

AISWN | AIS Women's Network College

What is the AIS Women's Network College?

The AIS Women's Network is a college of the Association for Information Systems (AIS). The purpose of the College is to promote a network for supporting women scholars in information systems and to enable mentorship relationships that are crucial to speed the success of women in the Information Systems field.

What does the AISWN do?

- Provides a forum for discourse between those interested in furthering the accomplishments, contributions, and careers of women scholars in Information Systems.
- Facilitates mentorship relationships that support the activities of women scholars in Information Systems

Activities Include:

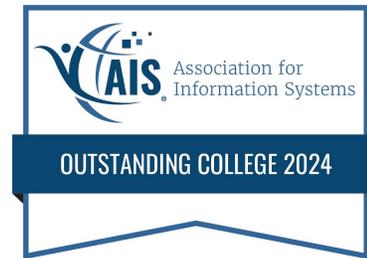

- Pre-conference Workshops
- Ancillary Meetings
- Webinars
- Awards (annual)
- Mentorship opportunities

For more information, contact:

Efpraxia Zamani (co-chair),
efpraxia.zamani@durham.ac.uk

Maud Adjeley Ashong Elliot (co-chair elect),
maud.ashongelliot@upsamail.edu.gh

<https://www.aiswn.org/>

Community for current and aspiring Program Directors, Department Chairs, Provosts, Presidents, and all other administrators.

AIS WEBSITE

Resource to share experiences, learn from peers, discuss tough topics, grow your network!

LinkedIn

AIS Doctoral Student College

Your gateway to the AIS Community

What is AIS Doctoral Student College?

A global AIS community dedicated to supporting and connecting doctoral students and early career scholars in Information Systems.

Key Initiatives and Activities:

- Doctoral Student Corners (ICIS, AMCIS, ECIS, PACIS)
- Mentorship program
- Regional program
- Annual awards recognizing excellence

Outstanding College Award: 2020, 2021, 2022, 2023, 2024

 **For more information, visit:**

<https://communities.aisnet.org/doctoralstudentcollege/home>

<https://www.linkedin.com/company/ais-doctoral-student-college>

Key Numbers (2025):

2,400+ doctoral student and early-career members worldwide

Active presence at **4** major AIS conferences

6 Executive Committee members

23 dedicated volunteers

20+ hosted events

AIS SIG ADIT | Adoption and Diffusion of IT

What is SIG ADIT?

Incorporated in 1988, SIG ADIT is dedicated to providing a forum for researchers and individuals interested in the phenomenon of adoption and diffusion of information technology among users, organizations, and societies.

What does SIG ADIT do?

- Promotes and facilitates research examining all facets of the adoption and diffusion of IT, as well as its consequences.

Activities Include:

- Annual pre-ICIS DIGIT workshop, with proceedings published in the AIS eLibrary
- Scholarships for PhD students attending DIGIT & ICIS.
- Affiliated and supported tracks and mini-tracks at IS conferences (ICIS, AMCIS, ECIS, PACIS).

Outstanding SIG Awards:

- 2014, 2015, 2016, 2017, 2019, 2020, 2021, 2022, 2023, and 2024.

For more information, visit:

- <https://communities.aisnet.org/sigadit/home>

AIS SIG AI | Artificial Intelligence

SIG AI's objectives are...

SIG AIAA is now SIG AI

...to **provide a global forum** for members and other information systems researchers to share ideas and experiences that relate to information technology, with specific **focus on artificial intelligence** in all forms.

...to **promote the exchange of professional communications** among scholars and professionals in education, research, and practice in both private and public organizations.

SIG AI @AMCIS:

- Track: Artificial Intelligence & Autonomous Applications
- Member Connect
- Community Leaders Meeting

SIG AI Officers

President

Alan Dennis

Vice President

Ilias Pappas

Treasurer

Dan O'Leary

Secretary

AIS SIG ASYS | Accounting Information Systems

What is SIG ASYS?

SIG ASYS facilitates, supports and disseminates world class research on accounting information systems. The goal of is to link the accounting information systems research community with the broader information systems research community.

What does SIG ASYS do?

- Promotes and facilitates the creation, presentation, and publication of research examining all facets of research in accounting information systems
- Works to integrate AIS research, teaching, and practice.

For more information, contact:

- David Wang, <david.wang@depaul.edu

Activities Include:

- Pre-ICIS Workshops
- AMCIS Mini-tracks
- Special Issues for Journals
- Award for Best Dissertation

Current Research Issues Include:

- Large Language Apps
- Blockchain in Accounting
- Cybersecurity
- Digital Transformation
- Process Mining

AIS SIG BD | Big Data

What is SIG BD?

SIG BD is concerned with Big Data as the foundation of digital transformation, innovation and growth of enterprises, business, and economics.

What does SIG BD do?

- Attracts and promotes new promising research in BD, including integration with AI, ML and other key technologies
- Strives to follow the modern trends in BD and identify new trends based on prospect research.
- Works to integrate research, teaching, and practice in the field of BD analytics, governance and its quality, reliability, and observability.

For more information, contact:

- Dr Nikolai Kazantsev, nk622@cam.ac.uk

Activities Include:

- Annual Hybrid Pre-ICIS Workshops
- Special Issues for Journals
- Award for Best Paper (new)

Current Research Issues Include:

- Big data ecosystems
- Big data and augmented analytics
- BD analytics in Cyber-Physical System and Cyber-Physical-Social Systems

AIS SIG on Blockchain Innovations and Technologies (SIGBIT)

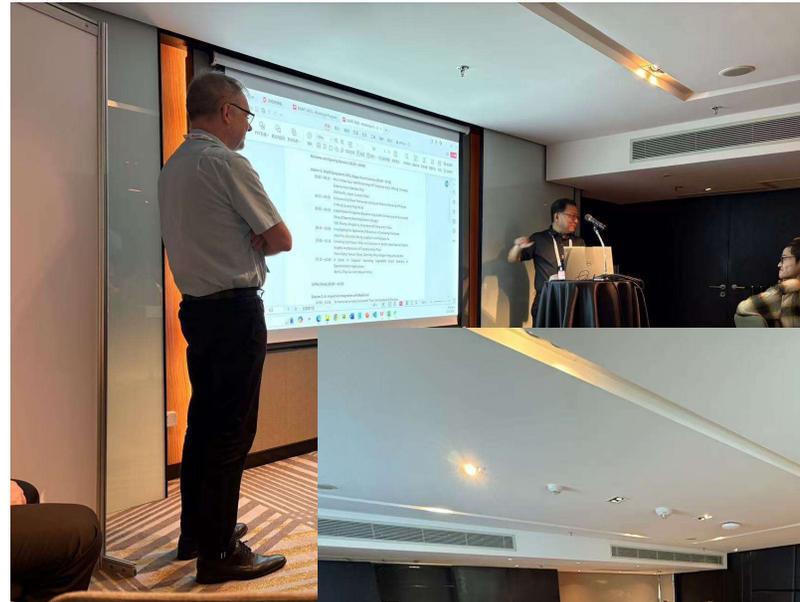

- SITBIT provides a platform for researchers and practitioners interested in blockchain-driven innovations, technologies, and ecosystems, such as Web 3.0, DAO, DeFi, and NFT, to exchange ideas and share experiences.

SIG Activities:

- Annual Pre-ICIS workshop
- Best paper awards
- <https://sigbit.org/about>

For more information, please contact

- Daning Hu, hudn@sustech.edu.cn

**Bangkok
2024**

AIS SIG CCRIS | Cross-Cultural Research in Information Systems

What is SIG CCRIS?

SIG CCRIS promotes the exchange of ideas, experiences, and knowledge among scholars and professionals examining how cultural contexts shape the development, management, and use of information systems and technology.

What does SIG CCRIS do?

- Foster inclusive dialogue and networking across regions, disciplines, and methods.
- Host events on key issues and innovations in cross-cultural IS research.
- Support critical analysis of global IS development and governance in diverse contexts.

For more information, contact:

- Awa Zhu, awazhu@utk.edu

Activities Include:

- AMCIS Track and Mini-tracks
- ACIS Track
- More to come!

Current Research Issues Include:

- Globalization and deglobalization
- Cross-Cultural Perspectives on AI
- Ethical and Inclusive AI for Language Diversity

AI Special Interest Group on Culture and IS

“AI Digital Summit” 2025 online with
Chinese Information Economics
Society, ABPMP China, IGBR
institute and division officers of
Academy of Management (AOM)

Monod, E., Mayer, A. , Straub, D. , Joyce E. & Qi J. (2024)
“From worker empowerment to management control. The
devolution of AI tools, *Information and Organization*

From worker empowerment to
managerial control: The devolution of AI
tools' intended positive implementation
to their negative consequences

Emmanuel Monod ^a, Anne-Sophie Mayer ^b, Detmar Straub ^c, Elisabeth Joyce ^d

Outstanding SIG Award: 2019

Emmanuel Monod monod@abpmp.org

Special Interest Group on
**Digital Innovation,
Transformation, and Entrepreneurship**

SIG DITE Ongoing Activities

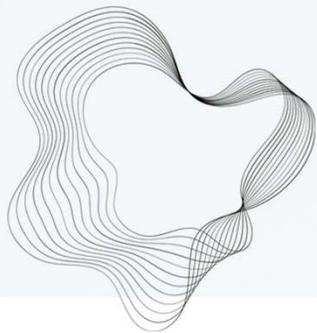

- PhD Research Academy
- Global PhD program
- 4th Paper Development Workshop-Cleveland, OH
- DITE Seminar Series
- Career Mentorship Program

2024 Highlights

- 22% Growth in Membership (525 members)
- SIG DITE PDW - Cleveland
- ICIS Paper Development Workshop
- Inter-SIG dialogue: (1) ICIS Panel with SIG-OSRA (2) SIG Green & SIG DITE
- **Outstanding community for 2024**

2025 Plans

- AoM Symposiums on “*From digital to AI transformation? Evolution or Illusion and What it Means for Management*”
- Joint symposium with Boston University Platform Summit
- 5th AIS SIG DITE PDW at the University of Hamburg
- DITE Special Issue in Information Systems Journal (ISJ)
- Career Mentoring program

Special Interest Group on Decision Support and Analytics

The mission of AIS SIGDSA:

Facilitate the development, communication, and dissemination of information about Decision Support, Analytics, AI, Pedagogy, and Knowledge Management Research.

SIGDSA highlights

- Outstanding SIG 5+ years
- Journal pub fast-track
- Best paper awards
- Best reviewer awards

More info:

AIS SIG DSPE | Digital Sourcing, Platforms, and Ecosystems

What is SIG DSPE?

The SIG DSPE – formerly SIG Sourcing – covers a wide spectrum of phenomena related to digital sourcing and platformization, with a special focus on how digital platforms and emerging technologies are reshaping traditional sourcing and business models.

What does SIG DSPE do?

- Promotes and facilitates research that bridges the literature streams of sourcing and digital platform ecosystems
- Fosters research collaborations and new research opportunities, new research ideas, and problems in conducting research on digital sourcing, platforms, and ecosystems

For more information, contact:

Thomas Huber, SIG President, huber@essec.edu

Activities:

- Pre-ICIS Workshop
- AMCIS Mini-track
- Special Issue in JSIS on *Platform Partnerships* (deadline Sep 15, 2025)
- Annual DSPE Workshop
- SIG DSPE Awards

DSPE Workshop 2025

AIS Special Interest Group on E-Business

Research Topics

- Topic 1: To support and promote research, teaching, and outreach activities in e-business areas.
- Topic 2: To develop the e-business community within AIS.
- Topic 3: To help identify opportunities for further advancement in areas related to e-business and digital transformation.

Upcoming Event:

- Pre-ICIS Workshop on E-Business 2025
 - December 13, 2025
 - Submission Deadline: September 10, 2025

Outstanding SIG Award, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024

For more information, contact:

- Bin Zhu: Bin.Zhu@bus.oregonstate.edu

Dedicated to:

Promoting excellence in IS and IT education, research, and practice.

Our motto:

“Connect More, Achieve More!”

2024

- European Conference on IS Education Research (ECISER 2024), June, Paphos, Cyprus
- AMCIS SIGED Education Track, August, Salt Lake City, Utah
- AIS SIGED Community | Workshop: “How to Teach Cloud Computing”, September, Live Online
- AIS SIGED Community | Connect: October, Virtual
- AIS SIGED Community | Newsletter
- ACIS 2024 Australasian Conference on Information Systems, December 4-6, hosted by the University of Canberra

2025

- IS Student Research Journal
- ECIS Track: Digital Education, Learning and Teaching for Sustainable Development, June, Amman, Jordan
- AMCIS SIGED Education Track, and sponsors of the Digital Collage workshop
- AIS SIGED International Conference on IS Education & Research (ICISER 2025), December, Nashville, Tennessee
- AIS SIGED Career Mentoring Program

Supporting the IS Student Research Journal

2026: ECIS Track and AIS SIGED ICISER, December Milan, Italy

Promoting Sustainable IS/IT Education

AIS SIG ENTSYS | Enterprise-Level Information Systems

Our mission

Understanding and Designing Integrated Enterprise Systems

Goals of AIS SIG ENTSYS

- A platform for academic and practical discussions on Enterprise-Level Information Systems
- Emphasizing the managing integration between and within information systems
- Addressing challenges in integrating technological innovations, business process improvement and evolving governance concepts
- Exploring strategic, operational, social, and supply chain management issues on enterprise level.

More information

<https://communities.aisnet.org/sigentsys/home>

Contact

- Benedict Bender, President, bebender@uni-potsdam.de
- Alta van der Merwe, Treasurer, alta.vdm@up.ac.za
- Christian Leyh, Secretary, christian.leyh@w.thm.de

Activities at AMCIS 2025

Track: Enterprise-Level Information Systems Research

- MiniTrack I: Platformization of Enterprise Information Systems
- MiniTrack II: Enterprise Systems - Integration and Transformation Challenges: Managerial and Technological Perspectives
- MiniTrack III: Healthcare Enterprise Systems: The Adoption of Integrated Information Systems in the Healthcare Industry
- MiniTrack IV: Artificial Intelligence and Enterprise-Level Information Systems: Avenues for Leveraging Green AI

Next Activity

HICSS 2026

- MiniTrack: Integrated Enterprise - Information Systems Research on Process-, Enterprise-, Ecosystem- and Industry-Level

AIS SIG GAME | GAME Design and Research

What is SIG GAME?

SIG GAME aims to explore the relationship between information systems and human and artificial playfulness. It also explores relationship between humans and game design elements.

What does SIG GAME do?

- Investigate and strives to understand the roles of the above topics for business systems, humans, and artificial information systems and the factors that lead to their success.
- Aims to understand game and game design as a method to understand deeper connections with human and computer systems.

For more information, contact:

- Abhishek Behl, a.behl@keele.ac.uk

Activities Include:

- Pre-ICIS2025 Workshops
- AMCIS 2025 Mini-tracks
- UKAIS 2026 Mini track

Current Research Issues Include:

- Gamification and Sustainability
- AI empowered game design and HCI
- Gamification and EdTech

SIG on Geographic Information Systems (SIGGIS)

Scope

- Discuss, develop ideas, and promote research
- Stimulate curriculum and teaching GIS technologies
- Dialogue on the role of Location in BI, DSS, and KM

Activities

- AMCIS Mini-tracks
- ICIS Workshops

Contact

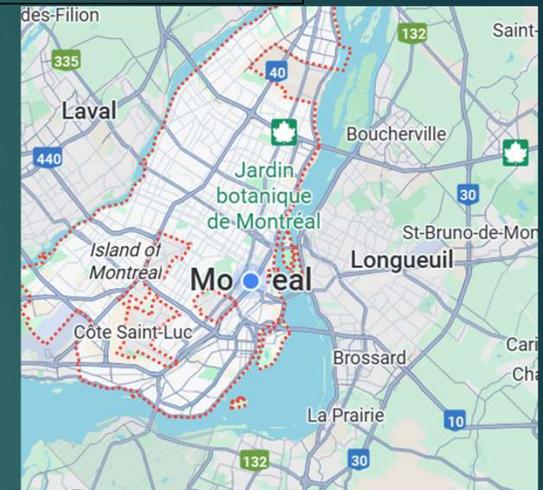

Dan Farkas, Interim Chair

dfarkas@pace.edu

<https://communities.aisnet.org/siggis/home>

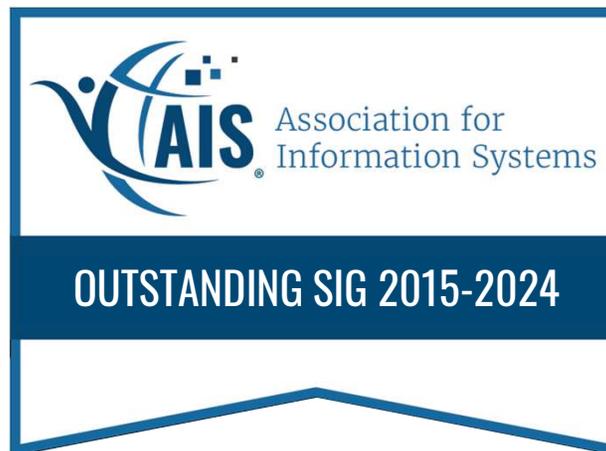

Mission

- Provide a forum for AIS members
- Address gaps in management of spatial IS
- Focus on spatial-based BI, DSS, and KM

AIS SIG GlobDev | ICT and Global Development

SIG GlobDev provides a stimulating intellectual platform to discuss the role of digital technology in creating a better world for everyone

Activities include:

- Pre-ICIS workshop
- AMCIS track
- Pre-ECIS joint workshop
- Special issues for journals

Current research issues include:

- Local processes
- Decolonial studies
- ICT4D digital platforms

For more information, contact:

Antonio Díaz Andrade, antonio.diaz@uia.no

Using an ***Eco-socio-technical perspective***, Green IS focuses on the pivotal role IS can play in ***enabling more sustainable solutions*** and encapsulates the responsibility of IS researchers and practitioners toward environmentally, economically, and socially sustainable development.

Green Information Systems – Digital Sustainability

Green IS spans the ***dual responsibilities*** of the IS field to reduce both its direct impact on the environment and use its particular expertise to enable business and society to do the same.

Visit us at: <https://communities.aisnet.org/siggreen/home>

For more information:

SIG President: Roya Gholami, University of Illinois Springfield

Email: rghol2@uis.edu

Established 2010

Outstanding SIG Award: 2020, 2021, 2022, 2023, 2024

2025 Events:

- HICSS 2025, Location Analytics, Sustainability, and Climate Action: Special Track on [Location Intelligence](#)
- ECIS 2025, Workshop: Technology as an Enabler for Circular Economy, <https://ecis2025.eu/events/workshops-program/>
- AMCIS 2025, Green IS and Sustainability (SIG GREEN), <https://amcis2025.aisconferences.org/submissions/track-descriptions/>
- ICIS 2025, IS for Sustainability, <https://icis2025.aisconferences.org/submissions/track-descriptions/>
- 15th Anniversary Events, [Fifteen Year Anniversary, 2010-2025 - SIG Green](#)
- Best Journal Paper in Green IS 2024 Award, [Call for Award Nominations - SIG Green](#)

AIS SIGHealth

A Special Interest Group of the Association for Information Systems

The mission of SIGHealth is to support health-IS research, education, and career development in a manner that is inclusive of diverse research methodologies and topic areas, to interact productively with allied disciplines, and to promote high professional standards of ethics and collegiality.

Announcing the Following Initiatives, new for 2026

- **Student Bursary – to support student travel to AMCIS or ICIS**
- **Student Research Award - \$1000 prize**

***For more information, please attend our business meeting on
Friday, August 15, 2025 at 7pm***

AIS SIG IDE | Immersive Digital Environments

What is SIG IDE?

The Immersive Digital Environments SIG seeks to foster interdisciplinary dialogue, advance the research agenda for the spatial internet, and build frameworks that guide responsible and ethical development of immersive digital environments.

What does SIG IDE do?

- Ethics & governance: Decision-making, privacy, surveillance, and responsible AI use.
- Human impact & inclusion: Psychological effects, accessibility, and social implications.
- Innovation & sustainability: Business models, cross-sector applications, and environmental impact.

For more information, contact:

- Nisreen.ameen@rhul.ac.uk

Activities Include:

- Mini-tracks at major AIS conferences
- Community webinars and collaborative research initiatives

Current Research Issues Include:

- Ethics in immersive platforms
- Privacy in spatial internet
- Human experience in virtual spaces

AIS SIG IS-CoRE | IS - Cognitive Research

What is SIG IS-CoRE?

SIG-CoRE supports IS researchers who view understanding human cognition as key to the effective design, implementation, and use of information systems.

What does SIG IS-CoRE do?

SIG-CoRE promotes interdisciplinary research that integrates cognitive science, psychology, organizational behavior, and information systems.

We aim to:

- Advance theoretical and empirical work on cognitive processes in IS contexts
- Foster dialogue on the role of cognition in digital transformation, innovation, and system design
- Support a vibrant international network of scholars through tracks, workshops, and publications

For more information, contact:

Simonetta Primario, simonetta.primario@unina.it

Recent Highlight:

AMCIS 2025 Track

Cognitive Research in IS

featuring two focused minitracks:

- *Cognition, Decision-Making, and Collaboration*
- *Human-Centered IS Design*

Key topics include:

Cognition in problem-solving, decision support, learning, and HCI, with applications to AI, innovation, and user-centered IS design.

AIS SIG ITProjMgmt (IT Project Management)

What does SIG ITProjMgt do?

- Providing a forum for **sharing research**
- Opportunity for the **exchange of novel ideas**
- Conducting programs, conferences, and **workshops**
- Identifying or proposing **special issues**

20

Years

For more information, contact:

- Michael Erskine, michael.erskine@mtsu.edu

Activities Include:

- IRWITPM (International Research Workshop on IT Project Management)
- AMCIS, PACIS Tracks
- Special Issues, Awards
- 150+ Members

Current Research Issues Include:

- Agile and Hybrid ITPM
- ITPM in AI and Data-Driven Projects
- Behavioral Aspects in Distributed and Remote Teams

AIS SIGLead | Leadership In IT

SIG Lead encourages and promotes the study of IS leadership. Accordingly, our group provides a forum for discussion, exchange, and dissemination of information relating to IS Leadership issues. We are particularly interested in research that focuses on:

- Issues faced by IT executives and practitioners when procuring, developing, delivering, and maintaining IT solutions
- The impact of both technical and non-technical executives on innovation and organizational performance
- Leadership strategies and challenges associated with initiatives involving cyber security, digital transformation, and adoption of new technologies
- Issues surrounding the IT workforce, career development/training and the IT profession
- The impact of artificial intelligence on the IT workforce demands, career development and professional retention.

Activities Include:

- Pre-ICIS Workshops
- Pre-AMCIS Workshops
- Pre-ECIS Workshops
- AMCIS Mini-tracks
- Special Issues for Journals

For more information, contact: Diana Young, dyoung1@trinity.edu

SIG ODIS

Artificial Intelligence and Semantic Technologies for Intelligent Information Systems

Investigate the challenges, opportunities, and solutions using Artificial Intelligence, computational ontologies, data-driven IS, and domain knowledge for intelligent systems.

An increasing number of artificial intelligence-based systems are being developed in different application domains, and this SIG fosters cross-fertilization of ideas from these areas, sharing lessons learned and stimulating areas for further research.

For more information:

Aurona Gerber, Vijayan Sugumaran and Sunet Eybers
auronagerber@sun.ac.za

Outstanding SIG Award: 2016, 2017, 2019, 2020, 2021, 2023

https://aisnet.org/members/member_engagement/groups.aspx?id=89776

SIG on Organizational Systems Research (OSRA)

SIG OSRA

promotes research and practical applications of digital technologies to streamline work processes, enhance employee performance, and improve overall organizational effectiveness, directly supporting strategic goals and initiatives.

Outstanding SIG Award: 2020 and 2021

For more information, contact:

Elaine Mosconi, elaine.mosconi@usherbrooke.ca

Activities Include:

- ICIS Panel
- AMCIS Mini-tracks
- Networking

Current Research Issues Include:

- Organizational transformation
- Digital technologies and AI integration in organizational settings
- Digital work and changes

AIS SIG PHIL | Philosophy in Information Systems

What is SIG PHIL?

Provide a focal point for the debate of philosophical issues in IS and strengthen the exchange of ideas and community ties with other disciplines, especially the human, cultural and social sciences

What does SIG AIAA do?

- Seek to improve research and the application of research results by drawing on philosophical literature
- Promotes and facilitates the creation, presentation, and publication of research of its members

For more information, contact:

- Nik Hassan, nhassan@d.umn.edu

Activities Include:

- SIGPHIL@ICIS Workshops
- AMCIS Mini-tracks
- Special Issues for Journals
- Theories and Products of Theorizing (T-PoT) Initiative

Current Research Issues Include:

- Native IS theories
- Philosophy of Technology
- Theories of Digital Transformation, information security and artificial intelligence

AIS SIG SAND | Special Interest Group on Systems Analysis & Design

What is SIG SAND?

The Special Interest Group on Systems Analysis & Design (SIG SAND) is a community that provides a common intellectual domain for researchers, practitioners, and educators in all matters related to systems analysis and design

What does SIG SAND do?

Develop and explore common topics and emerging themes, as well as curate journal articles and research presentations, related to systems analysis and design methods and applications

For more information, contact:

Jon W. Beard, jwbeard@iastate.edu

SIG SAND President

SAND Activities for AMCIS 2025 include:

- Pre-AMCIS Teaching Workshop
- Panel on 'Scaling Up Agile'
- AIS SIGSAND Outstanding Contribution Award (ASOCA)
- SIG SAND Mini-tracks
- Planning for future conferences

What is SIG SEC?

SIG SEC provides networking opportunities for people who conduct research, develop and/or teach about information security, assurance, digital forensics, privacy, and information system risk management and auditing.

For more information, contact:

Greg Bott, SIG SEC President – greg.bott@ua.edu

AIS SIG SI | Social Inclusion and Socio-Technical Issues

What is SIG SI?

SIGSI promotes research, pedagogy, and outreach on all aspects of social inclusion in the field of Information Systems (IS). The goal of such efforts is to stimulate greater diversity of thought and participation of all our members in a more socially-aware and inclusive discipline.

What does SIG SI do?

- Promotes and facilitates the global creation, presentation, and publication of research examining all facets of access to participation in the broader IS infrastructure in education and vocation.
- Works to integrate IS social inclusion research, teaching, and practice.

For more information, contact:

- Elizabeth White Baker, bakerew@vcu.edu
- Carmen Leong, carmen.leong@unsw.edu.au

Activities Include:

- Pre-ICIS Workshops
- AMCIS Mini-tracks & PDS
- Special Issues for Journals
- ECIS & PACIS mini-tracks

Current Research Issues Include:

- Neurodiversity in the IS Workforce
- Universal Design for Learning
- Digital Health Equity

SPECIAL INTEREST GROUP
SERVICES

AIS SIG SVC | SERVICES

What is SIG SERVICE?

Our mission is to bring together AIS members to **discuss, develop, and promote** topics related to:

- the **history, theories, and reference disciplines** of service science
- **methodologies, techniques, and practical applications**
- emerging technologies, such as AI, and the future of **services and digital transformation**

 **100+ active members** across all three AIS regions

 **Recognized as an Outstanding SIG** multiple years in a row

For more information, contact:

christian.bartelheimer@uni-goettingen.de

Activities Include:

- Pre-ICIS Workshops
- AMCIS Mini-tracks
- Special Issues for Journals
