Traveling Workshops

Bringing Ideas to You

AMATYC Professional Development at Your Institution!

An **AMATYC Traveling Workshop (TW)** is professional development tailored for you, offered at your institution, and the Traveling Workshop Facilitator (presenter) is of your choosing.

Traveling Workshop Strands!

Traveling Workshop Strands (topic areas):

Developmental Mathematics	IMPACT	Inquiry Based Learning
Quantitative Reasoning/Literacy	Statistics	Teacher Preparation
Technology	Other as requested by YOU!	

Many Faculty can attend and low cost, too!

The **cost of a Traveling Workshop** is dependent on several factors including the length of the workshop, facilitator honorarium and travel costs, and other incidentals, such as copying or snacks.

A Traveling Workshop provides an AMATYC professional development presentation for **your faculty** with minimal costs.

The **Traveling Workshop Director (TWD)** is the originator for the TW, the initial contact person making the TW request.

Key People involved in a Traveling Workshop

The **Traveling Workshop Facilitator (TWF)** works with the TWD to plan the TW, travels and facilitates the TW at the requesting institution, other duties as needed or requested for the TW to be successful.

The **Traveling Workshop Coordinator (TWC)** communicates TW information, emails the requesting institution, emails potential facilitators, introduces the TWD to the TWF via email, other duties as needed to assist in planning an effective Traveling Workshop.
