The American Institute of Professional Geologists (AIPG) was founded in 1963 to certify the credentials of practicing geologists and to advocate on behalf of the profession.

These major priorities are predicated on the conviction that:

- The science of geology is vital to the interests of the nation, domestically and internationally, in times of peace and when national security is at risk; and

- in order to best protect public health, safety, and welfare; provide strategic resources; and assist in the effective administration of government programs in which geology plays a prominent role, the science of geology should be practiced by qualified geoscientists.

American Institute of Professional Geologists

National Headquarters
1333 W. 120th Avenue, Suite 211
Westminster, Colorado 80234-2710

Telephone: 303-412-6205
Fax: 303-253-9220
E-mail: aipg@aipg.org
Website: www.aipg.org
Office Hours: 7:30 am - 4:30 pm
www.aipg.org

AIPG represents the professional interest of all practicing geoscientists in every discipline. Its advocacy efforts are focused on the promotion of the role of geology and geologists in society.

AIPG

AIPG is a professional association dedicated to certification and advocacy.

The AIPG title Certified Professional Geologist (CPG) is the standard that defines minimum educational, experience, and ethical standards by which a practitioner is recognized as a professional geologist by peers.

The American Geosciences Institute (AGI) and the American Institute of Professional Geologists (AIPG) have teamed up to launch the Geoscience Online Learning Initiative (GOLI). This joint effort seeks to build a portfolio of online learning opportunities to help support the professional development of prospective and early-career geoscientists as well as addressing topics of interest to the broader geoscience profession.

AIPG Events/Conferences

The AIPG National website has all technical conferences, online courses, and the AIPG Annual National Conference available online with details and registration information.

AIPG Local Events

Find local AIPG Section Events and News on the AIPG National Website under Events and News - www.aipg.org

Membership Categories

Certified Professional Geologist
Certified Professional Geologists constitute the highest grade of individual membership within the Institute and applicants are screened for required education, experience, and character.

Professional Member
Professional Members must have a baccalaureate or higher degree in a geological science.

Young Professional Member
Young Professional membership is applicable during the first five (5) years upon earning a baccalaureate, masters or doctorate in a geological science.

Student
Applicants must be currently enrolled in a geological science degree program.

Associate
Applicants must have an avocational or general interest in the geological sciences.
