

CALCIMA

California Construction And Industrial Materials Association

CALCIMA MEMBERSHIP APPLICATION

Your membership matters

APPLICATION FOR MEMBERSHIP

Membership Agreement

Thank you for your interest in joining the California Construction and Industrial Materials Association (CalCIMA). CalCIMA represents California's critical infrastructure materials and essential minerals producers. Our classes of membership include: aggregate, asphalt, pre-cast, ready mixed concrete, essential minerals, associate members who provide goods and services to the industry, and a climate technology category for companies providing low carbon technologies and products.

Your membership connects you with top industry professionals where mutual goals and shared ideas live. As such, you get out of an association what you put into it. Your engagement in events and participation in committees will help foster relationships with other like-minded professionals with common goals. CalCIMA members have access to our Buyers' Guide, Weekly Update newsletter, *Conveyor Magazine*, and opportunities to speak at our events.

Please complete the contents of this form and send with payment to CalCIMA. Upon acceptance, your membership will be provisional until it is approved by the CalCIMA Board of Directors.

By joining CalCIMA, you hereby agree to abide by the following policies and procedures set forth in the materials provided:

CalCIMA Dues Policy

Our full dues policy can be found on page 13. Dues rates are updated on an annual basis.

calcima.org/resource/resmgr/membership/duespolicyrates.pdf

Anti-Trust Statement (Page 16)

Code of Conduct (Page 17)

Email Opt-In

As a member of CalCIMA, including committee members, you agree to accept emails from CalCIMA, which will come in different forms, all of which are managed by CalCIMA. Other CalCIMA members will have access to your contact information through our buyers' guide, however we do not sell or distribute our data. You can read our privacy policy at <https://www.calcima.org/privacy>

*If the calculated amount due is less than the minimum due, the minimum due applies.	Total Dues Owed	
	Aggregate Subtotal	\$
	Ready Mix Subtotal	\$
	Asphalt Subtotal	\$
	Grand Total	\$

Essential Materials Dues Policy: Essential Materials members shall pay their dues based on man hours for all California operations. For Essential Materials members who do not report to MSHA, such as precast producers or contractors, please use man hours for all California operations as reported on OSHA Recordkeeping forms. **DO NOT REPORT FOR BOTH.**

If man hours are less than minimum dues amount, pay \$5580.

MSHA Hours: Report actual man hours as reported to MSHA using Form 7000-2 for the period of 1/1/2025 through 12/31/2025. This shall include activity on all mining operation work relative to the extraction and production of industrial minerals for all properties in California. These hours include, but not limited to:

- Mining operators and all work associated with shops and yards
- Milling and production operators, including those working in associated shops and yards.
- Office personnel who work principally at the mine or preparation facility office

OSHA Hours: Report man hours as reported for the period of 1/1/2025 through 12/31/2025 for all operations in California:

- Administrative office support staff (sales, accounting, etc),
- Offsite materials production and manufacturing facilities
- Maintenance
- Plant operators

Current Rate
.0934

DUES RATES

Climate Technology Designation (Climate Tech) is a new membership category to recognize and celebrate companies pioneering low-carbon technologies and products. Such innovations will continue to sustainability reduce carbon emissions in manufacturing essential building materials.

This new member category is for associate members whose products and/or services provide emerging technology alternatives or additives to raw materials resulting in carbon reduction in our manufactured products such as concrete or asphalt.

Producer and Essential Materials Members who qualify for this category may apply for a Climate Tech designation. Dues rates will be based on the published pricing based on your member class which is calculated on production.

STANDING COMMITTEES

<input type="checkbox"/>	Education, Events and Membership Services Committee: Develops programs to recruit and retain members, assist with meetings, conferences, seminars, workshops, and other special events that advance the business and educational goals of CalCIMA.	<input type="checkbox"/>	Legal Action Committee: Responsible for advising the Board on legal actions that need to be taken in response to measures taken by the courts or governing bodies at the local, state, and federal levels. This includes any and all Association involvement in industry litigation.
<input type="checkbox"/>	Concrete & Aggregate Technical Committee: Responsible for promoting and advocating for best industry practices, technical innovation and specifications. Works with Caltrans Rock Products Committee and other related industry coalitions.	<input type="checkbox"/>	Public Education & Outreach: Responsible for developing programs to enhance the public relations opportunities for our industry to educate the general public and local and state policy makers.
<input type="checkbox"/>	Environmental & Natural Resources Committee: Involved with state legislation, regulation, and administrative actions relative to environmental issues, such as air quality, water quality and land-use policy. Works with Governmental Affairs Committee on legislative initiatives.	<input type="checkbox"/>	Safety and Health Committee: Review of policy relative to safety practices and regulatory developments at both the state and federal level. Tracks and monitors enforcement trends, and develops best practices, guidance and education.
<input type="checkbox"/>	Fleet & Equipment Committee: Responsible for reviewing regulatory and legislative issues concerning industry transportation, fleet and maintenance policy and issues. (Formerly referred to as the Transportation Committee).	<input type="checkbox"/>	Women of CalCIMA: A committee which brings the women of CalCIMA together to provide professional development and, facilitate discussions about the tools that will support women in the industry. This group also supports the Women of Asphalt CA-CalCIMA branch.
<input type="checkbox"/>	Governmental & Legislative Affairs Committee: Responsible for advancing CalCIMA's strategic interest through state and federal legislation, regulation, and/or administrative action. Activities are reviewing and initiating legislation, monitoring administrative and regulatory initiatives, and directing the advocacy staff and consultants.		

MATERIALS STEERING COMMITTEES

<input type="checkbox"/>	Asphalt Steering Committee: Works to support and advance the asphalt pavement industry through education, advocacy, and promotion including strategic initiatives and technical support.	<input type="checkbox"/>	Ready-Mix Concrete Steering Committee: Works to support and advance the concrete industry through education, advocacy, and promotion including strategic initiatives and technical support.

Adopted December 2024

As stated in the CalCIMA Restated Bylaws adopted by the Board of Directors on October 8, 2012, and amended on December 8, 2020, under Section 2.4. Membership Fee, each member shall pay a membership fee, periodic dues, or assessments in such amounts and at such times as shall be determined by the Board in accordance with the following requirements:

- (a) CalCIMA will assess and collect dues on all material produced, sold, imported or consumed. Specific dues schedules, as adopted in December 2021, and any amendments thereto, shall be reflected in the Annual Dues Invoice forms to be circulated annually.
- (b) Dues shall be assessed as follows for each membership type and class:
 - (i) Construction Materials Producer Members: Dues shall be based on the (i) tonnage of Crushed Rock Products, and/or (ii) yards of ready-mixed concrete, and/or (iii) tonnage of asphalt that each Producer Member has produced, sold and/or transferred, imported or consumed, during the previous calendar year, or most recent 12-month period. Dues shall be calculated based on a fee schedule set by the Board based on per-ton or per-yard fees, and reflected in the Annual Dues Invoice. For purposes of this Section 2.4(b)(i):
 - (1) "Crushed Rock Product" is defined to include, without limitation, Crushed Rock, Gravel, Sand, Limestone used in cement and/or otherwise for construction purposes, Rip Rap, Light Rip Rap, Backing Stone, Ballast, Aggregate Base, Mineral Aggregates - Specification Aggregates, Manufactured Sand, Concrete Aggregates, Recycle Base Rock, imported and/or recycled and processed material (as defined below) such as Broken Concrete, Broken Asphalt, and Asphalt Grindings, or any other rock product that the Member crushes, sizes, washes, and/or screens to meet a specification. "Produced" is defined to include all material processed (including being crushed, screened, sized, washed, etc.) to create a Crushed Rock Product. As an example, Reclaimed or Broken Concrete shall constitute inventory and not be considered "produced" until such material is re-processed and ticketed again.
 - (2) "Sold" is defined, without limitation, to include sales to a customer, and transfers within a company whereby any Crushed Rock Product is transferred by a company from one location owned by the company to another location owned by the same company.
 - (3) "Imported" is defined to include material that is imported or brought onto a Member's site for processing into a Crushed Rock Product, and for sale or resale to a customer (or transfer within the company). This includes "recycled" material, defined herein as material brought onto a site and re-processed (including being broken, removed or separated, crushed, screened, sized, etc.) to create a Crushed Rock Product. Imported material shall not be subject to dues until processed or re-processed and ticketed. Imported reclaimed asphalt pavement ("RAP") or reprocess concrete rubble from demolition ("RCA") re-processed as aggregate for use in the manufacture of asphalt and/or concrete, shall be subject to dues for the re-processed aggregate only. For Crushed Rock Producer Members, this includes, without limitation, Broken Concrete, Broken Asphalt, asphalt grindings, imported sand (including for use in asphalt), etc. For Ready Mix Concrete Producer Members, this includes, without limitation, "come back mud" defined as excess material brought back brought back into the yard, crushed and re-used.
 - (4) "Consumed" is defined to include any product brought onto a site to be incorporated into a finished product, and that does not get "processed" by the Producer. This would include, without limitation, bay sand/sand, asphalt oil, asphalt emulsion, cement, fly ash, and light weight aggregate. Such material shall not be considered "Produced" until re-processed and ticketed.

Membership Types are defined as:

1. **Producer Members:** Producer Members shall have voting rights including the right to vote for the election of a director or directors, or on disposition of all or substantially all of the assets of the corporation, or on a merger or a dissolution;
2. **Associate Members:** Associate Members shall have voice but no vote, except as provided from time to time by resolution of the Board. However, the Board may not give Associate Members the right to vote for the election of a director or directors, or on disposition of all or substantially all of the assets of the corporation, or on a merger or a dissolution and Associate Members shall not qualify as Producer Members.

Membership Classes are defined as:

1. **Aggregates Producer:** Aggregates Producer Members of the Association shall be those persons, firms, or entities which mine and process crushed stone and construction sand and gravel. Each person, firm or entity which satisfies this requirement shall be entitled to one Aggregates Producer membership.
2. **Ready Mixed Concrete Producer:** Ready Mixed Concrete Producer Members of the Association shall be those persons, firms, or entities which possess all necessary governmental permits to sell ready mixed concrete products in the State of California. Each person, firm or entity which satisfies this requirement shall be entitled to one Ready Mixed Concrete Producer membership.
3. **Asphalt Producer:** Asphalt Producer Members of the Association shall be those persons, firms, or entities which possess all necessary governmental permits to sell asphalt products including liquid asphalt in the State of California. Each person, firm or entity which satisfies this requirement shall be entitled to one Asphalt Producer membership.
4. **Precast Manufacturer:** Precast Manufacturer Members of the Association shall be those persons, firms, or entities which possess all necessary governmental permits to manufacture and sell precast products in the State of California. Each person, firm or entity which satisfies this requirement shall be entitled to one Precast Manufacturer membership.
5. **Essential Materials Producer:** Essential Materials Producer (formerly Industrial Materials) Members of the Association shall be those persons, firms, or entities who own or operate mineral properties, and associated mining and mineral processing facilities and equipment operating in the State of California. Each person, firm or entity which satisfies this requirement shall be entitled to one Essential Materials Producer membership.
6. **Direct Goods and Services Provider:** Direct Goods Provider Members and Direct Services Provider Members of the Association shall be those persons, firms, or entities which supply goods or services, respectively, to any of the industries identified in sections (b) (1) through (b) (3) above in the State of California (referred to collectively as the "Direct Goods and Services Provider Members" class). Each person, firm or entity which satisfies this requirement shall be entitled to one Direct Goods and Services Provider membership. Direct Goods and Services Provider Members are Associate Members.

New Member Category/Designation

1. **Climate Tech Category (Associate Members):** Direct Goods and Services Providers whereas their products and/or services provide emerging technology alternatives or additives to raw materials resulting in carbon reduction in our manufactured products such as concrete and asphalt. Dues are a flat rate of *\$2500 and is only available for those who qualify for associate membership. (*Rate subject to change)
2. **Climate Tech Designation (Producer/Essential Materials Members):** Current Producer (aggregate/asphalt/concrete) and Essential Materials Members engaged in the production of low carbon materials may apply for this designation. Dues are based on the respective schedule for their respective classifications.

For any questions regarding membership classes and dues assessments, please contact Stephanie Pridmore at (916) 554-1000.

DUES POLICY

DUES POLICY & CURRENT DUES RATES

calcima.org/resource/resmgr/membership/duespolicyrates.pdf

It shall be the policy of the CalCIMA to be in strict compliance to all Federal and State Antitrust Rules and Regulations, therefore:

BE IT RESOLVED, that the following are adopted as the CalCIMA Antitrust Compliance Policies and Procedures:

1. These policies and procedures apply to all membership, board, committee and other meetings sponsored by the Association, all meetings attended by representatives of the Association and to the Association's employees in all of their activities within the scope of their employment.
2. All meetings of the Association whether membership, board, committee or any other type of meeting sponsored by the Association, shall be conducted as though they were open to the public.
3. Discussions of prices or price levels is prohibited. In addition, no discussion is permitted of any elements of a company's operations which might influence price such as (a) company costs of operations, supplies, labor or services, (b) allowances for discounts, (c) terms of sale including credit arrangements, and (d) profit margins and mark ups; provided this limitation shall not extend to discussions of methods of operation, maintenance, and similar matters in which cost of efficiency is merely incidental.
4. It is a violation of the antitrust laws to agree not to compete; therefore, discussions of division of territories or customers or limitations on the nature of business carried on or products sold are not permitted.
5. Boycotts in any form are unlawful. Discussion relating to boycotts is prohibited, including discussions about blacklisting or unfavorable reports about particular companies including their financial situation.
6. It is the Association's policy that all meetings attended by representatives of the Association where discussion can border on an area of antitrust sensitivity, that the Association's representative request that the discussion be stopped and ask that the request be made a part of the minutes of the meeting being attended. If others continue such discussion, the Association's representative should excuse himself from the meeting and request that the minutes show that he left the meeting at that point and why he left. Any such instances should be reported immediately to the Executive Director of the Association and through him to legal counsel so that the matter can be reviewed and a determination be made as to the necessity of further action by the Association.
7. It is the Association's policy that a copy of these Antitrust Compliance Policies and Procedures be given to each director, committee member, official representative of member companies and Association employees annually and that the same be read as the first order of business at all meetings of the membership of the Association.
8. A prepared Agenda will be written and followed at all meetings. Particular attention will be paid to avoiding discussions at outlines in Paragraph 3 heretofore.
9. Formal minutes of all meetings will be written and filed.

Code of Conduct

The California Construction and Industrial Materials Association ("CalCIMA" or "Association") is the preeminent statewide association for producers of construction aggregate materials, essential (industrial) minerals, ready mixed concrete, and asphalt ("Industry"). CalCIMA's members recognize that they share a common goal and are committed to safety, diversity, social responsibility and observing and promoting the highest standards of conduct. These principles are not intended to supply specific guidance for every business activity, but rather to provide guidelines for the continuing policies of the Association on ethical business behavior. Where the Code of Conduct is specific, it should be followed to the letter. If certain situations are not expressly covered, members are expected to consider the spirit of this Code of Conduct in determining the most appropriate course of action. CalCIMA takes violations of the CalCIMA Code of Conduct very seriously.

Accordingly, CalCIMA and its members shall:

- Promote open competition and comply with antitrust and competition laws and shall not discuss restraint(s) on trade agreements, prices, pricing policies, terms and conditions of purchase or sale, costs, future company plans, boycotting of customers or products, or any other topics that might be considered anti-competitive behavior.
2. Respect and uphold local, state, national, and international laws.
3. Share the common goal of advancing Industry.
4. Maintain a professional level of courtesy, respect and objectivity in all matters and activities associated with the Association.
5. Exercise reasonable care, good faith and due diligence in Association affairs.
6. Respect diversity of opinions and the integrity and ability of others.
7. Adhere to the highest standards of ethical conduct, assist others in maintaining those practices, and appropriately balance the interests of the Association, individual members, classes of members, the public, clients, employees, subcontractors, regulatory and governmental bodies, and the Industry. Furthermore, CalCIMA and its members will not use the Association as a forum or vehicle to advocate for policies or processes to materially advantage, disadvantage, or affect any individual member's, class of members', or Industry sector's ability to conduct business in an honest and competitive manner.
8. Engage in conduct and practices that are likely to enhance the reputation of the Association, its membership, and the Industry.
9. Uphold professional legally appropriate business relationships with Association staff and promote a positive and collegial atmosphere free from harassment and other unacceptable behaviors.
10. Truthfully, accurately, and completely disclose all pertinent facts when dealing with the Association, its membership, the public, clients, vendors, subcontractors, regulatory and governmental bodies, or any other affected party.
11. Conduct business with integrity and professional judgment, including avoiding or disclosing any conflict of interest.
12. Act in a manner free of discrimination.
13. Constructively participate in civic affairs affecting or affected by Industry, including sharing knowledge and skills and working for the advancement of the Industry.
14. Deal fairly with other members and their respective employees, subcontractors, and suppliers.
15. Provide informed and vigorous support for all sound legislative proposals affecting Industry.
16. Not support any legislative proposal that materially impairs the Industry.
