

## Phil Kauble

Phil Kauble was introduced to CEDPA in 1982 when he was hired as the Director of Student Support Services at the Los Angeles County Office of Education. He was charged with coordinating data processing services with contracted school districts using the student systems. He was the liaison between the Regional Center and the districts.

The first conference he attended was in San Diego at the Hotel Del Coronado in 1982. Since then, he's attended, participated as a speaker, and had experts on his staff make presentations on student accounting.

After he and Jane got married, in addition to the above, he was instrumental in transporting registration materials to/from conferences and providing photography services. There were times when he would take a couple of the Board member wives to the practice range to help work on their golf game in preparation for the annual golf tournaments.
