ENERGY STAR Data Privacy and Security Policy

BOMA of Greater Phoenix maintains strict confidentiality and security of records of reported ENERGY STAR performance rating data. ENERGY STAR data is reported solely for the purpose of award qualifications and judging for BOMA’s Kilowatt Krackdown and Stop Drops programs and not for any other purpose. Reported data is never released to a third-party and data is securely maintained through a password protected database operated by BOMA’s Green Buildings Committee.

A company or facility may be recognized as a program participant in promotional materials; however, no details other than the facility name or address will be released. If you chose to opt out of any recognition, or you have any questions regarding the data collection process, please notify BOMA of Greater Phoenix in written form to Sarah Osteen (sarah@bomaphoenix.net).
