FEATURES

5 The Hidden Geology of Walt Disney World
Robert P. Blauvelt, CPG-6508

10 Peer-Reviewed
Gold and Silver Vein Deposits in the Sierra Madre Occidental, Mexico
Francisco Pedro Cruz Frisby, CPG-11977

16 AIPG Wants Your Unwanted Geology Textbooks, Geology Maps and Other Books About Science and Nature
Dawn H. Garcia, CPG-8313

17 Minimizing Risk and Uncertainty in Humanitarian Efforts
Robert K. Merrill, CPG-4984

22 Stormwater Infiltration System Design Regulation Flaws Due to Simplistic Assumptions Regarding Site Hydrogeology
Andrew M. Koenigsberg, CPG-7973

38 The Perseverance Rover: An Exciting Camp Towards Summiting the Red Planet
Isaac Pope, SA-9950

47 New York State Education Department Approves AIPG as a Continuing Education Provider for Licensed State Geologists
John M. Nadeau, PG, CPG-11181

Description: The reflected light image under crossed polars with 1 second exposure illustrates four minerals. Pyrite, FeS₂, is dark gray, Gold, Au, as four massive yellow grains is enclosed by Hessite, Ag₂Te, in multiple hues of light gray, blues, browns and orange red. A late second gold (silver-rich) stage is lighter yellow with dendrites replacing hessite. Coarse red hessite contains pseudomorphic isometric twin structures in light gray and other hues. This was a consequence of ore cooling below ~150° C resulting in the dimorphic change to the monoclinic crystal system with many anisotropic hues.

The ore sample was mined by Matt Collins, Mine Manager, and Jim Smith, Mine Foreman, in 2007 on the 3rd level sill at the C-2 stope in the Cash vein, Cash Mine, Gold Hill, Boulder County, Colorado, USA. One 6-inch wide vein assay returned 366 ounces per ton silver and 27 ounces per ton gold. The ore was analyzed in 2007 and photographed in polished section by Jim A. Paschis, Senior Mine Geologist. 2023 Photo Contest: Micro Geology - Under the Microscope. Runner Up on page 51.

AIPG Publication Policy, October 4, 2010. AIPG encourages submission of articles and editorials for publication in TPG on topics related to the science and profession of geology. Submissions shall be of interest to the members of AIPG, other professional geologists, and others interested in the earth sciences. Articles and editorials may be noted as follows at the discretion of the Editor. “The opinions, positions and conclusions presented herein are those of the author and do not necessarily reflect the opinions, positions or conclusions of the American Institute of Professional Geologists.” All materials submitted for publication, including author opinions contained therein, shall include accurate and appropriate references. The Editor has the authority to solicit, edit, accept, or reject articles and editorials and other written material for publication. The Executive Committee has the authority if it so chooses to act on any particular case to support or overrule actions of the Editor regarding the solicitation, editing, acceptance, or rejection of any particular article, editorial, or other written material for publication.

American Institute of Professional Geologists (AIPG) is the only national organization that certifies the competence and ethical conduct of geologic scientists in all branches of the science. It adheres to the principles of professional responsibility and public service, and is the ombudsman for the geological profession. It was founded in 1963 to promote the profession of geology and to provide certification for geologists to establish a standard of excellence for the profession. Since then, more than 12,000 individuals have demonstrated their commitment to the highest levels of competence and ethical conduct and been certified by AIPG.

The mission of the American Institute of Professional Geologists (AIPG) is to effectively advocate for the profession of geology and support members through activities and programs that advance professional growth and promote high standards of ethical conduct.

The Professional Geologist (USPS 590-810 and ISSN 0279-0521) is published quarterly by the American Institute of Professional Geologists, 1333 W. 120th Avenue, Suite 211, Westminster, CO 80234-2710. Periodicals Postage Paid at Denver, Colorado and additional mailing offices.

Printed in U.S.A. by Modern Litho-Print Company in Jefferson City, Missouri.
