

Megan Mitchell, PT, DPT

Candidate for Delegate

When I was a student physical therapist, I had the opportunity to be an usher for the House of Delegates. It was during those three days, not only watching the process, but also feeling the palpable energy in the room: the excitement and passion for our profession, that made me fall in love with the APTA. From there I ended up asking my professors if I could extend my trip and attend APTA NEXT. I applied, ran for, and ultimately lost the seat for APTASA Director of Membership but maintained my passion for our professional organization and upon graduation I found a home within the APTANJ Diversity Committee.

I lack experience when it comes to advocacy at a national level. However, as a Geriatric Resident I will be participating in the Federal Advocacy Forum. I am passionate about our profession. I believe strongly that what happens at HOD strongly impacts both our profession and our patients. I have been an APTA member since starting the profession as a student. I would love the opportunity to continue to grow within our profession and represent our voices as a collective. As a delegate, I understand the heavy responsibility that comes with being a conduit for all members. I promise to maintain an open line of communication with members and work closely with other delegates to ensure that our agenda and concerns are being addressed on the floor. Respectfully I ask for your vote for APTANJ Delegate.
