5. New Webinar Topics

Rob asked that the group be prepared to suggest new webinar topics at our next meeting. It was suggested that a webinar focused on teaching students with disabilities could be helpful. Rebecca noted that the K-12 ASA Committee had sponsored a webinar on this topic. *Students with Disabilities: Instructional Support that Facilitates Learning*, was presented by Nari Carter and Heidi Abraham of Brigham Young University on

January 14, 2009. Rebecca sent a link to the K-12 webinar site so that the group could view the webinar before our next meeting. <http://www.amstat.org/asa/education/K-12-Statistics-Education-Webinars.aspx>
