2018-2019
BOARDS, COMMITTEES AND REPRESENTATIVES

CELL Resource Subcommittee of CPRC

Description: The CELL Resource Subcommittee of the CPRC maintains and adds educational content to the CELL Resource website.

Responsibilities

- Strengthen the existing CELL Website by reviewing, revising, enhancing, and adding resources.
- Solicit resource submissions and engage cytotechnology program directors in building the CELL website.
- Work with the Workgroup and the CAP Cytopathology Committee CELL Subgroup to develop new educational resources.
- Promote the identity and evolving role of the cytology professional, including expansion of the scope of practice as appropriate, through the CELL website.

2018-2019 Initiative

- Collaborate with the CPRC and Program Director’s Committees to suggest and create new educational modules that fill unmet needs and evolving roles in cytology.
