

AZ Water – Stormwater Committee Vision, Mission, and Strategic Plan

Vision

To provide a forum where stormwater professionals throughout Arizona share information addressing stormwater quantity and quality issues and advance the knowledge of the public and practitioners in the field.

Mission

- Promoting the sharing of resources and information
- Promoting continuous improvement to respond to the changing regulatory environment and needs of practitioners
- Continuing education of practitioners in the field
- Engaging future water practitioners
- Engaging regulators
- Promoting understanding of stormwater related issues and pollution prevention
- Promoting, preserving and advancing the value of stormwater as a resource

Strategic Plan

- Promote AZ Water membership
- Educate about the new stormwater committee
- Identify committee member needs/interests
- Actively participate/be visible (annual conference, luncheons, webinars, website etc.)
- Engage regulators
- Engage academia and young professionals
