Explanation of Benefits

Annual Conference Benefits for CAP Members

CITE's Annual conference is held in the Fall, usually November. It is the only conference in California that specifically targets the IT Professionals working in schools. Attendees are Chief Technology Officers and Directors, Network Managers and Engineers, Technicians, Data Base Administrators, Data Coordinators, Instructional Technologists, and others. They are the decision makers and influential staff for the use of technology in their organizations. This year's attendance is expected to be close to 900 attendees.

The Exhibit show is unique to other trade shows in that all other conference activity ceases during show hours, giving you access to a high percentage of the attendee population throughout the day. Lunch is included so there is no need for attendees or exhibitors to leave the hall.
