either a hacked APK or hacked iOS game app to be able to implement cheats into the game itself or one

Assist, auto Ability, Auto Special and more. What cheats are possible really depends on which server checks
and what client-side processing is

Avakin Life technically comes shipped with an auto aim button that you
need to use in most single match, the 'aimbot'the game provides really
only works in short-range situations or if you're using AoE attacks,
shotguns or come in very short range encounters. Playing at higher
Trophy levels in Avakin Life will demand manual aiming, prediction and
careful calculation of bullet travel time, range, target trajectory and
cover to be able to maximize damage. This is exactly what a Avakin Life
Aimbot can do for you. It can not only aim accurately, but to track
targets, calculate the way an opponent is moving, your bullet speed and travel time to be able to hit as much
shots as possible. Needless to say
it is impossible to predict all movement at all times, as it is
determined by players, but AI can make very educated guesses concerning
in which a target will be. Aimbots are usually most effective on trower
brawlers or long range brawlers, such as Colt, Bo, Barley, Ricochet, Dynamike ect. The aimbot is one of the
most powerful hacks available for
download on any mobile shooter and multiplayer action game and that included Avakin Life as
well. This kind of cheat will help you farm
coins, brawlers and
free Coins Gems more efficiently and raise through the trophy road
quickly.
