Welcome Back Dinner
Innovation Award Updates

During the Fall 2011 Semester, Jon O’Toole received an Innovation Award to start a supplemental tutoring program called Math On Target Tutoring for MATH 1340. We are excited to announce that this program has had a very great success so far and that we will be expanding it to MATH 1350 effective Winter 2013. We are currently in the process of looking for grant funding to expand this program to even more classes and even more sections.

During the Fall 2012 Semester, Jon O’Toole received an Innovation Award to start a service learning project for the MATH 1280/1290 courses in which the students will volunteer to organize a Family Math & Game Night at a local elementary school. If you are teaching a Computer-Based Course or are interested in teaching one in the computer lab, U-423, please note that we are now using Content on Demand for all classes. And if you haven’t already taken the ANGEL Getting Started Course, please contact the Center for Teaching and Learning to get signed up.

PROF 9040: Free Technology Tools for Math
Course Code: 11694
Friday, January 25, 2013, 9am - Noon, South Campus G/107
In this workshop participants will learn about several free technology tools for math. Participants will have time to explore a repository of tools that relate to their specific interest. Productivity tools will be discussed as well and participants will be asked to share their favorite tools with everyone.

PROF 9041: Playing Games to Learn Math
Course Code: 11695
Friday, February 22, 2013, 9am - Noon, South Campus G/107
In this workshop participants will learn about a variety of paper-based and digital games that can be used in a variety of courses ranging from pre-algebra to calculus. Resources will be offered for where to find games and participants will walk away with several ideas that they can use immediately.

PROF 9042: Screencasting 101 for Math
Course Code: 11696
Friday, April 5, 2013, 9am - Noon, South Campus G/107
In this workshop participants will learn the basics about screen casting. Everything from the hardware and software requirements to tips and best practices for creating screencasts for math will be discussed. Participants will have an opportunity to ensure their own screencast to take home with them.

PROF 9043: Social Media in Math
Course Code: 11697
Friday, May 24, 2013, 9am - Noon, South Campus G/107
In this workshop participants will learn about a variety of social media tools, including Facebook and Twitter. If participants do not have an account, they will be asked to sign-up for free accounts during the workshop. Resources will be suggested for using the tools in the mathematics classroom.

Beginning Algebra Discussion Group
Free Math Help for students in Math 0050/0070 only

For the Winter 2013 Semester several math instructors are voluntarily holding some of their office hours in South Campus, G-228 for any students in MATH 0050 or MATH 0070 who would like some extra help.

When you come, please be prepared to sign-in and be ready and prepared to ask questions. We hope that you take advantage of this extra offering this semester!
