

## Patricia Williams

Patricia was employed with the Grossmont Union High School District in San Diego County for 27 years. After 7 years in progressively responsible positions, she was promoted to Principals' Secretary at the district's newest high school; and, after 2 years promoted to Confidential Executive Secretary for the remaining 19 years of her service in the departments of Information & Technology Services, Educational Services, and ultimately, Human Resources.

Patricia enjoyed her volunteer work with CETPA for 9-plus years taking actual vacation time from work to be able to participate with the many members of the Board, general members and vendors over those years. The comradery, educational mission and progression of technology, not only in education but in the CETPA organization, was rewarding and very enjoyable for her.

*Editor's Note: Patricia was for many years, CEDPA/CETPA's photographer. She took most of the pictures being displayed in other's profiles. She, along with Sherilyn Sexsmith, were also instrumental in helping Jane and Judy behind the registration desk to make sure all attendees had a positive experience. We thank her for her service to us!*
