C.E.L.L. Resource Subcommittee of the CPRC

*Description:* The C.E.L.L. Resource Subcommittee of the CPRC maintains and adds educational content to the C.E.L.L. Resource website.

*Responsibilities*
- Strengthen the existing C.E.L.L. Website by reviewing, revising, enhancing, and adding resources.
- Solicit resource submissions and engage cytotechnology program directors in building the C.E.L.L. website.
- Work with the CPRC sponsors to develop new educational resources.
- Promote the identity and evolving role of the cytology professional, including expansion of the scope of practice as appropriate, through the C.E.L.L. website.

*2022-2023 Initiatives*
- Identify the areas needed to develop additional educational resources
- Create a monthly report on progress on updating and maintaining the C.E.L.L. website
- Collaborate with the CPRC, Program Director’s Committee, and other educational committees to suggest and create new educational modules that fill unmet needs and evolving roles in the cytopathology practice
- Launch the new C.E.L.L. website
