

Infant CPR Anytime®

The AHA's Infant CPR Anytime personal learning program offers an easy and effective training tool for new parents, grandparents, babysitters, and anyone caring for an infant. It teaches the core skills of infant CPR and choking relief in about 20 minutes by using a personal kit. The kit contains everything needed to learn basic CPR and choking relief anywhere, from the comfort of home to a large community setting.

Content & Materials

- Co-branded with the American Academy of Pediatrics
- Emphasis on CPR with breaths for infants
- Instruction on choking relief for infants
- Bilingual (English and Spanish) instructions, materials, and video that help deliver training to more people
- Personal, inflatable Mini Baby® CPR manikin that clicks when you've pushed hard enough
- CPR skills practice DVD that can be used to refresh skills and train others
- Skills reminder card to carry with you and review as needed
- Manikin wipes and replacement lung for those interested in sharing the kit

\$38.50
