BOARD TRAINING

School Board Training is essential to risk management and the success of a school. Board training needs to be prioritized annually to help safeguard the school. To help strengthen charter boards throughout the state, the Colorado League is happy to offer customized half day and full day trainings to your board and school leadership team. Common training subjects include: financial oversight, board committees, running effective meetings, external relations, performance management, strategic planning, policy development and board continuous improvement.

Steps to creating your customized training:

1. We begin the process by sending you a link to a survey to forward to all of your board members and administrators. This provides the trainer necessary background information on the current knowledge level of the Board and potential upcoming issues. This data is used to recommend the best training topics for your customized training.
2. We will discuss potential training dates, times and the length of the training.
3. We will then solidify a trainer that is available for your selected dates and have them review the results of your survey.
4. We will schedule a planning call with your trainer to go over the recommended training topics and solidify a training agenda. As part of every training, we will begin with a brief overview of Board roles and legal responsibilities as we feel this is a crucial topic that needs to be reiterated with every training.
5. I will email you all training materials to print prior to the training date.

Non-Member Pricing:

Individual 4 hour training: \$1000 (\$700 for members)

Individual 8 hour training: \$1800 (\$1400 for members)
