

Steve Carr

As I have said many times, the years I have spent on the CETPA Board helped define my career and professional life. I have greatly benefitted from the participation and friendships developed over the years I was associated with CETPA. The work we did on the CTO Mentor Program, the Student Privacy initiative, affiliations with national associations such as A4L, CoSN, CUE, ISTE mutually benefitted California and these other groups. Our partnerships with F3 and CAG added credibility and gravitas to our organization. The corporate affiliations with software developers, hardware and infrastructure companies along with service providers have been mutually reciprocal.

I have been retired since July of 2017 and am loving every minute of this time. Spending time with my wife, my three sons, my Dad and my nine siblings and our dog, Kai have been a great gift.

I continue to feed my soul with lots of great audio books and taking classes in Ojai on Greek Philosophy and American History. I have been getting involved in plenty of local community events and initiatives. I am still riding my bike, surfing and hiking.

Biography:

Retired-CTO Ventura County Office of Education

CETPA Board Member 2005-2017

Two Terms as President

CETPA Member 1998
