Membership Dues Parameters

Membership Dues Cycle

As determined by the membership in October 2014, the annual membership dues cycle runs from January 1st through December 31st each year.

New Member/First-time Members - Manufacturers

Any *Manufacturer* that join the association *starting August 1st or after for the current year* will be afforded prorated dues for the year in which it joins, if the company commits to 1 year of membership at the full, annual price for the following year. Currently, annual membership dues for Manufacturers is \$395 US (\$32.92 US / month).

For example, if a rep agency joins the association as a first-time member in August, the company will be invoiced for 5 months.

5 times \$32.92 = \$164.58 total dues for year in which company joined

Plus

\$395 for the following year

Dues for the year after the initial “join year” will be paid at 100 percent and at the time of joining. The annual dues cycle runs from January 1st through December 31st each subsequent year.

Renewing Members / Current Members

All member companies (rep agencies and manufacturers) that renew association dues will pay the total annual dues (100 percent) on an annual basis as established by the association. The annual dues cycle runs from January 1st through December 31st each year.

Reinstated Members

All member companies (rep agencies and manufacturer) that have been previous AIM/R members and terminated membership or chose not to renew membership may re-apply for membership. Re-applying companies will have their annual membership fee prorated from the month of application **and** will be assessed a \$100 US reinstatement fee. The annual dues cycle runs from January 1st through December 31st each year.
