

# CABOH ADVOCACY ALERTS

To:  
Chair and Members of Boards Of Health

Governors HB Bill No.5044 -Governors Budget **cuts**  
Aid to Local and District Departments of Health  
**from \$4,692,648 to \$4,115,926**  
**Public Hearing Tomorrow February 18, at 4:30 pm**  
ROOM 2C of the LOB  
APPROPRIATIONS COMMITTEE PUBLIC HEARING.

Last year the Governors Budget Cut the per capita by some 5% and is doing it again unless there is enough support from the Public Health Community to keep the per capita as it was @ \$1.85. The Appropriations Committee needs to know from you what this cut means to Public Health Services in the state.

This is an opportunity for Boards of Health to advocate for Public Health by providing testimony either in person or by e mail voicing your concerns.

Please email written testimony in Word or PDF format to [APPtestimony@cga.ct.gov](mailto:APPtestimony@cga.ct.gov).

As there are a number of proposed Bills that effect Pubic Health, let CABOH know if there is a specific one that you may be supporting. I will continue to send these alerts periodically less you e mail me that you would like to be taken off the Advocacy Alert List.

Yours inHealthy Living

Carolyn
