

New England Healthy Homes 2015 Webinar Series

Knowledge and skills to improve the home environment

Planned with input from New England Healthy Homes programs and EPA. Moderated by staff of the New England Public Health Training Center at the Yale School of Public Health.

Healthy Homes Programs aim to assure that all residents live in a healthy and safe home environment. Please join us as we bring regional and national experts together for a summer webinar series on “hot topics” for New England Healthy Homes practitioners. Presenters emphasize practical applications, useful resources and best practice models.

Webinars Scheduled for Summer 2015

Tuesday, July 14 at 12 PM	Thursday, July 23 at 12 PM	Coming in August, 2015
Off-Gassing and the Home Environment	Pesticide Misuse and the Home Environment	EPA’s Renovation, Repair and Painting Program (RRP)
Learn about off-gassing and potential sources, what is known about health effects and how to reduce exposures. <i>Presenters</i> Bill Turner and Steve Caulfield of Turner Building Science and Design, LLC	Learn about indicators and consequences of pesticide misuse as well as prevention strategies and resources. <i>Presenters</i> Susannah Reese of “StopPests” at the Northeastern IPM Center and Kaci Buhul, National Pesticide Information Center	Learn about this EPA program that trains and certifies contractors to follow lead-safe work practices and about RRP resources. <i>Presenters</i> EPA New England Staff <i>Watch your e-mail for further information.</i>
