NEW SCHOOL NEWS October 2017

Note from the New Schools Team

The decision to start a charter public school is a monumental one and indicates a commitment to taking the time necessary to research, build support, assemble a team and ultimately design a school that meets a need in your community. When asked what the most critical element is in developing a successful school, we have learned that it always comes back to TIME!

It typically takes 18 months to 3 years to bring a school from theory to reality. The first phase alone, if done well, is very time consuming as you research charter school law and best practice, visit other schools, learn about the state accountability system, garner support in the community and build a team with a diverse set of skills. To learn more about the many steps involved in charter school development, please visit the [Start a Charter Colorado Flowchart](#) and gain quick access to many of the resources necessary to start a school.

No matter what phase of development you are in, this monthly newsletter will offer you *critical resources*, *helpful tips* and information about important *events and trainings* so that your school can possess a solid foundation with a high likelihood of success.

If you haven't come in for a face to face meeting yet, please schedule that with us at your convenience.

Tips and Resources for Schools in the Planning Stage

Mark your calendar!

October 18 at 11:59 PM is the SUBMISSION DEADLINE for the Colorado Charter School Program (CCSP) Grant Application. Incomplete or late applications will not be considered. [Click here](#) for the new RFP and all related 2017-18 CCSP documents. Contact the Schools of Choice office at CDE for more information by [clicking here](#).

Research, Research, Research!

Research at this stage requires that a team be methodical and strategic and includes [reading](#) and familiarizing yourselves with Colorado charter school law, the state accountability system, attending [trainings](#) and viewing [webinars](#) related to charter school development or your specific school model. It is also important to understand what the other schools in your targeted area offer, how they are performing and whether there are waitlists and overcrowding or schools struggling to fill their seats. In addition, a part of your research at this stage should entail [visiting and networking with other charter schools](#). You can call the League for a list of recommended, like-modeled schools to visit.

Application Review

If you are planning on submitting a charter school application to your authorizer in the spring of 2018 *now is the time to schedule your application review*. The League's comprehensive two-part application review takes approximately eight weeks to complete and provides planning teams with verbal and written feedback in areas where the application requires further development. If interested in scheduling a review, please contact [Kathy Zlomke](#) at your earliest convenience.

Planning Grants Update

The League is pleased to announce that the New School Development (NSD) department has recently received a new grant from the Anschutz Foundation! These grants help to fund the technical assistance and support that the NSD provides new school developers across the state as well as to provide pass-through grants through our planning grant program. Please visit the [League's website](#) for more information and always be sure to email [Lori Ventimiglia](#) before writing a grant application to determine eligibility.

Tips and Resources for Schools in the Startup and

Implementation Stages

If you haven't already obtained [legal counsel](#), it will be important upon application approval to do so. Contract negotiations with the authorizer as well as entering into significant contracts for facilities and equipment are best overseen by an experienced attorney. Contact the League for a list of counsel who have years of experience serving Colorado charter schools. Always be sure to properly vet your consultants and lawyers and check their references to ensure that your choice is a good fit for your school.

Customized Governing Board Training

In the startup stage? Now is a good time to work with the League to schedule your first customized board training.

Effective governance is a critical component to a high-quality charter school. It is best practice for charter school boards to engage in professional growth opportunities and focus on continuous improvement as a board and a school.

We encourage you to reach out to the League to schedule a Best Practices in Charter School Governance training. This is typically a four-hour customized training based on a pre-survey and consultation, although, full-day trainings are also available. The training will be held at your school or a location of your choice and will be led by an experienced trainer who will guide you through your roles, responsibilities and other customized topics. The cost for this training is \$700 for a 4-hour training or \$1,100 for a full-day training. **Stage 6 planning grants can be used for this training.** Please contact Lori Ventimiglia at lventimiglia@coloradoleague.org for eligibility and more information. Be sure to contact Lisa Jarvi Nolan at ljnolan@coloradoleague.org to learn more or to schedule a training. Ideally your first training will occur once your head of school has been identified and can attend with the board so plan accordingly when working with Lisa to get this training scheduled.
