GUEST SPEAKERS

Sue Glover, President of Susan Glover & Associates, brings over 30 years of operations and technology management experience to the RIA and wealth management community. As an independent consultant, without vendor allegiances, her focus is on the best structure and technology for her clients.

Mike Lipinski, Mike is a Principal in the Cybersecurity practice at Plante Moran. Mike has spent 29 years in information technology, 20 plus of those focused on information security and risk. Mike has hands on experience building, managing and maturing IT, information security, risk, governance, business continuity and privacy programs in his roles as CIO, CTO, and CISO. Mike has also worked with numerous clients across industries such as financial services, insurance, healthcare, pharma, automotive, manufacturing, government, aviation and energy to assess, design, build run and develop risk, IT governance, and information security programs. Mike is a frequent speaker at industry conferences and trade events and is published regularly in white papers, blogs, news and magazines.
