Re: Health & Safety Message from CITE

Dear CITE Members:

As of today, the COVID-19 (Corona Virus) is officially a pandemic as defined by the World Health Organization - <https://www.who.int/>. It is important to follow the gathering guidelines of your local municipalities and the overall health guidelines provided by these organizations.

We are recommending that all regional group meetings and any other member meetings be rescheduled, cancelled, or held virtually for the foreseeable future.

At this time, CITE is proceeding with plans for our December 2-5, 2020 Annual Conference in Santa Clara. We are optimistic that the situation will be under control in enough time for our plans to go on unaffected.

The health and safety of CITE members – and the people around them is always our priority. As many of the Spring professional development events and meetings are cancelled and travel restrictions becoming broader, we will be working with our partner organizations to help ensure that learning continues virtually whenever possible.

We will continue to monitor the situation closely and keep the membership updated on any changes in our plans. Messages on your online community continue to be a great resource for up to date information.

Thank you for your continued support of CITE and on behalf of the CITE Board of Directors and staff, stay well.

Sincerely,

Andrea F. Bennett
CITE Executive Director
