Groups Are Launching this Summer!

Consortium "Groups" are smaller sets of members, and in some cases inclusive of some of their *staff*. Members can create Groups to encourage intentional engagement and interaction within the Consortium's digital community platform with one another surrounding a particular leadership or management topic of priority interest. Josh Diedrich
Executive Director
Catholic Foundation for the
Diocese of Green Bay, WI

"I joined as a Consortium Founding Member last August because I see value in coming together as peers. I had been involved with this group for the past four years before it was formally organized as the Consortium and appreciate the experience and expertise my colleagues share with us.

My hope for the Consortium is that it will help me learn from wonderful leaders and bring those ideas back into our Foundation.

In my more than 20 years working for the Catholic Foundation, our vision is to continue to build relationships with families who are passionate about our faith and want to support the mission and ministries of our Catholic Church here in northeastern Wisconsin through their philanthropy. I am glad to be able to share my time and experience to mentor others. God blesses each of us in different ways. I would not be here today without the guidance of the Holy Spirit and beautiful gifts God has given me, so abundantly!"

Foundations. Additional Groups are forming now, given that a member "Sponsor" has offered to champion the Group, and has identified a Group "Admin" to manage the day-over-day responsibilities of leading the Group.

Training has commenced for the Group Admin's so that the following Groups may launch for Member and staff engagement in August- more Groups to form upon Member-Sponsor interest!
