

Marc Fennell, IAAI-CFI
Regional Fire O&C Practice Manager

Mr. Fennell serves as a Regional Fire O&C Practice Manager, who is an experienced criminal defense expert with a demonstrated history of working in the fire protection, insurance and fire and explosion forensics industry. He has conducted investigations for criminal defense, appellate attorneys, and public defender entities to determine the origin and cause of fire and explosion incidents and other assigned investigative activities. Mr. Fennell has directed technical reviews on forensic investigation projects, collaborated with attorneys, investigators, vendors and clients to assure the best results possible throughout the investigation and litigation process.

Mr. Fennell is a Certified Fire Investigator (IAAI-CFI) with the International Association of Arson Investigators and is a Licensed Private Investigator. He has an undergraduate degree in Fire Science and a graduate degree from Columbia Southern University. Mr. Fennell has testified and been qualified as an expert witness in court proceedings and depositions involving forensic investigations on multiple occasions. He also participates in pro-bono criminal cases for those who have been wrongly convicted of arson related crimes.

Mr. Fennell has served as a manager in the fire investigation industry and was responsible for the project management, claim management, training, recruiting, and daily operations of a multi-state fire and engineering firm. Responsibilities include technical management of all regional and national investigations, technical consultation with staff in the field, providing technical guidance and assistance on large fire and explosion losses, and assisting staff with the identification of subrogation and recovery potential on fire and explosion incidents. He also spoken to a group of International Criminal Defense Lawyer Associations, State Criminal Defense Associations and the National Association for Public Defenders about strategies for an arson trial, preparing for a Daubert Hearing and litigation involving arson cases.

Professional Experience

J.S. Held | Regional Practice Manager | 2019-Present

Fire and explosion evaluations in commercial, residential, industrial facilities and heavy equipment. Investigates fires involving farm equipment, vehicles, industrial equipment, laundry appliances, fireplaces and chimney appliances, mechanical equipment and electrical devices. Assesses potential liability and subrogation issues. Collects, documents, and preserves evidence to ensure the chain of custody. Conducts interviews with witnesses, responding firefighters, state and local fire marshal agencies, and other pertinent third-party individuals and organizations. Provides expert technical and scientific support to claims personnel for litigation purposes. Conducts code compliance research to evaluate potential electrical, gas, and installation code violations. Assists personnel with product design failure analysis to determine if the product was the cause or contributing factor in a loss.

Viking Corporation | Claims Manager | 2017-2019

Fire protection product liability evaluations in commercial, residential and industrial facilities. Investigates product liability activations for causation and failure analysis. Manage the entire life cycle of the claim. Responsible for approving the settlement of the claim. Assesses potential liability and subrogation issues. Collects, documents, and preserves evidence to ensure the chain of custody. Conducts interviews with

witnesses, responding firefighters, state and local fire marshal agencies, and other pertinent third-party individuals and organizations. Provides expert technical and scientific support to clients for litigation purposes.

Allianz Insurance | SIU Specialist | 2016-2017

Fire and explosion evaluations in commercial, residential, industrial facilities and heavy equipment. Investigates fires involving farm equipment, appliances, mechanical equipment and electrical devices. Assesses potential liability and subrogation issues. Collects, documents, and preserves evidence to ensure the chain of custody. Conducts interviews with witnesses, responding firefighters, state and local fire marshal agencies, and other pertinent third-party individuals and organizations. Provides expert technical and scientific support to claims personnel for litigation purposes. Conducts code compliance research to evaluate potential electrical, gas, and installation code violations. Assists personnel with product design failure analysis to determine if the product was the cause or contributing factor in a loss.

Rimkus Consulting Group | Fire Consultant | 2014-2016

Fire and explosion evaluations in commercial, residential, industrial facilities, automobiles and heavy equipment. Investigates fires involving fireplaces/chimneys, appliances and electrical devices. Assesses potential liability and subrogation issues. Collects, documents, and preserves evidence to ensure the chain of custody. Conducts interviews with witnesses, responding firefighters, state and local fire marshal agencies, and other pertinent third-party individuals and organizations. Prepares detailed, written investigative reports pertaining to the origin and cause and investigative activities of the fire and explosion incidents. Provides expert technical and scientific support to clients for litigation purposes. Conducts code compliance research to evaluate potential electrical, gas, and installation code violations. Assists personnel with product design failure analysis to determine if the product was the cause or contributing factor in a loss.

Unified Investigations and Science | Field Supervisor | 2010-2014

Fire and explosion evaluations in commercial, residential, industrial facilities, automobiles, heavy equipment, and marine conveyances. Investigates fires involving appliances and electrical devices. Assesses potential liability and subrogation issues. Collects, documents, and preserves evidence to ensure the chain of custody. Conducts interviews with witnesses, responding firefighters, state and local fire marshal agencies, and other pertinent third-party individuals and organizations. Prepares detailed, written investigative reports pertaining to the origin and cause and investigative activities of the fire and explosion incidents. Provides expert technical and scientific support to clients for litigation purposes. Conducts code compliance research to evaluate potential electrical, gas, and installation code violations. Assists personnel with product design failure analysis to determine if the product was the cause or contributing factor in a loss. Provides technical supervision and assistance to investigators based in the Midwest region. Responsible for the recruitment and retention of forensic investigators and engineers within region.

Ken Shelley Associates | Fire Investigator | 2008-2010

Conduct fire, arson, and explosive investigations including residential, commercial, and vehicular losses for clients. Collect and preserve evidence ensuring a precise chain of custody. Conduct interviews with property owners, witnesses, investigators, and pertinent third-party organizations. Photograph scenes and prepare detailed written investigative reports as to the conclusions and opinions of the subject loss. Testify in related depositions and trials.

Grand Rapids Charter Township Fire Department | Sergeant-Fire Marshal | 2002-2008

Respond to emergencies and request for service throughout jurisdiction. Conducted fire inspections throughout businesses within response area and obtain compliance with various NFPA Codes. Conducted structural training fires for firefighters and fire investigators. Conducted fire investigations to determine origin

and cause. Worked within a county task force framework to network and build criminal cases. Prepared and presented department-wide training in several subject areas. Conducted fire and life safety inspections.

Plainfield Township Fire Department | Part-time Firefighter | 2004-2008

Response to fire and medical scenes with fire apparatus, use of extrication tools, operation of fire suppression equipment, report writing, assist with public education activities and additional assignments per the public safety officer request. Assist with fire investigations-origin and cause, interviews, scene documentation. Attend weekly training sessions.

Ada Township Fire Department | Paid on call Firefighter | 1999-2004

Response to fire and medical scenes with fire apparatus, use of extrication tools, operation of fire suppression equipment, report writing, assist with public education activities and additional assignments per the public safety officer request. Assist with fire investigations-origin and cause, interviews, scene documentation. Attend weekly training sessions.

Ionia Public Safety Department | Paid on call Firefighter | 1994-1999

Response to fire and medical scenes with fire apparatus, use of extrication tools, operation of fire suppression equipment, report writing, assist with public education activities and additional assignments per the public safety officer request. Assist with fire investigations-origin and cause, interviews, scene documentation. Attend weekly training sessions.
