FOUNDING MEMBER

"I joined the Consortium last summer because I have found great value in networking with other Catholic Foundation leaders from around the country. I have now been to two (2) annual CEO Symposium gatherings in Atlanta and Sioux Falls and welcomed the camaraderie, experience, and professionalism of this group.

Now that the tech platform has been operating since the start of the year, these extensive on-line and in-person resources are accelerating my learning curve on new topics and challenges to solve. I love all the samples of actual materials that are in our new Community File Library, such as collateral and position descriptions. The Consortium is also becoming a vehicle where I can give back to my peers, and pay it forward to a community that has been so valuable to me!"
