

DISTINGUISHED SERVICE AWARD

STEVEN HAINES

DIRECTOR OF TECHNICAL OPERATIONS – BVH INTEGRATED SERVICES, PC

Steven Haines is a highly-regarded collaborator and big-picture thinker in the design and construction industry. As Director of Technical Operations at BVH, Steve takes a leadership role in the firm's information technology and related practice areas, forming the foundation for the firm's ability to work effectively, communicate ideas, and produce quality project documentation.

Prior to joining BVH, Steve served as Managing Director of Centerbrook Architects and Planners, where he was responsible for the implementation of policies and procedures to ensure excellence in design and business practices and was a thought leader in the adoption and use of Building Information Modeling in the design practice. In addition to Centerbrook Steve previously led technology groups for The S/L/A/M Collaborative and Russell Gibson von Dohlen. Through his active participation on many boards and committees, Steve serves as a resource to the design and construction industry. In addition to his extensive experience in the areas of firm management, staff development, technology, and marketing, Steve is a frequent lecturer, speaker, and advisor on a variety of industry-related topics. His audiences have included Autodesk Executive Forum, Association of Physical Plant Administrators, Connecticut Building Congress, Construction Institute at the University of Hartford, AIA Connecticut, AIA Pittsburgh, Society for Marketing Professional Services, and University of Connecticut.

Steve had been an active member of the Construction Institute for many years dating back to its earliest Technology Committee as well as the Committee on Change, BIM Council and Visionaries Program Committees.
