

Stephanie Wakeman, PT, DPT, MS

Candidate for Delegate

The role of a delegate in APTA is to review, understand and vote on policies, positions and by-laws of the association. As I wrap up my first term as Delegate and representative of my colleagues in the NJ chapter on important issues, I reflect back on what an important and instructive term this has been. During my first tenure, there have been many important positions the APTA has undertaken to lead our profession toward “transforming society by optimizing movement to improve the human experience.” Being a part of a voting body that has the influence to change how our profession is perceived by society at large is a privilege that I take seriously. As a long standing, active member of APTANJ, I am well positioned with leadership experience and familiarity with association vision and mission to serve this role well. If elected as Delegate, I will represent the NJ chapter with integrity and humility to best serve the interests of all stakeholders.
