

## RESIDENTIAL SHIATSU WORKSHOP RETREAT

# THE NATURE OF HEALING:

WHAT WE CAN DO WITH SHIATSU . . .  
AND OUR HANDS!

**MAY 17 – 20, 2019**

**SIENA RETREAT CENTER IN RACINE, WI**

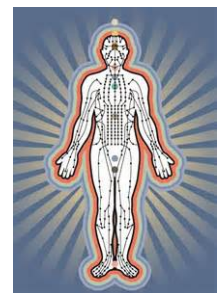

\$605.00 by 4/1 ~ \$650.00 by 4/17 ~ 697.00 after 4/17

The beautiful surroundings at Siena Retreat on Lake Michigan offer the perfect setting for cultivating an internal place of peace from which healing emerges. To foster this, as an integral part of this workshop, everyone walks the Labyrinth together before class. Then we delve into the material . . .

Dr. Shizuto Masunaga developed masterful theory and practice for treating the physical body to affect human Ki/Qi/energy levels through shiatsu. His successor, Akinobu Kishi, propelled this innovative work with his own transformational concepts and techniques to reawaken our natural cellular intelligence and to maintain harmony in the body/mind.

This workshop applies their breakthrough methods to develop our own inspired healing capacity. We will learn to transmit this capacity to our clients – through our hands – by applying the teachings of Master Masunaga and Shinmei Kishi. Topics to be covered:

- ☆ The Life Cycle of the Meridians
- ☆ Advanced pathogenic and antipathogenic treatment
- ☆ Phases of treatment within a session
- ☆ Hands as vibrational conduits for conveying cellular intelligence
- ☆ Adapting to the client
- ☆ MASUNAGA'S HAND-DRAWN HANDOUTS!
