

CHEMICAL COATERS ASSOCIATION INTERNATIONAL

Scholarships

This year, CCAI awarded \$19,500 in national scholarships while CCAI Chapters awarded close to another \$30,000 collectively to 33 deserving and talented students. “CCAI is dedicated to supporting the next generation of potential industrial finishing employees through our growing scholarship programs,” states CCAI’s Executive Director, Anne Goyer. “Both our National office and our chapters continue to distribute scholarships to deserving students who are working towards careers in our industry. The amount of both scholarship dollars and number of students we are assisting increases each year. We plan to expand our scholarship program and follow our students as they embark on their careers.”

- optimize the treatment of each part?
- fit in tight spaces?
- know process status and data?
- expand and change over time?

**You need the most flexible
finishing system in the industry!**
