’ vision. This rigorous and holistic approach has established the firm’s reputation for exceptionally crafted, meticulously detailed and thoughtfully curated spaces.

Firm Philosophy: “Excellence” ¦On Time, On Budget, On Purpose! Adherence to client needs, schedules, deadlines, team orientation, and project construction budgets has resulted in long-term relationships with our clients throughout the West. GGWArchitects has made a deliberate effort, over its 50 years, to establish a positive rapport with local governing authorities. We provide a working knowledge of special considerations unique to the Las Vegas area and its environmental conditions and code regulation requirements. We provide architecture, engineering, site planning, interior design, management, and administrative services to clients, using the “Team” concept in our design philosophy. Our primary purpose is to lead and orchestrate a team of knowledgeable and committed participants, working in concert to synthesize a design solution that will satisfy the diverse needs and concerns of the client, and the staff that will occupy the building, and the community.

**Firm Philosophy:** IN2IT Architecture was formed in 2013 by Larry Staples and AJ Plank. Larry and A.J. have been working together since 1996 and collectively represent a combined 40 years of architectural service in Las Vegas with a career focus on the Healthcare, Commercial and Public markets. Our goal is the creation of intelligent architecture that belongs. An intelligent design is one that becomes an active participant in its use. This means a space that actively increases productivity, promotes healing, encourages learning or even helps sell products or services. An architecture that Belongs is one that is appropriate for its context, its use and occupants, its owner’s budget and its local climate. We strive to provide innovative, intelligent and intuitive design, implemented practically, with an emphasis on excellent client service.

**Firm Philosophy:** Uniting form with function, Marnell Architecture represents the leading resource in the search for optimal property development, master planning, operational integration and design to position developments for success on a global stage across a variety of stakeholder metrics. The strength of Marnell Architecture lies in the experience obtained from the creation of millions of square feet in casino, resort, hotel, commercial, retail and entertainment developments over the last four decades. Working as an integrated force within the Marnell Companies, Marnell Architecture is uniquely qualified to create the architecture and design that not only responds to the market and owner’s project requirements, but also allows for effective constructability, operational efficiencies and future expansion capabilities. Marnell Architecture provides professional design services throughout the United States and abroad. Regardless of location, the Marnell approach remains focused on owner success in the form of customer experience, optional efficiency, property aesthetics and budget management. At Marnell, ideas are valued in the context of owner realities. From concept through creation, the ideas driving owner success pervade the project plan, positioning developments advantageously in the marketplace.

**Firm Philosophy:** Our design philosophy centers on the belief that a facility must be both beautiful and profitable. The facility must create a brand identity for our client and give its guests a feeling of warmth, friendship, comfort, and familiarity. We also believe a structure must fit into the urban fabric of its surrounding community, yet not be a carbon copy of its neighborhoods.

Website: http://www.tska.com
# of Employees: 68
Firm Philosophy: We believe it is not through individual ego that great architecture is generated, but instead, through collaboration. The people who live and work in the places we make will have a more intimate relationship with our buildings than we will. We measure ourselves through our ability to make buildings that are filled with spaces that inspire our clients and comfortably fit their values, needs, resources, and expectations of use. Our approach to architecture is modern and through our efforts, we strive to find beauty in what is common and readily available to a given site. We favor opportunities that reveal the overlooked beauty of a surrounding landscape, that capture seasonal changes, that engage the climate to produce architecture that is simple and yet much greater than the sum of its parts. Recent major projects include: the Las Vegas Convention Center; McCarran International Airport D Gates; Springs Preserve Visitor Center; CCSD North East Career and Technical Academy; UNLV School of Medicine; Southend on Water; Regional Justice Center; and B-Tech Towers

Henderson, NV. 89052  
Ph: 702-269-6060  
Website: http://fealasvegas.com  
**Specialty or Product Type:** Audio/Visual | Electrical Engineers | Fire Safety | HVAC Engineers | Lighting | Mechanical Engineers | Plumbing Consulting Engineers  
**Company Description:** FEA Consulting Engineers is among the largest Mechanical and Electrical engineering firms in the State of Nevada. We have been doing business for over 20 years. Our projects range from multi-million dollar resort casinos to large custom residential homes. FEA also has had experience in prototypical designs that have allowed owners to benefit from enhanced Building Automation Systems, as well as cost saving initiatives. FEA has gained experience in “Green” building design by being involved in the Las Vegas community to help bring forward legislation allowing casinos and resorts to be considered eligible for LEED accreditation status. Currently, FEA has completed the design for the Nevada State Museum Building, Des Palines Casino and The Cosmopolitan Hotel and Casino mixed-use project. All of which will be LEED Silver Certified designs. We have on staff, LEED accredited design professionals whose expertise aids in the collaboration required by the Design Team, Owner and Contractors to bring these projects to fruition. As a corporate member of the United States Green Building Council (USGBC), FEA Consulting Engineers is fully committed to promoting sustainable building construction technology.

The firm is licensed in all 50 states, District of Columbia, and the Virgin Islands. Hands-on and proactive from concept to completion, we are committed to building strong partnerships and mutually beneficial, long-term client relationships. With over 200 years of combined engineering and construction experience, our team merges strategy with leading-edge technology to develop innovative, reliable, timely, and cost-saving solutions to public and private clients, architects, general contractors, specialty contractors, and MEP contractors. At Innova, we believe our employees should share in the success of our company in a tangible way; on January 2020, the decision was made to transfer ownership of the company to our employees through an Employee Stock Ownership Plan (ESOP). For our firm, shared ownership helps promote a positive, unique organizational culture and supports the company’s success.

Kordt Engineering Group
1701 W. Charleston Blvd., Suite 610
Las Vegas, NV. 89102
Ph: 702-483-6666
Web: http://www.KordtEG.com
Specialty or Product Type: Structural Engineers
Company Description: Kordt Engineering Group (KEG) was founded in 2013 by Stephan Kordt, a licensed Civil and Structural Engineer with over 25 years of experience in a variety of roles including design engineer, project manager, project principal, project director and Engineer of Record (EOR). Prior to establishing KEG, Stephan spent 8 years developing his skills as a Project Manager at Martin and Peltyn and an additional 8 years as Project Principal and Engineer of Record for Halcrow Yolles in Las Vegas. In 2013, Stephan left his position at Halcrow Yolles to follow the American Dream and start his own business. This transition satisfied his goal to provide innovative, excellent and timely structural engineering services to new and existing clients across the United States and around the world. Since its inception over 8 years ago, KEG has grown to a team of talented engineers and CAD operators with more than 250 years of combined design and drafting experience. KEG has had the privilege of working with numerous architects, contractors, owners and consultants from across the globe. As new endeavors develop every day, the company strives to maintain its reputation for delivering quality projects under strict deadlines while still providing unparalleled customer services. In 2017, Ted Droessler, PE, joined KEG as Senior Vice President. Ted was previously in-charge of the structural and geotechnical plans examiners at the Clark County Building Department.
