

Fix for Safari/Mac Users Trying to Access the AOBTA® Website

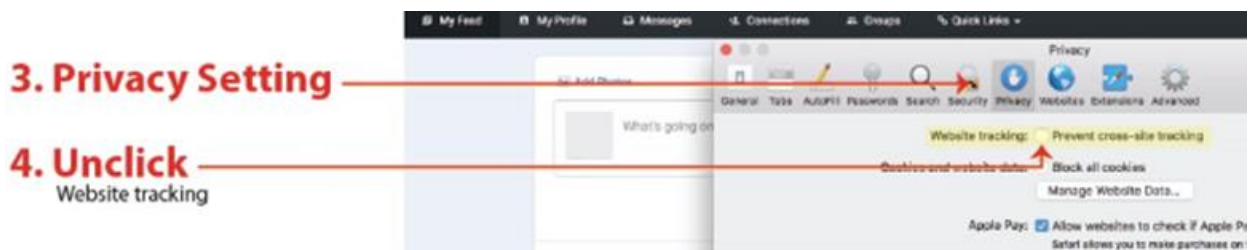

Many members that are using the Safari web browser on their Mac device to log in to their member account on the AOBTA® website are experiencing an issue where the website goes into a “constant reload” mode – which prevents them from accessing the site.

Until Apple and Safari remedies the issue, please follow the instructions below to allow the website to properly load.

1. Click on “Safari” in the upper left corner of your browser.
2. Select the “Preferences” option.

3. Select the “Privacy” tab.
4. Next to “Website Tracking”, un-check the box for the “Prevent cross-site tracking” feature.

Once these steps have been completed, the website should load correctly for you.
